**School Committee Policy:**

**#644**

---

**Life Threatening Allergies (LTA)**

In order to minimize the incidence of life threatening allergic reactions, the Maynard Public Schools (MPS) will maintain a system-wide emergency plan for addressing life threatening allergic reactions and maintain an Individual Healthcare Plan (IHP) for any student whose parent/guardian and physician have informed the school in writing that the student has a potentially life threatening allergy. The protocols will be managed by the school nurses.
