Mt. Healthy City Schools Preschool Program

Preschool Classes are in session: MONDAY-THURSDAY

Mt. Healthy Early Learning Center: AM Session 8:05-10:40 (bus leaves at 10:50am) PM Session 12:05-2:40 (bus leaves at 2:50pm)

Dear Preschool Parents and Guardians,

Preschool is an important milestone in your child's life. As children go through this experience, learning about the world outside of their homes, they develop social skills, as well as emotional and academic readiness for kindergarten.

The Mt. Healthy Preschool Program provides experiences where children interact with materials that enrich their cognitive, emotional, and physical growth. The curriculum provides hands-on experiences and a feeling of success among all children. Our Preschool Program stresses a developmentally appropriate curriculum and parent involvement. In addition to phone calls, emails, and in-person communication, a tool that we use to stay in contact with families is the ClassDojo app. Your teacher can share more about how this works.

Instruction reflects the needs of the individual child. The classroom centers are thoughtfully planned for small group, large group, and independent exploration throughout the session. The class routine allows for flexibility that is required when young children's interests or needs indicate more urgent priorities. Our classes reflect a diverse group of children, some of whom have disabilities.

Please read this Parent Handbook carefully. It contains important information you will need this year, including pickup and drop off information and reporting of absences. We know that your child will have a very positive experience in the Mt. Healthy Preschool Program.

Thank you for choosing to share your child with us. Please feel free to call at any time with questions or concerns you may have.

Sincerely, The Mt. Healthy Preschool Team

Admission Requirements

Children entering preschool must be at least three years of age on or before August 1st of the school year they enter preschool. The preschool does not accept new tuition students after May 1st. Because of IDEA regulations, children on Individualized Educational Plan (IEP) may begin preschool any time after their third birthday and completion of the IEP. Children on IEPs must reside in the Mt. Healthy School District. Students who are 4 years of age will be given priority based on their application date.

Documentation Required for Registration:

- Three (3) proofs of Residency: Lease Agreement or Mortgage Statement and/or Two (2) Utility bills, in residents name, dated within the last Thirty (30) days
- Custody Papers, if applicable
- Parent/Guardian Photo ID
- Original Birth Certificate
- Social Security Card (optional)
- Current Immunization Records

Additional Forms and Information needed to attend:

- Family Disclosure Information Form
- Student Health Form
- Physician's Statement Form
- Dental Form
- Emergency Medical Form
- Enrollment Form
- Class Roster Release
- Photo Release
- Immunization Record

*Per state licensing requirements, ALL students will need physical form and shot records on file prior to attending school. They are good for one year. If a physical expires during the school year, the child may be excluded from school until it has been turned in.

Preschool Philosophy

The Mt. Healthy Preschool believes early childhood educational experiences to be the foundation for the child's continuing education. The children are recognized and respected for their individual differences. We believe that all children can learn and succeed, but not on the same day and in the same way.

The Preschool Program operates at North and South Elementary Schools, and is a blend of social/emotional, physical, and cognitive experiences. Within a nurturing environment, children are encouraged to explore, experience, and succeed. A child's natural curiosity is expanded through both individual and small group interactions.

Early Childhood Education includes play as a viable tool in which to help the children learn about the world around them as well as reinforces social development. The Mt. Healthy Preschool Program provides children with the opportunity for growth by providing a curriculum aligned to the state academic standards, which includes a rich variety of age-appropriate experiences for 3 to 5 year olds.

The Preschool Program is inclusive, serving children with and without special needs. Many opportunities are created for the children to experience "child initiated" learning experiences that

promote self-confidence, self-reliance, and enhance self-esteem. Meeting the needs of the child, the parent, and community is a priority for the success of the children and the Preschool Program.

Preschool Education

The Mt. Healthy City School District Preschool Program complies with all requirements outlined in the state's licensing guidelines including class size and student/teacher ratio as set forth by the Ohio Department of Education. Attention to compliance as an element of quality programming is extremely important. Preschool Program staff are encouraged to consider and to implement developmentally appropriate practices in working with young children.

The needs of the whole child are met through direct instruction, differentiated lessons, materials, classroom arrangement, and class schedules. The whole child includes emotional, academic, and physical development. These areas guide the practices and activities that staff provide in order to strengthen students' skills. Children interact freely and learn from each other spontaneously, along with the guidance of the teacher, paraprofessional, and other staff.

A monthly calendar and newsletter will be prepared and sent home with the student. Each preschool room will post a copy of the calendar and newsletter on the bulletin board by the door. All other notices and articles will also be posted. It is important to check the bulletin board and communicate with the teacher. Parent meetings are scheduled as needed throughout the year. Attendance is expected and appreciated.

Classroom celebrations are shared with families. The teacher will give you information in the classroom newsletter concerning class parties and other opportunities for involvement. **No homemade foods are allowed for classroom celebrations.**

Preschool Program

Preschool Program Dates

An in person open house will be held on August 16, 2022. Information about preschool needs and requirements will be shared then. Families will have an opportunity to ask questions and meet the staff. Students will be phased in with half of the class attending on 8/22/22 and the other half attending 8/23/22. This is to allow students to acclimate to school in small groups. All students will begin attending as a whole class on 8/24/21.

The preschool program **will not be in session** during parent-teacher conference dates, teacher in-service dates, or teacher report dates. See the District calendar for these dates and other important dates.

Preschool Program Holidays and School Closings

The Preschool Program follows the District holiday calendar. When weather conditions make it necessary, the Preschool Program closes, as directed by the Superintendent. In this event, an announcement will be made on the radio and local television stations. Staff is notified by phone via the District's "All-Call" automated calling system.

- A two-hour delay means the AM Preschool Program is canceled and the PM Preschool Program is in session.
- When the Mt. Healthy Early Learning Center is closed all day, the Preschool Program is closed.

Preschool Program Hours

All preschool children attend either a morning or afternoon session, occurring Monday through Thursday. Each class is 2 hours and 45 minutes long with a snack provided daily. Children do not attend on Friday. Preschool Program classes are in session Monday – Thursday, as follows:

Mt. Healthy Early Learning Center: AM Session 8:05-10:40 (buses leave 10:50) and PM Session 12:05-2:40 (buses leave at 2:50)

Sample Daily Preschool Program Schedule

Following is a typical overview of a daily schedule:

<u>Minutes</u>	
25	arrival
20	group time
50	projects/learning centers
25	muscle/motor activities
15	snack time/restroom
20	story time
10	dismissal

The Preschool Program is inclusive, serving children with and without special needs. All preschool children attend either a morning or afternoon session, occurring **Monday through Thursday**. The children may start during the school year as long as there are openings. Each class is 2 hours and 45 minutes long with a snack provided daily.

Every parent is asked to send in one complete outfit for your child to keep at school in case of restroom or mud/wet accidents. Send the clothes in a plastic bag marked with your child's name. These clothes will be returned at the end of the school year. Each child must have a book bag (one they can carry on their own).

Check the classroom newsletter for any changes or updates specific to your child's classroom.

School Supplies`

Each student will need the following:

- Bookbag
- Change of clothes

Optional Items:

- Clorox Wipes
- Tissues

Additional items may be requested by the classroom teacher.

Preschool Policies

Absence Procedure:

• On the day when the child is absent, the parent must call the teacher to report the absence. In the event of unreported long term absences (one week or longer), the preschool staff will make three attempts to contact the parent. After three attempts and 10 consecutive absences with no contact, the child will be withdrawn from preschool.

Classroom Placement

• It is our policy to place siblings (including twins) in separate classrooms.

<u>Informing parents of threats and emergency events:</u>

Ohio school districts are required to communicate to parents and students the notification
procedures utilized to inform parents of threats and emergency events. The Mt. Healthy
City School District communicates this information to parents using our automated
telephone parent notification system. Therefore, it is very important to make sure you
have a current phone number on file in your child's school office.

Transportation

Transportation is available to special needs students on IEPs only. All other preschool students **must provide their own transportation.**

Drop Off Procedures:

- Early Learning Center: If bringing your child to school, please pull in the parking lot of Adams Road. Stay to the left and park in the parking. Then bring your child into the building fover area and staff will sign them in and walk them to class.
- Children attending Preschool **MUST** be accompanied by an adult at all times until they are met by a member of the preschool team. Please do not send your Preschool child in with an underage sibling.
- Please walk your child through the parking lot safely, holding his or her hand.
- An adult must sign the students in with the preschool staff.
- In accordance with building policies, parents will not be able to walk their children to class. These regulations are to ensure the safety of your child.
- Please do not drop off your child earlier than the scheduled time, as no staff will be available to receive your child.
- If arriving late, parents must escort their children to the main office and a tardy slip will be issued.
- Please drive through the parking lot slowly and use the utmost safety. Park in designated parking spaces and walk into the building office if needing assistance. Do not use handicapped parking unless you are handicapped. DO NOT park in unauthorized areas.
- Children receiving transportation will be dropped off where the paraprofessionals will be waiting to greet them. No child will be allowed off the bus without an adult.
- Indoors, children must walk, not run.
- Every effort has been made to assure the safety of your child while in our care.

Pick Up Procedures

- Mt. Healthy Early Learning Center When picking a child up, please pull in the lot off Adams road and park in the parking lot to the left. Then walk to the building foyer area to sign the child out.
- An adult must sign the students out with the preschool staff. Adults unfamiliar to staff will be asked for photo ID for the safety of the child. Please be prepared to show ID.
- All children must be picked up from preschool on time to ensure adequate staff supervision. If you are going to be late, please inform a staff member. Chronic late pick-ups may result in the withdrawal of your child from preschool, as determined by the Preschool Administrator.

For Security Purposes:

- Any parent of a child enrolled in the program shall be permitted unlimited access to the school during its hours of operation to contact his/her child, evaluate the care provided by the program, the premises or for other purposes approved by the director or building principal. Upon entering the premises, the parent shall report to the school office.
- Mt. Healthy Early Learning Center: All doors will be locked except the doors leading into the office.
- Any person not familiar to our staff will be asked for a picture ID.
- No child will be released to a person not authorized by a parent to pick that child up. We must have written authorization for changes in this respect. Adults unfamiliar to staff will be asked for photo ID for the safety of the child.

Transition Policies

As children grow and change, it is important to prepare for the transitions from home to preschool to kindergarten.

• Transition to Preschool: The Mt. Healthy preschool has cooperative agreements with early intervention programs and Early Head Start. We work together to provide families of children with developmental disabilities a seamless transition from early intervention services to preschool services. The team also accepts referrals from parents who are concerned about their child's development. For students with a suspected disability, an evaluation is conducted to determine if the child qualifies for special education services. Whether the child qualifies for special services or not, options for preschool are shared with parents.

Parents of children who are typically developing may apply for enrollment. Applications are accepted for children who turn three before August 1st.

Teachers meet with parents and children individually in order to orient parents and children to the preschool classroom and the rules and routines of the classroom.

- Transition to another classroom: Occasionally it is necessary to move a student from one preschool classroom to another. Parents are included in this decision and arrangements will be made for the parent and child to meet with the new teacher.
- Transition to Kindergarten: The preschool team meets with each family who has a child transitioning to kindergarten. Transition information such as kindergarten enrollment, transition activities, and evaluation needs is shared.

Transition activities change from year to year, but have included visiting a kindergarten classroom, a Spring carnival for incoming kindergarten students, and an orientation day in August for parents and students prior to the first day of school. During a typical year,

parents receive a *Countdown to Kindergarten* calendar when students are enrolled. The calendar provides information about the District's kindergarten and school-age programs, and offers suggestions for daily activities in the months June to August to prepare preschool-age children for the transition to kindergarten.

In the Spring, the Preschool Administrator meets with Head Start personnel to share information about students who will transition from Head Start to the Mt. Healthy Kindergarten classrooms in the fall. This helps build classroom rosters and meet the individual needs of each child.

Preschool and kindergarten classrooms are phased in to allow teachers to meet individually with families and to assist students in learning the expectations of the classroom.

Uniforms

Preschool students are not required to wear uniforms. Please make sure that you send a change of clothes with your child in case they become soiled.

Philosophy of Discipline

According to IDEA (November 2004), "The terms **discipline** and **punishment** are often used interchangeably referring to the practice of improving behavior. Contrary to popular use, however, the two do not have the same meaning. In fact, they oppose each other in both method and result. Understanding the difference is important for successful classroom management and effective parenting. This understanding will help educators and parents promote more cooperative, responsible, safe and healthy behavior for all students."

"Punishment, (according to IDEA) very simply, is a "quick fix." Punishment often does not solve a problem and used in isolation, only stops the immediate behavior. Punishment requires little change in beliefs on the child's part and generally has no instructional value. Punishment will not change behavior long term because the basic need causing the behavior has not been met. Punishment focuses on the action, not the cause. It generally results in a child's anger, disrespect, revenge or defeat."

"Discipline, (according to IDEA) however, is an approach to changing behavior through planning, teaching and evaluating. Effective discipline provides appropriate, logical consequences for behavior and results in long term and positive behavioral changes. True discipline does not focus on isolated behaviors, but is a learning process that provides the child with a variety of skills to be an effective learner. Discipline addresses the cause of their behavior and helps to create a safe, positive learning environment for all. Discipline is firm, fair and appropriate to the behavior. It takes commitment, planning and ongoing problem solving."

Student Discipline Policy

We subscribe to the disciplinary practices that are consistent with our beliefs regarding children and their needs at various developmental stages. We strive to help our students become responsible members of our community. Our approach to discipline focuses on self-control. We work with students to help them accept responsibility for their behavior. Both positive and negative actions have consequences. Teachers will model appropriate behavior and redirect students when necessary.

Methods of Discipline Used

The discipline at our Mt. Healthy Preschool is based on constructive and developmentally appropriate child guidance. Management techniques are to be used at all times and include such measures as:

- Redirection
- Separation from problem situations
- Removed from the group to a designed time-out area for a very limited amount of time
- Talking with the child about the situation
- Praise for appropriate behavior

Classroom Management

Classroom management follows a philosophy that allows children to resolve conflicts among themselves first before asking the help of an adult. The children are expected to accept appropriate and necessary limits. Sharing and being able to cooperate are skills that are still being developed and learned at this young developmental stage. The children are still learning how to use language and make choices to appropriately handle differences that are a part of everyday life. Teachers supervise and guide the children in saying what their needs are and in choosing solutions to solve problems.

We do have limits. A child is not allowed to do anything that is harmful to himself/herself, to others, or to the materials and equipment. The rules will be enforced in a positive, unbiased and appropriate way. There will be no physical punishment. Repeated discipline problems will be discussed with the parents. If your child is not responding to the classroom procedures implemented by the classroom teacher, parents and teachers are able to work with specialized staff members and families to assist in making proper behavior plans.

The preschool program's actual methods of discipline (as stated by the ODE 3301-37-10) shall apply to all persons on the premises and shall be restricted as follows:

- 1. There shall be no cruel, harsh, corporal punishment or any unusual punishments such as, but not limited to, punching, pinching, shaking, spanking or biting.
- 2. No discipline shall be delegated to any other child.
- 3. No physical restraints shall be used to confine a child by any means other than holding a child for a short period of time, such as in a protective hug, so the child may regain control.
- 4. No child shall be placed in a locked room or confined in an enclosed area such as a closet, a box, or a similar cubicle.
- 5. No child shall be subjected to profane language, threats, derogatory remarks about himself or his family or other verbal abuse.
- 6. Discipline shall not be imposed on a child for failure to eat, failure to sleep, or for toileting accidents.
- 7. Techniques of discipline shall not humiliate, shame or frighten a child.
- 8. Discipline shall not include withholding food, rest or toilet use.
- 9. Separation, when used as discipline, shall be brief in duration and appropriate to the child's age and developmental ability and the child shall be within sight and hearing of a preschool staff member in a safe, lighted and well-ventilated space.
- 10. The center shall not abuse or neglect children and shall protect children from

Conscious Discipline

Additionally, Mt. Healthy embraces the practices of Conscious Discipline. Conscious Discipline. Conscious Discipline. It is based on current brain research, child development information, and

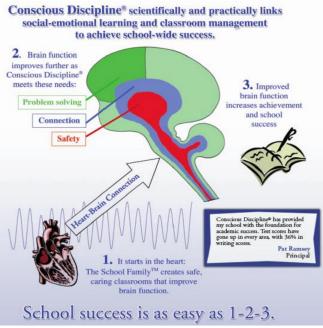

developmentally appropriate practices. Conscious Discipline® has been specifically designed to make changes in the lives of adults first. The adults, in turn, change the lives of children.

Conscious Discipline® is a way of organizing schools and classrooms around the concept of a School Family. Each member of the family—both adult and child—learns the skills needed to successfully manage life tasks such as learning, forming relationships, communicating effectively, being sensitive to others' needs and getting along with others.

Conscious Discipline® empowers teachers and other adults with the Seven Powers for Self Control. These powers change the adults' perception and relationship with conflict, empowering them to be proactive instead of reactive during conflict times. These core beliefs strengthen our utilization of the frontal lobes of the brain. The frontal lobes are to the brain as a conductor is to an orchestra. The frontal lobes are our moral leader.

From the beliefs instilled with the Seven Powers for Self Control, emerge the Seven Basic Skills of Discipline. These skills change how adults respond to conflict in such a way as to facilitate the development of the frontal lobes in children. The Seven Skills are the only skills an adult needs to constructively transform conflict into teaching moments. Through the Powers and Skills, adults stay in control of themselves and in charge of children.

As adults begin to change their attitudes and behaviors, so will the children in their care. We cannot teach behaviors and skills that we do not possess ourselves. Dr. Becky Bailey, the author of Conscious Discipline®, originally designed the program for classrooms, but the Brain Smart strategies imparted by the Seven Powers for Self Control and the Seven Basic Skills of Discipline are seamlessly applied to all human interactions. She has since developed Conscious Discipline® for parents and Brain Smart strategies for businesses.

What does Conscious Discipline do?

The most frequent comment heard in response to the Conscious Discipline program is that it is life changing. The Seven Powers and the Seven Skills taught in the program enhance adults' social-emotional intelligence in perceptible ways. Conscious Discipline teaches relationship skills that help adults in all of their interactions, so that improvement is seen at home with family, at

work with colleagues, and at school with children. This single program, offering such a broad life-changing approach, is extraordinarily effective and meaningful for those who are willing to make the change.

Conscious Discipline leads parents, teachers, administrators, staff and employees through a process that promotes permanent behavior changes in both adults and children. The paradigm of change is from a traditional compliance model of discipline, relying on lower brain center approaches of threat and force, to a relationship-based community model that relies on higher-order thinking skills.

Conscious Discipline educates adults by establishing an understanding of brain development. Once a basic knowledge is established, Conscious Discipline then draws out the relationships between brain development, learning and behavior. Ultimately, Conscious Discipline uses this information to deliver specific ways to create safer, more caring and more responsive environments for schools, homes and workplaces.

More on Conscious Discipline:

Research on brain function shows that learning takes place in an emotional and behavioral context. When children can attach academic skills to feelings and actions that are part of their everyday world, they are more likely to use those skills. Conscious Discipline creates a "School Family" that fosters meaningful academic and social learning together. Every classroom management system must have a core motivator. The motivator in Conscious Discipline is the School Family. Connection, belonging and contribution within the School Family create cooperation among children. Students are intrinsically motivated to be helpful, responsible and caring classroom citizens.

Conscious Discipline is specifically designed to teach the following:

- > Anger management
- ➤ Helpfulness (pro-social skills)
- > Assertiveness
- ➤ Impulse Control
- > Cooperation
- > Empathy
- > Problem solving

Real-life conflict and challenging situations serve as a character education curriculum for the Conscious Discipline classroom. Conflict is viewed as a teaching opportunity and adults are empowered to transform it into a valuable lesson. Character education is part of everyday life, not an activity that occurs separately.

Conscious Discipline builds self-esteem by addressing children's universal need to be generous and contributing members of a group. Each child holds a job and is responsible for the effective running of the classroom.

Conscious Discipline moves a step beyond positive discipline by helping adults become conscious of themselves. This consciousness increases effectiveness and fosters a reflective, thinking mind by strengthening the frontal lobes of the brains of those who exercise its principles. The frontal lobes are the "CEO" of the brain. They allow impulse control, problem solving, empathy and proactive strategies during difficult situations.

Consciousness allows adults to teach by example. Example is, by far, the most powerful teaching technique available. Children who observe discrepancies between what is "practiced" and what is "preached" are likely to imitate the behavior they see modeled. You must model calmness, respect, responsibility, etc. if you want children to display calmness, respect, responsibility, etc.

Conscious Discipline links home and school, as the School Family is seen as an extension of the home family. The School Family provides the infrastructure in the classroom to handle difficult life events in a child's life, in the community and in the world.

Conscious Discipline operates on a basis of creating physical and psychological safety for children. Research shows that the brain functions optimally in a safe, stimulating environment. This principle is at the program's core.

Source http://www.beckybailey.com/cd what do.cfm

Health and Safety

A current Emergency Medical Authorization form should be on file for each child, dated no more than thirty (30) days prior to admission and annually thereafter. Information on emergencies, accidents, illness, and medications:

- 1. Child's medical statement each child must be examined by a licensed physician and the form returned to us by the first day of school.
- 2. An emergency plan is posted in the classroom for fire, and evacuation due to other hazards.
- 3. The staff is trained in first aid and in the recognition of early childhood diseases and child abuse. Staff is required by law to report any suspicion of neglect or abuse.
- 4. Teachers have college degrees and are certified in Early Childhood Education and Special Education.
- 5. No child shall ever be left alone or unsupervised at any time.
- 6. A telephone is available at all times in case of emergency.
- 7. A monthly fire drill, at varying times each month, will be held and recorded for inspection by the fire department. Tornado drills are held during tornado season. Lock-down drills are required by the Mt. Healthy Board of Education
- 8. Please keep your child at home if; he/she has a temperature of at least 100 degrees, non-localized skin rash, diarrhea, vomiting, any evidence of head lice, any communicable disease, or has an excessive runny nose, that is yellow/green in nature. It is important to prevent the spread of infection in class. If a child is sent home ill, we ask that the child not return for at least 24 hours and upon returning is free from symptoms of illness.
- 9. If an illness/injury should occur, every effort will be made to contact the parents as quickly as possible. If the parents cannot be located, we will call one of the designated adults whose name you have provided. Either the parent or designated adult may be asked to pick up the child
- 10. NO MEDICATIONS WILL BE GIVEN unless the parents and the child's physician have filled out the proper forms. (Forms may be obtained from the school health clinic or on the district website).
- 11. It is important to notify the staff of any dietary restrictions or allergies. See section on Care of Students with Food Allergies.
- 12. A child isolated due to suspected communicable disease shall be:
 - Cared for in a room or portion of a room not being used in the preschool program;
 - Within sight and hearing of an adult at all times. No child shall ever be left alone or unsupervised
 - Made comfortable and provided with a cot. After cot is used it shall be disinfected:
 - Observed carefully for worsening condition; and
 - Discharged to parent, guardian, or person designated by the parent or guardian as soon as practical.

Tuberculosis screening requirements and documentation: All newly enrolled, foreign born students who have been in the USA for 5 years or less must provide documented evidence of having a negative TB test within 90 days of the first day of school enrollment. Students in the process of completing the TB testing may attend school for no more than 30 days as long as they DO NOT have symptoms of TB as verified by a licensed physician or nurse. If the TB test is positive, the student may remain in school, but must provide proof of a normal chest x-ray or written verification from a physician of the absence of communicable TB.

Peanut or Other Food Allergies: The district has a policy on the care of students with peanut or food allergies. Food allergy information is shared with food service staff with your permission. The parent/guardian must provide the school with a written medical order to have those food(s) a student is allergic to replaced with something different. **No homemade foods are permitted.**

Medical Treatments: If a child has any health/medical condition that requires medical treatment, the parent/guardian shall provide the clinic with the doctor or other appropriate health care provider's written treatment order. This form may be obtained from the school clinic or the district website.

Staff and Child Re-Admittance Criteria

Condition: Readmit to the child care/preschool facility

<u>Chickenpox</u>: Staff and *children* with chickenpox shall be excluded until the 6th day after onset of rash or until all lesions are dry, whichever comes first.

<u>Conjunctivitis:</u> Staff and *children* with purulent conjunctivitis should be excluded until 24 hours after the start of antimicrobial therapy (if ordered by licensed prescriber).

<u>Diarrheal illness</u>: Diarrhea is defined as 3 or more loose stools in a 24-hour period. Staff or *children* with diarrhea of unidentified, possibly infectious cause shall be excluded from the preschool classroom. Staff and children may return after diarrhea has resolved for 24 hours. Exclusion of persons with diarrhea of known infectious cause shall be in accordance with regulations pertaining to the infectious disease such as:

- <u>Campylobacteriosis</u>: Staff may return after diarrhea has ceased provided not food handling is involved in their duties. If food handling is involved, they may return after diarrhea has ceased <u>and</u> after 48 hours of effective antimicrobial therapy. If not treated with antimicrobial therapy, they may return to work after diarrhea has ceased <u>and</u> after two consecutive follow-up stool specimens are negative for Campylobacter. A child may return to the preschool classroom after diarrhea has ceased for 24 hours.
- <u>Cryptosporidiosis:</u> Staff may return after diarrhea has ceased provided no food handling is involved in their duties. If food handling is involved, they may return after diarrhea has ceased and after three consecutive follow-up stool specimens are negative.
- <u>Cryptosporidium:</u> A child may return to the preschool classroom after diarrhea has ceased for 24 hours.

<u>Giardiasis:</u> Staff and *children* may return after diarrhea has ceased <u>and</u> after 72 hours of effective antimicrobial therapy. If not treated with antimicrobial therapy, they may return to work after diarrhea has ceased <u>and</u> after three consecutive follow-up stool specimens are negative for Giardia.

<u>Salmonellosis:</u> Staff may return after diarrhea has ceased provided no food handling is involved in their duties. If food handling is involved, they may return after diarrhea has ceased <u>and</u> after two consecutive follow-up stool specimens are negative for Salmonella. *A child may return to the preschool classroom after diarrhea has ceased for 24 hours*.

<u>Shigellosis:</u> Staff and *children* may return to work after diarrhea has ceased <u>and</u> after two consecutive follow-up stool specimens are negative for Shigella.

<u>Yersiniosis</u>: Staff and *children* may return after diarrhea has ceased provided no food handling is involved in their duties. If food handling is involved, they may return after diarrhea has ceased <u>and</u> after two consecutive follow-up stool specimens are negative for *Yersinia*.

<u>Diphtheria</u>: Staff and *children* may return after 2 cultures from both throat and nose (and skin lesions in cutaneous diphtheria) taken not less than 24 hours apart, and not less than 24 hours after cessation of antimicrobial therapy, fail to show diphtheria bacilli. If culturing is unavailable or impractical, exclusion may be ended after 14 days of appropriate antimicrobial therapy. E. coli O157:H7 or Hemolytic Uremic Syndrome (HUS): Staff and *children* may return after diarrhea has ceased <u>and</u> after two consecutive follow-up stool specimens are negative for E.coli O157:H7.

<u>Hepatitis A</u>: Symptomatic staff and *children* shall be excluded until 10 days after initial onset of symptoms.

<u>Impetigo</u>: Staff and *children* may return after 24 hours initiation of antimicrobial (a skin infection) therapy provided lesions are not draining and all lesions (sores) are dry.

Measles: Staff and *children* shall be excluded for 5 days following the onset of rash.

<u>Bacterial Meningitis</u>: Excluded until at least 24 hours of effective treatment. Must be under physician's care.

<u>Pediculosis (lice)</u>: Staff or *children* with <u>body lice</u> may return 24 hours after application of an effective pediculicide. Staff or children with <u>head lice</u> may return after the first treatment with appropriate pediculicide and are nit free. The clinic staff will check the student's hair. The student will need to return home if not nit free. It is recommended to repeat the pediculicide in 5-7 days.

<u>Pertussis (whooping cough):</u> Staff and *children* shall be excluded for 5 days after initiation of antimicrobial therapy. If the case is not treated with appropriate antimicrobial therapy, the staff member or *child* shall be excluded until 3 weeks after the onset of paroxysms.

<u>Rash with fever or joint pain</u>: Staff and *children* shall be excluded until diagnosed not to be measles, rubella or other communicable disease.

<u>Rubella</u>: Staff and *children* shall be excluded for at least 7 days after the onset of rash and symptom free.

<u>Mumps</u>: Staff and *children* shall be excluded for 9 days after the onset of parotid swelling and until swelling subsides.

<u>Shingles</u>: Only if clothing or a dressing cannot cover sores, excluded until sores have crusted and are dry. A person with active shingles should not care for immunosuppressed children.

<u>Strep throat (or other streptococcal infection)</u>: Staff and *children* shall be excluded for 24 hours after the initiation of antimicrobial therapy and referral.

<u>Tuberculosis (TB):</u> Staff and *children* with confirmed or suspected TB shall be excluded from the daycare center until the local designated TB authority approves the person's return to the center. <u>Typhoid Fever</u>: Staff and *children* may return when a symptomatic and after three consecutive

follow-up stool specimens are negative for Salmonella typhi.

<u>Vomiting:</u> They may return 24 hours after vomiting is resolved or is determined to be due to a noninfectious condition such as pregnancy or a digestive disorder.

<u>Ringworm:</u> Staff and *children* must be treated with an appropriate antifungal cream before being allowed to return to school. Infected areas must be covered.

The criteria for exclusion and re-admittance represent the recommendations of the Ohio Department of Health.

Obtaining Copies

Each parent, upon enrollment, will receive a copy of the parent handbook. Additional copies of the handbook will be provided upon request and can be found on mthcs.org.

Filing a Complaint or Obtaining Copies of Inspection Reports

Any parent wishing to file a complaint or obtain copies of inspection reports may either speak directly to the Early Learning Center Dean of Students, Jayne Sayers-Gopedde, or email her at jgoedde@mthcs.org.

The Ohio Department of Education, Office for Exceptional Children and Early Childhood Education will investigate complaints as required by Federal law and regulations. Depending on the nature of the issues identified in the complaint, a consultant from the Office of Exceptional Children or the Office of Early Childhood Education may offer both parties to the complaint an opportunity to resolve the issues through mediation.

Send all complaints to the following address:

The Ohio Department of Education Office for Exceptional Children Procedural Safeguards Section 25 South Front Street Mail Stop 202 Columbus, OH 43215 Local number: (614) 466-0224

Toll free: 1-877-644-6338

The following pages contain resources available within the community.

Mt. Healthy City School District Community-Based Resources

As a service to our families, the Mt. Healthy City School District Preschool and Kindergarten Readiness Program has compiled this listing of some of the many community-based organizations/agencies that may be of interest to families and caregivers of young children. Information is gathered and summarized from the websites of listed organizations and is as up-to-date as possible. Please contact the organization for more complete information.

Adult/Parent Education and Career Resources

Offers Hamilton County adults the opportunity to receive academic assistance conducive
to study and learning in the areas of Basic Academic Skill Building (including Pre-GED
& GED Online Lessons), Adult Literacy Sessions, Conversational English Study, Online
Job Assistance, and Exam Proctoring. Collaboration with the Literacy Network of
Greater Cincinnati and the Great Oaks Institute of Technology and Career Development
contributes to the Department's mission to support life-long learning

^{*}Preschool complaints must be submitted to the Office of Exceptional Children at the address above. The preschool complaints will, however, be investigated by The Office of Early Learning and School Readiness in collaboration with the Office for Exceptional Children.

^{*}Inclusion of an organization on the list is not intended as an endorsement of or referral to that agency by the Mt. Healthy City School District.

- ABLE Adult Basic and Literacy Education
- **GED** General Educational Development (high school equivalency diploma) offers a second chance to complete high school education. Obtaining a GED-high school equivalency diploma will open doors. More information on the GED exam can be found at: https://ged.com/
- **ESOL** English for Speakers of Other Languages
- ABLE's mission: is to provide adults with educational opportunities to acquire the academic skills necessary to become more self-sufficient and participate more effectively as workers, family members and citizens
- Cincinnati Public Schools (CPS) hosts free ABLE classes for adult learners at various locations. Call to schedule intake.

- Offers more than a dozen programs for adults who want to train for a new career
- Programs include: Medical Office Specialist, Billing and Coding, Welding Technician, CNC Manufacturing, Electro–Mechanical Maintenance Technology, Industrial Diesel Mechanics
- Most programs start in the fall; others start throughout the year

Hamilton County Department of Job and Family Services (HCDJFA)513-946-1000 222 East Central Parkway, Cincinnati, Ohio 45202 https://www.hcjfs.org/

- Administers state, federal and local programs designed to help those in need and help families work toward self-sufficiency
- Includes services such as, local child protection, adult protection, child care, child support
 enforcement, workforce development, cash assistance, food assistance and medical
 assistance.

- Champions the development of literacy in the individual, the family, the workplace, the school and the community by raising awareness, improving access, and serving as a catalyst for literacy efforts
- Provides support of basic reading, GED and English for Speakers of Other Languages, including FREE classes for adults. Tutors help children improve their reading through the Winners Read Tutoring program. The program Winners Walk Tall provides children with essential character building lessons in manners and leadership, helping them to develop a positive sense of self-esteem, respect for others, and the ability to make good decisions about behaviors that impact their lives

• Provides a variety of information on educational topics for parents, teachers, and administrators

 Homeless Liaison works with families to coordinate educational services for children and youth who are designated as temporarily homeless to ensure they have full and equal opportunity to succeed in school; and that families, children, and youth experiencing homelessness receive educational services for which they are eligible, including Head Start, Even Start, and preschool programs administered by the Mt. Healthy City School District

Preschool Parent Handbook

Dear Parents and Guardians,

Our Preschool Handbook contains important information such as the school's policies, philosophy, discipline policy, and procedures for filing a complaint or obtaining copies of inspection reports. Please take the time to look over this document carefully and refer back to it as needed.

Thank you,

The Mt. Healthy Preschool Staff

I have received a copy of the Mt. Healthy Preschool Parent Handbook and the information has been reviewed with me during entry to the program.
