

# The New ILearn State Assessment Math Grades 3-4-5

*The purpose of this workshop is to help educators understand and prepare for the new ILEARN state math assessment scheduled for April-May of 2019. The Department of Education (DOE) has provided helpful resources for students, parents, and teachers to achieve this goal.*

*The objectives for the math 3-5 workshop are as follows:*

- Learn about the connections among content standards, process standards, depth of knowledge levels (DOK) and problem solving strategies*
- Learn how to evaluate the (DOK) level for math problems and/or activities.*
- Learn how to use new resources provided by the DOE linked to the new ILEARN state math assessment for 2018-19*
- Learn how to use other classroom-ready math resources aligned to the new ILEARN state math assessment for school year 2018-19*
- Create a new math curriculum map (calendar) based upon the 2014 Indiana Academic Standards with a particular focus on “Super Standards”*
- Work in grade-level teams to create DOK math problems and/or performance tasks at level 3*
- Work in grade-level teams to create bell ringer activities or math problems aligned to the “Super Standards”*
