

Operational Services

Safety

Safety Program

All District operations, including the education program, shall be conducted in a manner that will promote the safety of everyone on District property or at a District event.

The Superintendent or designee shall develop and implement a comprehensive safety and crisis plan incorporating both avoidance and management guidelines. The comprehensive safety and crisis plan shall specifically include provisions for: injury prevention; bomb threats, weapons, and explosives on campus; school safety drill program, tornado protection; instruction in safe bus riding practices, emergency aid; post-crisis management; and responding to medical emergencies at an indoor and outdoor physical fitness facility. During each academic year, each school building that houses school children must conduct a minimum of:

1. Three school evacuation drills,
2. One bus evacuation drill, and
3. One severe weather and shelter-in-place drill, and
4. One law enforcement drill.

During the school year, the Superintendent or appropriate designee must conduct a law enforcement drill in one of the District's school buildings. Any appropriate local law enforcement agency may conduct and participate in this law enforcement drill. The law enforcement drill must be conducted according to the District's comprehensive safety and crisis plan with the participation of the appropriate law enforcement agency. This drill and it may be conducted on days and times that students are not present in the building.

In the event of an emergency that threatens the safety of any person or property, students and staff are encouraged to use any available cellular telephone. A school bus driver is prohibited from operating a school bus while using a cellular telephone, except:

- (1) during an emergency situation,
- (2) to call for assistance if there is a mechanical problem,
- (3) where a cellular telephone is owned by the School District and used as a digital two-way radio, and
- (4) when the school bus is parked.

Convicted Child Sex Offender and Notification Laws

State law prohibits a child sex offender from being present on school property or loitering within 500 feet of school property when persons under the age of 18 are present, unless the offender is:

1. A parent/guardian of a student attending the school and the parent/guardian is:
 - i. attending a conference at the school with school personnel to discuss the progress of his or her child academically or socially,
 - ii. participating in child review conferences in which evaluation and placement decisions may be made with respect to his or her child regarding special education services, or
 - iii. attending conferences to discuss other student issues concerning his or her child such as retention and promotion and notifies the Building Principal of his or her presence at the school, or
2. Has permission to be present from the School Board, Superintendent, or Superintendent's designee. If permission is granted, the Superintendent or Board President shall provide the details of the offender's upcoming visit to the Building Principal.

In all cases, the Superintendent, or designee who is a certified employee, shall supervise a child sex offender whenever the offender is in a child's vicinity.

If a student is a sex offender, the Superintendent or designee shall develop guidelines for managing his or her presence in school.

The Superintendent shall develop procedures for the distribution and use of information from law enforcement officials under the Sex Offender Community Notification Law and the Murderer and Violent Offender Against Youth Community Notification Law. The Superintendent or designee shall serve as the District contact person for purposes of these laws. The Superintendent and Building Principal shall manage a process for schools to notify the parents/guardians during school registration that information about sex offenders is available to the public as provided in the Sex Offender Community Notification Law. This notification must occur during school registration and at other times as the Superintendent or Building Principal determines advisable.

All contracts with the School District that may involve an employee or agent of the contractor having any contact, direct or indirect, with a student, shall contain the following:

The contractor shall not send to any school building or school property any employee or agent who would be prohibited from being employed by the District due to a conviction of a crime listed in 105 ILCS 5/10-21.9, or who is listed in the Statewide Sex Offender Registry or the Statewide Violent Offender Against Youth Database. The contractor shall obtain a fingerprint-based criminal history records check before sending any employee or agent to any school building or school property. Additionally, at least quarterly, the contractor shall check if an employee or agent is listed on the Statewide Sex Offender Registry or the Statewide Violent Offender Against Youth Database.

If the District receives information that concerns the record of conviction as a sex offender of any employee of a District contractor, the District will provide the information to another school, school district, community college district, or private school that requests it.

Automated External Defibrillator (AED)

The Superintendent or designee shall implement a written plan for responding to medical emergencies at the District's physical fitness facilities in accordance with the Fitness Facility Medical Emergency Preparedness Act.

The plan shall provide for an automated external defibrillator (AED) to be available according to State law requirements.

This policy does not create an obligation to use an AED nor is it intended to create any expectation that an AED will be present or a trained person will be present and/or able to use an AED.

Carbon Monoxide Alarms

The Superintendent or designee shall implement a plan with the District's local fire officials to:

- 1) Determine which school buildings to equip with approved *carbon monoxide alarms* or *carbon monoxide detectors*.
- 2) Locate the required carbon monoxide alarms or carbon monoxide detectors within 20 feet of a carbon monoxide emitting device, and
- 3) Incorporate carbon monoxide alarm or detector activation procedures into each school building that requires a carbon monoxide alarm or detector.

The Superintendent or designee shall ensure each school building annually reviews these procedures.

Unsafe School Choice Option

The unsafe school choice option allows students to transfer to another District school or to a public charter school within the District. The unsafe school choice option is available to:

1. All students attending a persistently dangerous school, as defined by State law and identified by the Illinois State Board of Education.
2. Any student who is a victim of a violent criminal offense, as defined by 725 ILCS 120/3, that occurred on school grounds during regular school hours or during a school-sponsored event.

The Superintendent or designee shall develop procedures to implement the unsafe school choice option.

Student Insurance

The Board shall annually designate a company to offer student accident insurance coverage. The Board does not endorse the plan nor recommend that parents/guardians secure the coverage, and any contract is between the parents/guardians and the company. Students participating in athletics, cheerleading, or pompons must have school accident insurance unless the parents/guardians state in writing that the student is covered under a family health insurance plan.

Emergency Closing

The Superintendent is authorized to close the schools in the event of hazardous weather or other emergencies that threaten the safety of students, staff members, or school property.

E-Learning Days

The use of E-Learning Days in lieu of emergency days will be determined at the discretion of the Superintendent or his or her designee.
