

RE-START

GED RE-Engage Program

Traditional schooling does not work for every child. This is why, we believe every child should be offered alternative options for receiving a quality education. The GED RE-Engage program is designed for students between the ages 16-18y, who are truant, behind on credits and living in rural communities. We are able to accept 6 students each semester into the program. The student must TABE test for the program and be reading on at least an 8th grade level. The ROE will cover the educational expenses. However, parents are responsible for covering the cost of the GED practice test \$6.00 and transporting their child to and from school. The GED RE-Engage program is held at the READY school in Champaign IL.

The Process:

1. The home school will discuss the **GED** alternative option with the student and family.
2. The home/current school must complete an **AIP online referral**. We can email you the direct link to the referral.
3. The home school must contact AIP specialist (**Kim Nix or Meggi Aspengren**) to notify them of the GED request/interest. **217.239.0322**.
4. The specialist will review the referral.
5. The Specialist will contact the family to discussed the program and schedule a time for the student **TABE** test (**see where student is academically**).
6. Discuss results with student & family, complete IOEP and create a schedule. (**If the student qualifies**)

Schedules

- We offer flexible schedules. Schedules can be shortened or modified to best meet the student's needs.

Transportation

- Parents are responsible for providing transportation to and from school.
- In some cases, you can contact the home school to see if they will provide transportation for the student.

Requirements

Student I.D

- Student will need to have an official state ID.
