

# **Knight University – Middle School**

Silver Creek Middle School is excited to announce another session of KNIGHTU. Knight University is a collection of deeper learning courses for students currently in grades 6, 7 and 8. The courses are designed around teachers' individual passions.

For this session, courses will run **after summer school** from **11:00-1:30 PM** on either **Mondays and Wednesdays OR Tuesdays and Thursdays**, depending on enrollment. KnightU will be in session **July 17th-August 10th**. Courses will be filled on a first come, first serve basis, as spaces are limited. **Please fill out and return the registration part of this form to the Middle School office by Friday, June 30, or email it to the Knight U Coordinator by 28. (See the back for her name and email address).**

Students in Summer School will have KnightU after lunch. Students not in Summer School may come by bus or be dropped off for KnightU. Students may ride the 1:30 PM afternoon bus home or be picked up at 1:30 PM. More details will be provided as soon as possible.

Students may sign up for one or both courses according to their interests. Just as teachers are teaching a topic they are passionate about, students need to be interested and want to learn about that topic.

## **"Sign of the Times"-Sign Language for Beginners**

with Ms. Elliott

Here's a riddle: how can you talk, but make no sound? Using American Sign Language (ASL), that's how! Over a 4-week summer course, come learn how to speak with your hands and learn more about the deaf community. Using sign language is a skill that can be useful and open up other opportunities in the future. By the end of the course, you'll be able to sign a song of YOUR choice! You never know when you'll need a new language to make a new friend! Don't wait, **SIGN** up now!

## **The Great Garden Group**

With Mrs. Prinzbach and/or Ms. Jamison

Have you ever wondered why gardening is so important to our environment and our health? Or simply how plants grow? If so, this course is for you! In this session we will read and discuss the planting process while planting seeds from the very start. We will end the class with edible plants that we grow on our very own. We hope to see you there!
