ADJOURN

1. GUESTS

There were two guests in attendance to address the board. Chairman Pierce explained that Kevin Goins would be the official timekeeper and each speaker would have 5 minutes to address the board and when four minutes were up, Mr. Goins would let them know they have one minute remaining.

Director Parkison called on the first speaker, Mr. Faun Ramey.

Mr. Ramey said he has been the McMinn Middle School Tennis Coach for the last couple years. He said that his wife had passed away over the summer, and he knew that he wanted to do something in her memory. Mr. Ramey said she loved tennis and was an avid tennis player so he thought about what the middle school and high school could benefit from. He said there is a need for bathrooms and shade at the tennis courts. Mr. Ramey said he would like to propose building a self-funded pavilion at the tennis courts. Chairman Pierce recommended that Director Parkison and Heath Frazier go through the procedures and follow protocol and then bring it back before the board as a recommendation since no action could be taken at this meeting.

Director Parkison called on the second speaker, Dr. Patricia Waters.

Dr. Waters said she is asking the McMinn County Board of Education to consider joining with many other voices across the state, which includes school boards, to ask the General Assembly to revisit some laws that neither support the learning of children or the Pedagogy that teachers know is effective. She said lawmakers are already discussing the ineffectiveness of SB 2407 HB 2154, the age-appropriate materials act of 2022. Dr. Waters said this law is unnecessary, redundant, and punitive and teachers and librarians are trained to assess text for readability and interest, not the Tennessee General Assembly. She said the General Assembly did not seek expert opinions from teachers, superintendents, principals, or reading specialists. She said there is also another law, TN Code 49-6-3115, beginning with the 2022-2023 school year, a student in the third grade shall not be promoted to the next grade level unless the student is determined to be proficient in English Language Arts. This is based on the student's achieving of a performance level rating on track or mastered on the ELA portion of the student's most recent Tennessee Comprehensive Assessment Program Test and this also covers 4th grade. Dr. Waters said children do better if they know better and a school can meet so many needs to nurture and sustain a child's well-being to educate. She asked for the board to think about the Literacy Law that was passed that mandated two work sessions for ELA to support literacy and to reconsider that law as being just a first step and it is not going to address the issue. Dr. Waters said that everyone in the school building has to have a buy in on literacy, and that means supporting content specific vocabulary, content specific reading instruction, and content specific strategies for supporting student reading. She said teachers cannot learn that in just one or two workshops, they need sustained support across the school year. Dr. Waters said she would like for everyone to think about letting Tennessee Students read and that we support reading, and we lift that burden from their very small shoulders.

Chairman Pierce asked if any board member needed to address any item on the Regular Consent Agenda. Dustin Prichard moved to approve the Regular Consent Agenda. Motion was seconded by Donna Casteel. Chairman Pierce asked for a roll call vote:
