What additional activities could be included in the summer program that would help you academically? _

18 responses

None

Don't know

I have not attended any summer program. I would go if there were chemistry and history programs.

No

Not sure

none

STEM camp

book clubs and labs

book club

book clubs

The school could have a stem camp.

Maybe some kids could have a lemonade stand so the 3rd graders can count money

nothing

make things fun and make learning fun

STEM Camps, Tutoring

I think science programs that all can attend with permission would be helpful.

none.

I feel the school should but a camp in where they have everything

What additional activities could be included in tutorials that would help you academically? _

18 responses

I'm good

Don't know

I do not go to tutorials.

Tsi and sat prep

Not sure

I think we should do tutorials after school therefore we don't miss any extra learning time.

none

older kids can help the people with tutorials and do fun activitys to help learn

tutorials additional activites should be in the eavning

on the weekend

To explain more about the concept like word it different.

We should have during the day tutorials because if a kid has something very important they wouldn't be able to make after school.

Domino math games for the tutorials.

we need older kids helping and the tutorials after school

Tutorials during the weekends and recess

I think tutorials would be easier if we had older kids help us individually.

I would like people who did good on star so they can teach kids who did not do good on star to teach them.

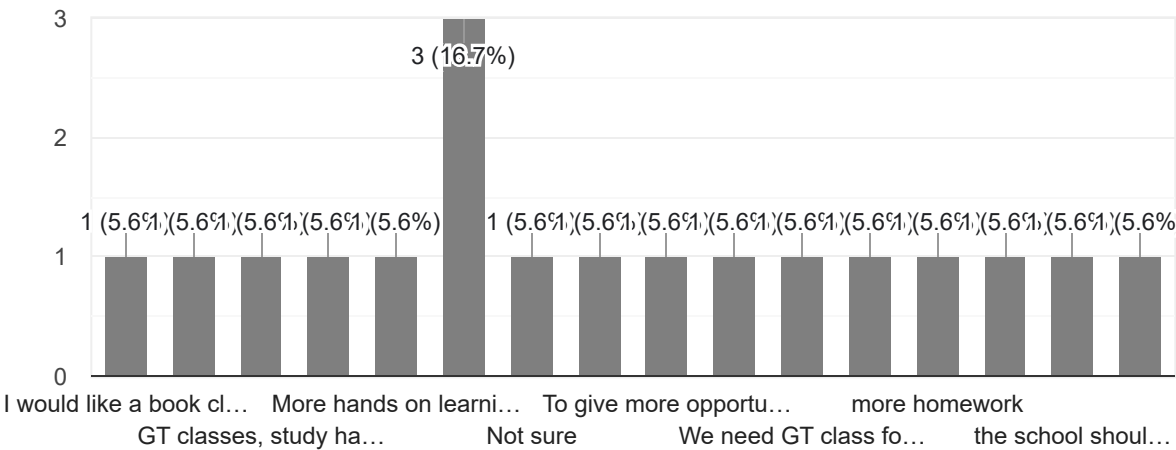

I feel that there should be an option for during the day and after noon tutorials .

Are there additional resources that the district should consider that would help address your academic needs?

Were opportunities offered to address mental health needs, emotional counseling, and/or wellness services?
