District Highlights

We are thrilled to announce the exciting updates and changes coming to the 2023-2024 school calendar! Get ready for an academic year filled with increased learning opportunities and enhanced support for our students.

Our school year starts on August 21. This year will introduce two major changes that will positively impact our students' educational journey. First and foremost, we are delighted to bring back the State recommended 180 school year. This means that our students will have more valuable time in the classroom, providing them with even greater chances to expand their knowledge, explore new subjects, and develop essential skills.

The second change we are implementing is the early release model. Using this model we will provide more time for educators to use data, collaborate with one another, and they are equipped with the best strategies and approaches to support our students' growth and achievement.

We could not be more thrilled about these changes and the positive impact they will have on our school community. The 2023-2024 school year is set to be an incredible journey of discovery, growth, and success. The calendar will be made public and placed on our website early next week.

Go Broncos!
