## MEDICATION AUTHORIZATION

Hills-Beaver Creek School District policy states that prescription medications may not be given to a student unless a written request from the parent/guardian is received.

Parents of students requesting that medication be administered during the school day MUST provide for the school:

- **The Physician's Medication Order** (A physician's signature is required for medications that are to be given for more than 10 consecutive school days).
- **A Parent's Written Consent/Authorization**
- **Medication supplied in the original container from the pharmacy**

### Parent/Guardian Authorization for Medication Administration

I request that this medication be given during school hours as ordered by this student's physician/licensed prescriber. I also request the medication be given on field trips, etc. I will notify the school of any changes in the medication administration. I give permission for the school nurse to communicate with the student's teachers about the actions and side effects of this medication. I give permission for the school nurse to consult with the physician regarding any questions that arise concerning this medication or medical condition. I give permission for the medication to be given by the designated school personnel as delegated by the school nurse.
