

Code No. 507.8 STUDENT SPECIAL HEALTH SERVICES

Parents are advised to administer medication and perform health care procedures at home, outside school hours, if at all possible. It is recognized, however, that some students may need special health services during the school day. These students will receive special health services in accordance with the student's individualized health plan.

The superintendent in conjunction with the school nurse and/or licensed health personnel, will establish administrative regulations for the implementation of this policy if applicable.
