

Meal Benefits for Kindergarteners

Does your kindergartener qualify for meal benefits?

Did you know that kindergarten enrollment closes before meal benefit applications can be released for the new school year? That means if you have not filled out a meal benefit application for your kindergartener and they were not included on an application with older siblings they are not receiving meal benefits yet. Full meal price is charged to those who have not qualified for meal benefits.

Do you have a kindergartener with an older sibling?

If your older students qualified for meal benefits by Direct Certification, your kindergartener may not be receiving the same benefits yet. Call today to add your kindergartener to your family's meal benefits. Contact the Fayetteville Schools' Child Nutrition Department at (479) 684-5091.

APPLY TODAY! We offer paper AND online applications! Pick up an application at your school's office or apply online at www.myschoolapps.com
