Behavioral Strategies for the Home: three part series

For All Age Groups

March 16, 2023, 5:30 pm - Behavior Basics

March 23, 2023, 5:30 pm - Proactive Strategies

April 6, 2023, 5:30 pm - Reactive Strategies

Learn more about behaviors and practical strategies to support your child at home in this three-part series.

Presenters: The ESD Behavior Education Support & Training ("BEST") team

Elaine Sun, Christina Teneriello, Hannah Leonard, and Rafael Barragan

Elaine Sun, M.A., PPSC, BCBA, LEP

Elaine has been in the field of educating students with exceptional needs since 1998. She started her experience working with children with autism at the Lovaas Institute for Early Intervention while earning her bachelor's degree in Psychology with a double minor in Education and Applied Developmental Psychology. Elaine continued in the Applied Behavior Analysis field working at the Center for Autism and Related Disorders. Elaine has a master's degree in Educational Psychology and Counseling as well as being a Board Certified Behavior Analyst.

Christina Teneriello, M.A., BCBA

Christina has been working in the field of education and Applied Behavior Analysis for over ten years. She has worked in the home providing services to families as well as in the school environment as a Board Certified Behavior Analyst. Christina has a bachelor's degree in Human Development with an emphasis on Child Development, and a master's degree in Applied Behavior Analysis. She is passionate about inclusion and disability justice to help individuals maximize their full potential.

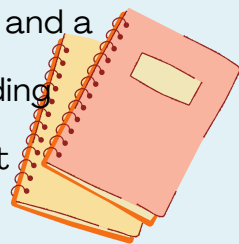

Hannah Leonard, M.Ed., BCBA

Hannah has more than seven years experience in the field of behavior, providing services in home as well as in the Non-Public School setting before joining the BEST team in 2021. She has a bachelor's degree in Communication and a master's degree in Education, Instruction and Curriculum and Applied Behavior Analysis. Hannah is a tireless advocate of compassionate care and maintaining student dignity. She believes in a person-centered approach and a strong home/school partnership.

Rafael Barragan, M.A., BCBA

Rafael brings twelve years of experience in education, including substitute teaching, after-school program leader, and BCBA in the Non-Public and Public School settings. He has a bachelor's degree in Business Leadership and a Master of Arts in Teaching with a specialization in Applied Behavior Analysis. Rafael prides himself in giving students a voice and providing support while focusing on inclusivity and access to high quality education. He loves teaching others about ABA and expanding that field.

Being Wise with Your Student's Proloquo2Go Communication App

By Invitation Only

March 13, 2023, 6:00 p.m.

This interactive session will show you to use your child's augmentative/alternative communication ("AAC") device to support increased communication at home.

This will be an "in person" workshop!

Presenter: Catherine Wilkerson, M.S., CCC-SLP

If your student uses Proloquo2Go on an iPad for communication, you would probably like to share the experience with them more fully. Ms. Wilkerson will share tips for adding personalized Family and Home buttons, searching for words already included in the app, and using Settings to optimize your student's communication experience.

Cathy Wilkerson, M.S., CCC-SLP

Cathy Wilkerson is a Speech-Language Pathologist currently supporting students in the ACCESS and STARS programs at Falcon Ridge Elementary School, and students in the ACCESS program at Day Creek Intermediate School. Cathy has both a bachelor's degree and a master's degree in Speech and Hearing Sciences from the University of Arizona. She has over thirty years experience supporting students with multiple disabilities. Cathy is an enthusiastic believer in the use of AAC and strives to elicit communication from her students in their own unique ways.

Making the Most of Every Moment: Math Learning at Home

Preschool-Age Focus

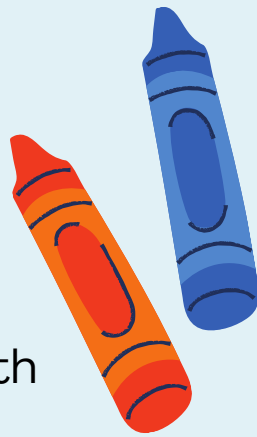

March 22, 2023, 6:00 pm

Discover more about the Preschool Learning Foundations for Math, and the ways you can reinforce these skills at home with your student!

Presenters: Melissa Neise and Melinda Freeland-Marquez

Ms. Neise and Ms. Freeland-Marquez will share the Foundations so that parents have an understanding of what is expected of preschool-age students, and then will share games and resources for family learning opportunities in the home. Learn how to incorporate math learning into your everyday routines!

Melissa Neise, M.Ed.

Melissa is an Early Childhood Special Educator currently teaching in the CLOUDS inclusive preschool program. She holds a bachelor's degree in Early Childhood Education and a master's degree in Early Childhood Special Education as well as certificates in Autism Education and GATE Education. She has been teaching for more than 25 years and is passionate about sharing her experience in the area of inclusive education with others.

Melinda Freeland-Marquez, B.S.

Melinda is an early childhood general education teacher for the CLOUDS inclusive preschool program. She also has experience supporting students with special needs as a paraprofessional in a special education preschool classroom. Melinda holds a bachelor's degree in Business Healthcare Management. Melinda is a strong advocate for early intervention for our littlest learners.
