Code of Student Conduct Tift County Schools

I. Philosophy of Discipline

The process of educating our youth for citizenship in Tift County Schools is not confined to the classroom curriculum. Schools must teach by example the shared values of a civilized social order and develop a positive school climate. The students, parents, teachers, and community must work together toward promoting acceptable behavior. Discipline is not about punishment. It is about behavioral modification.

Educational values we hold:

- Respect for the worth and dignity of every individual.
- Respect for moral and spiritual values and ethical standards of conduct.
- Equality of opportunity for all children.
- Faith in mankind's ability to make rational decisions.
- Shared responsibility for the common good.
- Self-Mastery is the ultimate goal of all discipline.

The Code of Student Conduct is critical to providing and maintaining a positive school

environment that allows for expression of these values. The purpose of the Code of Student Conduct is to:

- *Outline the role of parents, students, teachers, schools, and the community in establishing a positive learning environment.*
- *Specify offenses which disrupt the environment.*
- *Standardize disciplinary actions that schools use in responding to offenses, with sensitivity to age-appropriateness of such actions.*
- *List laws, policies, and procedures which are related to school conduct and impact on school climate.*

II. *Role of Student, Home, School, and Community*

- Keep in regular contact with the school concerning their child's conduct and progress and offer assistance as necessary.
- Ensure that their child is in daily attendance and report and explain any absence to the school.
- Provide their child with the resources needed to complete classwork.
- Attend conferences and meetings as invited/requested.
- The A Plus Education Reform Act of 2000 authorizes local boards of education, by petition to the juvenile court, to proceed against a parent or guardian for willful and unreasonable refusal to participate in efforts to improve a chronic disciplinary problem student's behavior. If the court finds that the parent or guardian has willfully and unreasonably failed to attend a conference, the court may order the parent or guardian to attend such a conference, order the parent or guardian to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior, or both. After notice and opportunity for hearing, the court may impose a fine, not to exceed \$500.00, on a parent or guardian who willfully disobeys an order of the court.
- Assist their child in being well-groomed, neat, clean, and following the dress standard.
- Bring to the attention of school authorities any problems or conditions which affect their child or other children as members of the school community.
- Discuss report cards and work assignments with their child.
- Support the school by keeping the child in school throughout the entire school day.
- Inform the child of the school's rules, and support the administration of discipline for violations of the Code of Student Conduct.

Students Who:

- Attend all classes daily and are on time.
- Are prepared to come to class with appropriate working materials.
- Are respectful to all individuals and property.
- Refrain from profane or inflammatory statements.
- Conduct themselves in a safe and responsible manner.
- Are well-groomed, clean, neat, and dressed according to the dress standard.
- Are responsible for their own work.
- Abide by the rules and regulations set forth by the school and individual classroom teachers.
- Seek changes in an orderly and recognized manner.
- Participate in deciding appropriate discipline procedures.

Teacher/Administrators Who:

- Support the teachers' plans for classroom control.
- Encourage use of good guidance procedures.
- Maintain an atmosphere conducive to good behavior.
- Exhibit an attitude of respect for students.
- Plan a flexible curriculum to meet the needs of all students.
- Promote effective training or discipline based on fair and impartial treatment of all students.
- Develop a good working relationship among staff and with students.
- Endeavor to involve the entire community in order to improve the quality of life within the school.
- Support and participate in community activities.

Community Members Who:

- Assume responsibility, in part, for developing positive attitudes among children and youth.
- Offer programs and activities that reinforce positive behavior and meaningful use of leisure time.
- Participate in the enforcement of the rules in the Code of Student Conduct as appropriate.

III. Student Support Process

The most appropriate disciplinary action taken by school officials is the LEAST EXTREME MEASURE that can resolve the discipline problem. Teachers and administrators use a variety of student support services prior to and/or during disciplinary action. Early parent contact and involvement is expected. Some of these services include:

- Teacher-student conference
- Teacher-parent conference or contact
- Counselor-parent conference or contact
- Counselor-student conference
- Student program adjustment
- Home visit by teacher
- Referral to counselor, social worker
- Referral to Student Support Team/team meeting with student

IV. Progressive disciplinary actions recognized in the Code

The Code of Student Conduct recognizes many strategies which may be used as alternatives to home suspensions, or as follow-up to suspension or temporary removal from class:

- **Referral To Administrator:** An administrator intervenes when informal actions fail or when violations are serious.
- **Detention:** A school may elect to provide for certain conduct. Each school specifies those types of conduct for which detention may be assigned. A maximum of ten days of detention may be assigned for any one conduct problem.
- **School Chores:** A school may elect to provide the student with an opportunity to perform

supervised activities, away from other students, related to the upkeep and maintenance of school facilities instead of suspension, not to exceed ten hours of work for any one conduct problem. The student and parent may request this alternative; however, the decision rests with the principal.

- **Time-Out:** Temporary removal from the situation/activity where the student is having a problem. The time-out period varies from a few minutes to the length of the school day, depending on the infraction and the student's response to this disciplinary action. Time-out areas are monitored. Parent notification is recommended.
- **In-School Suspension (ISS):** ISS is the removal of students from their regular classes to an isolated area that is highly structured and supervised. Students who exhibit disruptive behavior and/or repeated offenses are assigned to ISS. Students can continue their regular classroom assignments during ISS. Remedial and/or enrichment activities are provided if needed. Parents are notified by phone or letter when students are assigned. Rules specific to ISS are provided to the student and parent when the ISS assignment is made.
- **First offense:** Administrative discretion may be used to determine if students can or cannot attend any school function, or can or cannot practice or participate in any activity during the period of suspension.
- **Second and subsequent offense(s):** Students cannot attend any school function, nor practice or participate in any activity during the period of suspension.
- **Bus Suspension:** Any short-term, long-term, or permanent removal of bus riding privileges.
- **Home Suspension:** A school administrator may suspend a student from school for up to 10 days for chronic disobedience and/or gross misconduct. Principals take this action when they have at least considered other alternatives and rejected them as inappropriate in a given situation. Conferences to resolve the problem are scheduled with the parent, student, and appropriate administrator. **Students are not allowed on campus during the school day, nor are they allowed to attend, participate in, or practice at, any school function or activity during the period of suspension.**
- **Behavior Correction Plan:** When a student's behavior results in chronic discipline, the parent will help write a Behavior Correction Plan. It will state: (1) expected behavior; (2) consequences for misbehavior; and (3) rewards/privileges for compliant behavior.
- **Teacher Authority To Remove Student from Class:**
 - Student Removal: House Bill 605 has drastically impacted student discipline. One major area is that of teacher authority. Teachers have the authority to remove from their classes a student who repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in the class or with the ability of a student's classmates to learn. Before a student is removed from the classroom, the request will be reviewed by a Placement Review Committee to be rejected or upheld.
 - Referral To Alternative Program: When less severe strategies seem inappropriate or when all school strategies have been exhausted, a principal may refer a student to the alternative program if age-appropriate. Misbehavior at the Alternative Program can result in a recommendation for expulsion.
 - Corporal Punishment: Corporal punishment may be administered by the

building principal or designee to a pupil for an infraction of school rules. Corporal punishment will always be administered in the presence of a witness who must be a member of the school faculty. Corporal punishment, when administered to a female student, must be administered by a female faculty member. In all cases involving corporal punishment, a written report will be kept on file in the principal's office. Parents must be contacted prior to administering corporal punishment to receive an explanation of the incident and options for corrective action.

- **Expulsion:** A school principal may request the Superintendent to recommend the expulsion of a student. This is the most serious disciplinary step available. It denies the student attendance in any and all programs of the Tift County Schools for a period of time as designated in policy.
- **Law Enhancement Involvement:** Law enforcement agencies can be contacted at the discretion of the school if criminal activity occurs on campus, if disruption is excessive, or if chronic truancy is a problem. Law enforcement agencies must be notified without exception in situations involving weapons, alcohol, drugs, battery, or sex offenses.

The student code of conduct is effective during the following times and in the following places:

1. **On the school grounds during, before, and after school hours**
2. **On the school grounds at any other time when the school is being used by a group**
3. **Off the school grounds at a school activity, function, or event**
4. **En route to and from school on a school bus or any other school vehicle.**

Disciplinary Action

Any student who violates any conduct related policy will be subject to the disciplinary plan of the school system and may be reported to the appropriate law enforcement agency. Students whose actions violate the criminal code will be reported to the appropriate law enforcement agency. The disciplinary actions to which a student may be subjected include, at the discretion of the building level administrator and/or designee, in-school suspension, out-of-school suspension, referral to proper law enforcement authorities for protection, and/or referral to a disciplinary tribunal for possible long-term suspension, alternative placement, or expulsion.

Responsibility—Employee

All employees must report violations of this policy to the principal or assistant principal of the school where the violation occurred.

Disciplinary Policy—Progressive Model

This progressive discipline model is divided into four levels. Each level represents progressively more serious misbehavior and consequences. The level of discipline imposed shall be based on

the severity of the misbehavior.

Level I Discipline- Level I discipline strategies are used for minor acts of misconduct which interfere with orderly school procedures, school functions, extracurricular programs, approved transportation, or a student's own learning process. Students may be disciplined by the professional staff member involved or may be referred directly to the principal.

Professional staff may utilize any of the discipline management techniques appropriate for the situation, including but not limited to the following:

1. Classroom detention.
2. Classroom isolation from peers.
3. Corporal punishment.
4. Student participation in conferences with parents/guardians and teachers.
5. Participation in a school-service project that enables the student to be engaged in the desired character trait(s).
6. Development of a written or graphic representation that reflects understanding of the specific misbehavior, the nature of the expected behavior and the related character trait(s).
7. Isolation during lunch.

The principal may utilize any of the above discipline management techniques, and/or may employ:

1. Student participation in a conference with parent/guardian, teacher, and/or principal.
2. Restriction from school programs and special assemblies.
3. Partial day in-school suspension.
4. Full day in-school suspension for up to three school days.
5. Participation in the cleaning/repair of any damage caused to the school- related environment.
6. Any other disciplinary technique that positively promotes the student code of conduct and desired character trait(s).

Level II Discipline: Offenses are intermediate acts of misconduct that require administrative intervention. These acts include, but are not limited to, repeated, but unrelated, acts of minor misconduct and misbehaviors directed against persons or property but which do not seriously endanger the health, safety or well-being of others. Consideration of necessary behavior support services should be given, if not already provided.

Students guilty of a Level II offense may receive any of the discipline management techniques appropriate for the situation as determined by the principal or designee, including, but not limited to the following:

1. Student participation in a conference with parent/guardian, teacher, and/or principal.
2. Corporal punishment.
3. Restriction from programs and special assemblies.
4. Partial day in-school suspension.
5. Full day in-school suspension for up to five school days.
6. Suspension from school for up to three school days, which shall include any time during which the student was subject to suspension pending investigation.
7. Participation in the cleaning/repair of any damage caused to the school- related

- environment.
- 8. Financial restitution for the repair of and damage caused to the school- related environment.
- 9. Participation in a school-service project that enables the student to be engaged in the desired character trait(s).
- 10. Any other disciplinary technique that positively promotes the student code of conduct and desired character trait(s).
- 11. Assignment to detention.

NOTE: Level II differs from Level I in that it increases the maximum number of days in in-school suspension from three to five, adds financial restitution for the repair of any damage caused to the school-related environment, provides for out- of-school suspension for up to three school days, and prompts consideration of behavior support services.

Level III Discipline: Offenses are serious acts of misconduct including, but not limited to, repeated misbehavior that is similar in nature, serious disruptions of the school environment, threats to health, safety, or property and other acts of serious misconduct. These offenses must be reported to the principal. Offenses that threaten the health, safety, or well-being of others may result in immediate suspension of the student from the school and/or school-sponsored activities for up to three school days pending disciplinary investigation of the allegations.

Student and parent/guardian participation in a conference with the principal is a required element of all discipline actions in this category, even if such a conference has previously occurred. Initiation of necessary behavior support services should be given, if not already provided. Due process procedures required by federal and state law will be followed. These may include such procedures as the school disciplinary tribunal and/or procedural safeguards provided by the 1997 Individuals with Disabilities Education Act.

Students guilty of a Level III offense may receive any of the discipline management techniques appropriate for the situation as determined by the principal or designee, including, but not limited to the following:

- 1. Restriction from programs and special assemblies.
- 2. Full day in-school suspension for up to 15 school days.
- 3. Suspension from school for up to five school days, which shall include any time during which the student was subject to suspension pending investigation.
- 4. Placement in an alternative education program for up to one semester and until such a time as the student meets the exit requirements of the alternative program.
- 5. Participation in the cleaning/repair of any damage caused to the school- related environment.
- 6. Financial restitution for the repair of any damage caused to the school- related environment.
- 7. Participation in a school-service project that enables the student to be engaged in the desired character trait(s).
- 8. Any other disciplinary technique that positively promotes the student code of conduct and desired character trait(s).

NOTE: Level III differs from Level II because it requires the student and parent/guardian to

participate in a conference with the principal for any discipline incident in this category, omits partial day assignments to in-school suspension, increases the maximum number of days in in-school suspension from five to fifteen, increases the number of days for out-of-school suspension from three to five days, provides an option to immediately suspend a student from school for up to three school days in situations in which the health safety or well-being of others is at-risk during the disciplinary investigation, and adds alternative program placement options.

Level IV Discipline: Offenses are the most serious acts of misconduct. These offenses must be *immediately* reported to the principal. These violations are so serious that they may require use of outside agencies and/or law enforcement. Such acts may also result in criminal penalties being imposed. Any misconduct that threatens the health, safety, or well-being of others may result in immediate suspension of the student from the school and/or school-sponsored activities for up to three school days, pending disciplinary investigation of the allegations.

Student and parent/guardian participation in a conference with the principal is a required element of all discipline actions in this category, even if such a conference has previously occurred. Initiation of necessary behavior support services should be given, if not already provided. Due process procedures required by federal and state law will be followed. These include such procedures as the school disciplinary tribunal and/or procedural safeguards provided by the 1997 Individuals with Disabilities Education Act.

Students guilty of a Level IV offense may receive any of the discipline management techniques appropriate for the situation as determined by the principal or designee, including, but not limited to the following:

1. In-school suspension for up to 30 school days. Out-of-school suspension for up to ten school days, which shall include any time during which the student was subject to suspension pending investigation.
2. Placement in an alternative education program for up to two semesters and until such a time as the student meets the exit requirements for the alternative program.
3. Expulsion from the regular school program for up to one calendar year.
4. Participation in the cleaning/repair of any damage caused to the school-related environment.
5. Financial restitution for the repair of any damage caused to the school-related environment.
6. Participation in a school-service project that enables the student to be engaged in the desired character trait.
7. Any other disciplinary technique that positively promotes the student code of conduct and desired character trait(s).

NOTE: Level IV differs from Level III in that it requires student and parent/guardian participation in a conference with the principal for all discipline incidents in this category, eliminates restriction from programs and activities as an independent consequence, increases the maximum number of days in in-school suspension from 15 to 30, increases the length of placement in an alternative program from up to one semester to up to two semesters, increases the maximum number of days suspended from school from five to ten, and provides for expulsion for up to one calendar year.

Disciplinary Policy and Procedures

The offenses and disciplinary actions listed below apply to all situations which occur on school campuses, during school activities, or during school-related functions, and en route to and from school on school buses. The school has the flexibility to implement the plan to best address the needs of the school and student. Any disability of the student must be taken into account when addressing misbehavior, in accordance with the requirements of Section 504 of the Rehabilitation- Act of 1973, IDEA, and the Georgia Special Education rules. All actions for offenses are **minimum dispositions**. The age of the child and the severity of the offense are considered in the administration of these rules.

Repeated episodes of misconduct will result in increasingly severe disciplinary actions.

Weapons may include, but are not limited to:

1. Any handgun, firearm, rifle, shotgun or similar weapon; any explosive compound or incendiary device; or, any other dangerous weapon as defined in O.C.G.A. § 16-11-121, including a rocket launcher, bazooka, recoilless rifle, mortar, or hand grenade.

The Superintendent shall have the authority either before or after the student is referred for a tribunal hearing to reduce the mandated one-year expulsion under circumstances where the one-year expulsion appears excessive to the superintendent. The tribunal shall also have the authority to modify such expulsion requirements on a case-by-case basis in determining the appropriate punishment. Finally, in any tribunal decision appealed to the board of education, the board may reduce the mandated punishment but shall consider whether the superintendent and/or tribunal considered a reduction and any rationale in denying such a reduction.
4. Students who possess other weapons or hazardous objects as described in paragraph 2 will be subject to discipline strategies as specified in the student code of conduct.
5. In addition, Tift County Board of Education has deemed that any chemical compound designed for the purpose of irritating the eyes by causing a burning sensation, pain, and temporary blindness used in policing, riot control, crowd control, and self-defense, including defense against any form of wildlife is considered a weapon and is prohibited from Tift County School Campuses. Possession or use of a chemical compound, or any derivatives, is an offense in violation of the Tift County School Board code of conduct and will be subject to discipline as specified in the student code of conduct

Reporting Requirements

Any employee who has reasonable cause to believe that a student possesses a weapon as defined in paragraph 1, is involved in an assault using a weapon as defined in paragraph 2, or is involved in a second offense with a weapon on campus must report such violations to the principal or assistant principal of the school. If the principal has reasonable cause to believe that such a report is valid, he/she must immediately make an oral report to the Superintendent and to the appropriate law enforcement authority and district attorney.

Council of Juvenile Court Judges of Georgia Programs

Children in Need of Services (CHINS)

On January 1, 2014, the State of Georgia adopted an updated juvenile code which includes a new case type called Child in Need of Services (CHINS) found in Article 5 of the code beginning at O.C.G.A. 15-11-380. The legislative purpose is:

1. To acknowledge that certain behaviors or conditions occurring within a family or school environment indicate that a child is experiencing serious difficulties and is in need of services and corrective action in order to protect such child from the irreversibility of certain choices and to protect the integrity of such child's family;
2. To make family members aware of their contributions to their family's problems and to encourage family members to accept the responsibility to participate in any program of care ordered by the court;
3. To provide a child with a program of treatment, care, guidance, counseling, structure, supervision, and rehabilitation that he or she needs to assist him or her in becoming a responsible and productive member of society; and
4. To ensure the cooperation and coordination of all agencies having responsibility to supply services to any member of a family referred to the court.

The purpose of CHINS is to deter neglect, child abuse, and delinquency by creating a comprehensive system of support that focuses not only on intervention, but also on prevention. CHINS provide support and services to at-risk youth and their families to help divert them from the path of child welfare and/or court intervention to a healthier and more productive path in life.

Truancy Intervention Project T.I.P.

Truancy Intervention Project better known as T.I.P. is a committee composed of school-based professionals and community leaders to remedy issues regarding students' academics, behavior, and attendance issues. T.I.P. committee conferences are held at the Charles Kent Administration Building on the third floor. Students will be recommended to this committee by school administrators, counselors, and social workers. The T.I.P. committee is led by the Tift County Public School CHINS Coordinator. The T.I.P. committee will agree on the best solutions possible to better our Tift County students and families. The students and families will be case managed by the CHINS Coordinator to ensure that all voluntary agreements are met.

Head Lice

Tift County Schools is following a “no-nit” policy. Your child can return to school only when all head lice and nits are removed from the child’s head. Your child will be rechecked by the school nurse/school personnel before being allowed to return to class. If nits are found, the child will not be allowed to return to class.

Bullying

Tift County Schools believes that all students can learn better in a safe school environment. Behavior that infringes on the safety of students will not be tolerated. Bullying, as the term is defined in Georgia law, of a student by another student is strictly prohibited. Such prohibition shall be included in the Student Code of Conduct for all schools within the school system.

Bullying is defined as follows: An act that is:

1. Any willful attempt or threat to inflict injury on another person, when accompanied by an apparent present ability to do so;
2. Any intentional display of force such as would give the victim reason to fear or expect immediate bodily harm; or
3. Any intentional written, verbal, or physical act, which a reasonable person would perceive as being intended to threaten, harass, or intimidate, that:
 - a. Causes another person substantial physical harm within the meaning of Code 16-5-23.1 or visible bodily harms as such term is defined in Code Section 16-5-23.1;
 - b. Has the effect of substantially interfering with a student's education;
 - c. Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or
 - d. Has the effect of substantially disrupting the orderly operation of the school.

The term applies to acts which occur on school property, on school vehicles, at designated school bus stops, or at school related functions or activities or by use of data or software that is accessed through a computer, computer system, computer network, or other electronic technology of a local school system. The term also applies to acts of cyberbullying which occur through the use of electronic communication, whether or not electronic act originated on school property or with school equipment, if the electronic communication (1) is directed specifically at students or school personnel, (2) is maliciously intended for the purpose of threatening the safety of those specified or substantially disrupting the orderly operation of the school, and (3) creates a reasonable fear of harm to the students' or school personnel's person or property or has a high likelihood of succeeding in that purpose. Electronic communication includes, but is not limited to, any transfer of signs, signals, writings, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system.

Each school shall encourage teachers or other school employees, students, parents, guardians, or other persons who have control or charge of a student, either anonymously or in the person's name, at the person's option to report or otherwise provide information on bullying activity. Any teacher or other school employee who, in the exercise of his or her personal judgment and

discretion, believes he or she has reliable information that would lead a reasonable person to suspect that someone is a target of bullying is encouraged to immediately report it to the principal.

Any report will be investigated by the administration based on the nature of the complaint in a timely manner to determine whether bullying has occurred, whether there are other procedures related to illegal harassment or discrimination that should be implemented and what other steps should be taken.

Schools should clearly communicate to all parties that retaliation following a report of bullying is strictly prohibited and may result in strong disciplinary action.

Acts of bullying shall be punished by a range of consequences through the progressive discipline process, as stated in the Code of Conduct. Such consequences shall include disciplinary action, as appropriate under the circumstances. However, upon a finding by the disciplinary hearing officer, panel or tribunal that a student in grades 6-12 has committed the offense of bullying for the third time in a school year, the student shall be assigned to an alternative education program.

Upon a finding by a school administrator that a student has committed an act of bullying or is a victim of bullying, the administrator or designee shall notify the parent, guardian, or other person having control or charge of the student by telephone call or through written notice, which may be done electronically.

Student and parents will be notified of the prohibition against bullying and the penalties for violating the prohibition by posting information at each school and by including such information in the student/parent handbooks.

Off-Campus Conduct

Tift County Board of Education and the institutions under its jurisdiction shall have authority to control the conduct of students under the general power to provide for control and management of the school system. It is the duty of the Tift County Board of Education to approve necessary rules and policies to regulate student conduct for the purpose of maintaining good order and discipline in the school. The Board has a responsibility to provide protection for students and employees and to provide and maintain a safe and orderly environment for education to take place.

(a) on the school grounds during or immediately before or immediately after school hours; (b) on the school grounds at any other time; (c) off the school grounds at a school activity, function or event; (d) en route to and from school or school activity.

Authority to take disciplinary action also extends to any off-campus non-school related actions by students which have a direct and immediate impact on school discipline, the educational

function of the school or the welfare of the students and staff. A student who has been formally charged with violation(s) of criminal law, whether or not the case has been adjudicated, and whose presence on school property may endanger the welfare and/or safety of other students or staff, or whose presence may cause substantial disruption at school is subject to disciplinary action. Off-campus, non-school related misconduct may be considered as a sufficient basis for suspension, exclusion from school. Other appropriate disciplinary action including but not limited to in-school suspension and assignment to an alternative educational program or site may be taken.

School officials shall contact proper authorities to verify any and all allegations that a student has been arrested or charged. The Superintendent and staff shall cooperate with the probation office or courts in order to allow for that office to conduct a proper investigation. If the matter involves a juvenile, the Superintendent and staff shall cooperate with the Juvenile Court concerning the student's conduct and record in school.

Any suspension, expulsion, or exclusion from enrollment under this policy shall not waive the student's rights to a due process hearing as set out in the Board policy relating to suspension or expulsion.

On reasonable cause that private property brought onto school property by a student or that the person of a student while on school property contains or conceals items described in the Code of Student Conduct, school officials may search such property or person. Upon the failure of any student to grant such permission, school officials may detain such student until such time as the school day ends, the school receives permission of the student's parent or guardian for such search, or a warrant is issued authorizing such search, whichever event shall first occur.

Any school principal or principal's designee receiving a report of sexual abuse as defined in O.C.G.A. 19-7-5 shall make an oral report immediately, but in no case later than 24 hours from the time there is reasonable cause to believe a child has been abused. The report should be made by telephone and followed by a written report in writing, if requested, to a child welfare agency providing protective services, as designated by the Department of Human Resources, or, in the absence of such agency, to an appropriate policy authority or district attorney.

Reports of acts of sexual misconduct against a student by a teacher, administrator, or other employee not covered by O.C.G.A. 19-7-5 or 20-2-1184 shall be investigated immediately by school or system personnel. If the investigation of the allegation of sexual misconduct indicates a reasonable cause to believe that the report of sexual misconduct is valid, the school principal or principal's designee shall make an immediate written report to the superintendent and the Professional Standards Commission Ethics Division.

Bus Conduct

The Superintendent of Schools will ensure that all bus drivers know and understand their responsibilities for establishing and maintaining appropriate student behavior on school buses. The administrative procedure for Bus Conduct will be included in each driver's Transportation Handbook.

Discipline

Self-control on the part of the student is necessary for the safe operation of any school bus. Students are expected to conform to the same standards of behavior as required during regular school activities.

Students who fail to conform to reasonable behavior expectations may expect to receive disciplinary measures. Repeated or serious violations will result in short or long term loss of bus privileges, and subject to all other provisions contained in Code of Student Conduct.

Safety

All drivers will emphasize safety instructions and emergency evacuation procedures during the first week of school. An annual emergency drill will be conducted.

Students are expected to follow safety procedures concerning loading, unloading, seating and emergency evacuation as directed by their driver, teacher and principal. Violation of safety measures is considered a serious offense; appropriate disciplinary measures will result.

Possession/Use of Personal Electronic Communication Devices by Students

Student and Faculty Owned Electronic Devices On Campus

Tift County Schools does not prohibit students from bringing personal electronic devices on campus. However, the use of personal electronic devices on each campus is subject to the discretion of the administration of that campus. There is no uniform rule requiring or allowing use of devices during the school day. Students, parents, and staff are duly informed that bringing a personal device on campus can subject it to search and seizure in the event of an investigation of misuse.

Definition of “Device”

“Device” means a wireless and/or portable electronic hand held equipment that includes, but is not limited to, existing and emerging mobile communication systems and smart technologies, portable internet devices, Personal Digital Assistants (PDAs), hand held entertainment systems or portable information technology systems that can be used for word processing, wireless Internet access, image capture/recording, sound recording and information transmitting/receiving/storing, etc. This list is not all inclusive and the administration of the building will determine if the device is acceptable.

Internet

The school system has created a “GUEST” WIFI network for student personal devices on campus. Only this internet gateway provided by the school system may be accessed while on campus. Personal internet connectivity such as but not limited to cell phones/cell network adapters are not permitted to be used by students to access outside internet sources at any time.

Student cellular devices must be set to WIFI and join Tift County Schools “GUEST” network.

Security and Damages

The responsibility for keeping one's device secure rests with the individual owner. **The school system, its staff and employees, shall not be liable for any loss or damage to any device owned by a user or third party.** If a device is stolen or damaged, it will be handled through the administrative office similar to other personal property that is stolen or damaged. It is recommended that serial numbers are recorded and that skins (decals) and other custom touches are used to identify a user's device. Serial numbers will be used to identify "found" items. Additionally, protective cases for devices are encouraged.

Student Responsible Internet Use Guidelines

As a student, I understand that using digital devices (whether personal or school owned) and the school system's technological resources is a privilege, conditioned upon compliance with this regulation.

Students are required to:

- Use digital devices, networks and software in school for educational purposes and activities.
- Show respect for yourself and others when using
- technology including social media.
- Give acknowledgement to others for their ideas and work.
- Report inappropriate use of technology immediately.
- Abide by the Student Acceptable Use Agreement with the school system.

Educational Use ONLY During Class – devices are to be used to support or enhance teaching and learning only while in the classroom unless specifically authorized by school level administration.

Used ONLY with Teacher Discretion During Class – Teachers will work with students to establish when technology devices are to be used in class.

Optional – it is optional to bring a device from home.

Students need to be responsible for their own device. As a condition to using the school system's technological resources and before a student is eligible to access the system's network, such student and his or her parent or guardian must execute and return the Student Acceptable Use Agreement (IFBG-E1) and agree to accept and abide by the terms and conditions set forth in this regulation.

The Board of Education shall require that all schools and programs within the district comply with State Board of Education Rule 160-5-1-.35 concerning “seclusion” and “restraint,” as those terms are defined within the rule.

This policy is not intended to prevent the use of physical restraint in limited circumstances where a student exhibits behavior that place the student or others in imminent danger and the student is not responsive to verbal directives or less intensive techniques. The Board of Education recognizes that in determining when and how to implement this policy and any procedures related to it, educators will have to exercise their professional judgment and discretion. Therefore, the policy is not to be construed as imposing ministerial duties on individual employees. Further, it is not intended to interfere with the duties of law enforcement or emergency medical personnel.

For schools and programs within the district, that use physical restraint as defined within SBOE rule, the Superintendent or designee shall develop and implement written procedures governing its use, which shall include the following provisions:

Section 504 Procedural Safeguards

1. **Overview:** Any student or parent or guardian (“grievant”) may request an impartial hearing due to the school system’s actions or inactions regarding your child’s identification, evaluation, or educational placement under Section 504. Requests for an impartial hearing must be in writing to the school system’s Section 504 Coordinator; however, a grievant’s failure to request a hearing in writing does not alleviate the school system’s obligation to provide an impartial hearing if the grievant orally requests an impartial hearing through the school system’s Section 504 Coordinator. The school system’s Section 504 Coordinator will assist the grievant in completing the written Request for Hearing.
2. **Hearing Request:** The Request for the Hearing must include the following:
 - a. The name of the student.
 - b. The address of the residence of the student.
 - c. The name of the school the student is attending.
 - d. The decision that is the subject of the hearing.
 - e. The requested reasons for review.
 - f. The proposed remedy sought by the grievant.
 - g. The name and contact information of the grievant.

Within 10 business days from receiving the grievant’s Request for Hearing, the Section 504 Coordinator will acknowledge the Request for Hearing in writing and schedule a time and place for a hearing. If the written Request for Hearing does not contain the necessary information noted above, the Section 504 Coordinator will inform the grievant of the specific information needed to complete the request. All timelines and processes will be stayed until the Request for Hearing contains the necessary information noted above.

3. **Mediation:** The school system may offer mediation to resolve the issues detailed by the grievant in his or her Request for Hearing. Mediation is voluntary and both the grievant and school system must agree to participate. The grievant may terminate the mediation at any time. If the mediation is terminated without an agreement, the school system will follow the procedures for conducting an impartial hearing without an additional Request for Hearing.
4. **Hearing Procedures:**
 - a. The Section 504 Coordinator will obtain an impartial review official who will conduct a hearing within 45 calendar days from the receipt of the grievant’s Request for Hearing unless agreed to otherwise by the grievant or a continuance is granted by the impartial review official.
 - b. Upon a showing of good cause by the grievant or school system, the impartial review official, at his or her discretion, may grant a continuance and set a new hearing date. The request for a continuance must be in writing and copied to the other party.

- c. The grievant will have an opportunity to examine the child's educational records prior to the hearing.
- d. The grievant will have the opportunity to be represented by legal counsel at his or her own expense at the hearing and participate, speak, examine witnesses, and present information at the hearing. If the grievant is to be represented by legal counsel at the hearing, he or she must inform the Section 504 Coordinator of that fact in writing at least 10 calendar days prior to the hearing. Failure to notify the Section 504 Coordinator in writing of representation by legal counsel shall constitute good cause for continuance of the hearing.
- e. The grievant will have the burden of proving any claims he or she may assert. When warranted by circumstances or law, the impartial hearing officer may require the recipient to defend its position/decision regarding the claims (i.e. A recipient shall place a disabled student in the regular educational environment operated by the recipient unless it is demonstrated by the recipient that the education of the person in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. 34 C.F.R. §104.34). One or more representatives of the school system, who may be an attorney, will attend the hearing to present the evidence and witnesses, respond to the grievant testimony and answer questions posed by the review official.
- f. The impartial review official shall not have the power to subpoena witnesses, and the strict rules of evidence shall not apply to hearings.
- g. The impartial review official shall have the authority to issue pre-hearing instructions, which may include requiring the parties to exchange documents and names of witnesses to be present.
- h. The impartial review official shall determine the weight to be given any evidence based on its reliability and probative value.
- i. The hearing shall be closed to the public.
- j. The issues of the hearing will be limited to those raised in the written or oral request for the hearing.
- k. Witnesses will be questioned directly by the party who calls them. Cross-examination of witnesses will be allowed. The impartial review official, at his or her discretion, may allow further examination of witnesses or ask questions of the witnesses.
- l. Testimony shall be recorded by court reporting or audio recording at the expense of the recipient. All documentation related to the hearing shall be retained by the recipient.
- m. Unless otherwise required by law, the impartial review official shall uphold the action of school system unless the grievant can prove that a preponderance of the evidence supports his or her claim.
- n. Failure of the grievant to appear at a scheduled hearing unless prior notification of absence was provided and approved by the impartial review official or just cause is shown shall constitute a waiver of the right to a personal appearance before the

impartial review official.

5. **Decision:** The impartial review official shall issue a written determination within 20 calendar days of the date the hearing concluded. The determination of the impartial review official shall not include any monetary damages or the award of any attorney's fees.
6. **Review:** If not satisfied with the decision of the impartial review official, any party may pursue any right of review, appeal, cause of action or claim available to them under the law or existing state or federal rules or regulation.

Procedures when Disciplining Children with Disabilities

School personnel may, for not more than ten school days in a row, remove a child with a disability who violates the code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension without consulting the student's IEP team. School personnel may also impose additional removals of not more than ten days for separate incidents of misconduct, as long as those removals do not constitute a change of placement.

Once a child has been removed from his or her current placement for a total of ten, consecutive or not consecutive, school days in the same school year, the school system must, during any subsequent days of removal in that school year, provide services that enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

Within ten school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct (except for a removal that is less than ten school days and is not a change in placement), the school system, the parent and relevant members of the IEP team must review all relevant information in the student's file, in the IEP, any teacher observations and any relevant information provided by the parent to determine:

- a. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- b. If the conduct in question was direct result of the school systems failure to implement the child's IEP.

If the relevant members of the IEP team determine that either of these conditions was met, the conduct must be determined to be a manifestation of the child's disability. If the conduct was the result of the school system's failure to implement the IEP, the school system must take immediate action to remedy those deficiencies. When the conduct is a manifestation of the student's disability the IEP team must conduct (or review if already in place) the Functional Behavioral Assessment (FBA) and develop and implement (or review and modify) a behavioral intervention plan (BIP) for the student to address the behavior so as to prevent it from occurring in the future. If your child carries a weapon to school or to a school function; if your child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function; or if your child inflicts serious bodily injury on another person while at school, on school premises or at a school sponsored function, school system personnel may order a change in placement of your child to (a) an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 school days (to the extent such alternatives would be applied to children without disabilities), or to (b) an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days without regard to whether or not the behavior was a manifestation of disability. The alternative education setting shall be determined by the IEP team.

1. School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement is appropriate.
2. An ALJ/hearing officer may order a change in placement of your child to the IEP-determined appropriate interim alternative educational setting for not more than 45

days if the ALJ/hearing officer determines that maintaining the current placement of your child is substantially likely to result in injury to your child or to others; and determines that the interim alternative educational setting meets the requirements of paragraph (5).

3. Any interim alternative educational setting in which your child is placed pursuant to paragraph (1) or paragraph (4) in this section shall: (a) be selected so as to enable your child to continue to receive educational services in order to participate in the general curriculum, although in another setting, and to continue to progress toward the goals set out in the IEP; and (b) receive the services and modifications of a functional behavioral assessment and behavior intervention plan designed to address the behavior so that it does not recur.
4. If a disciplinary action is contemplated as described in paragraph (1) or paragraph (4) of this section for the behavior of your child, you shall be notified of that decision and of all procedural safeguards accorded under this section no later than the date on which the decision to take that action is made, and immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action is made, the school system, the parent and relevant members of the IEP team shall conduct a review of the relationship between your child's disability and the behavior subject to the disciplinary action.
5. In carrying out a review described in paragraph (6) of this section, the school system, the parent, and relevant members of the IEP team (as determined by the parent and the school system) shall review all relevant information in the student's file, including the child's IEP, and teacher observations, and any relevant information provided by the parents to determine (1) if the conduct in question was caused by, or had a direct and substantial relationship to the child's disability; or (2) if the conduct in question was the direct result of the school systems failure to implement the IEP. When the school system, the parent, and the relevant members of the IEP determine that either (a) or (b) is applicable, the conduct is a manifestation of the disability. If the determination is that the behavior of your child was not a manifestation of his or her disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to your child in the same manner in which they would be applied to children without disabilities except that the child: (a) must continue to receive educational services so as to enable the child to continue to participate in the general education curriculum, although in another setting and to progress toward meeting the goals set out in the child's IEP; and receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.
6. If the determination is made that the conduct was a manifestation of the disability, then the IEP team shall conduct a functional behavioral assessment and implement the behavior intervention plan or review such and revise as necessary if already in place. The child shall be returned to the placement from which he or she was removed unless the parent and the school system agree to a change of placement as part of the modification of the behavioral intervention plan. For circumstances described in paragraph (1) or (4) an interim alternative setting may be used as determined by the IEP team.

7. If you request an expedited due process hearing regarding a disciplinary action described in paragraph (1)(b) or paragraph (3) to challenge the interim alternative educational setting or the manifestation determination, your child shall remain in the interim alternative educational setting pending the decision of the ALJ/hearing officer or until the expiration of the time period provided for in paragraph (1)(b) or paragraph (3), whichever occurs first, unless you and the State or the school system agree otherwise. Such expedited due process hearing must occur within 20 school days of the date the hearing is requested and must result in a determination within 10 school days after the hearing; a resolution session meeting must occur within seven days of the date the hearing is requested and the hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receipt of the hearing request. The decision of an expedited due process hearing may be appealed.
8. When an expedited due process hearing has been requested regarding placement as a result of a violation of the code of conduct, the child shall remain in the interim alternative educational setting pending the decision of the ALJ/hearing officer or until the expiration of the time period defined, whichever occurs first, unless the parent and the State or local agency agree otherwise.
9. If a child has not been determined eligible for special education and related services and violated a code of student conduct, but the school system had knowledge before the behavior occurred that the child may be a child with a disability, then the child may assert the protections described in this notice. A school system has knowledge that the child may be a child with a disability if:
 - a. The parent of the child has expressed concern in writing that the child is in need of special education and related services to supervisory or administrative personnel or the teacher of the child.
 - b. The parent requested an evaluation related to eligibility for special education and related services under the IDEA.
 - c. The child's teacher or other system personnel expressed specific concerns about a pattern of behavior demonstrated by the child directly to the school system's director of special education or to other supervisory personnel of the school system.

A school system does not have knowledge if:

- a. The child's parent has not allowed an evaluation of the child.
- b. Has refused special education and related services.
- c. Has revoked consent for the delivery of special education and related services or;
- d. The child has been evaluated and determined not to be a child with a disability eligible for services under the IDEA.

If you would like a further explanation of any of these rights, you may contact the special education director for your local school system.
