1000 - Admission of Pupils

Grade placement in Northeast U.S.D. 246 most often will be based upon an examination of the student's previous school record, but may be based on achievement tests administered by our staff.

Secondary enrollees should present a transcript of the record made in the last school attended at the time of enrollment in order to facilitate the enrollment process.

All students are required by state law to show proof that they have received, or are in the process of receiving, immunization against polio, mumps, diphtheria, rubella (German measles), measles (rubella), tetanus, and whooping cough. A tetanus booster is also required every ten years. These immunizations shall be in accordance with the immunization schedules of the Kansas Department of Health and Environment. New students shall have 90 days from the date of enrollment to complete these immunizations or they will be dropped from school until such time as it is satisfactorily completed. This requirement is waived for pupils whose parents present written statements asking for exception for reasons of health or religious beliefs.

1100 – Out of District Students

Northeast High School has the right to accept or deny enrollment to out of district students wishing to enroll at Northeast High School. Upon acceptance the out of district student is expected to be a contributing member to the school. They are expected to maintain satisfactory academic progress and not affect the day to day operation of the school through discipline issues and disruption. Out of district students are on a yearly basis. If at anytime the school feels the student is not meeting these expectations the school will inform the student that at the end of the school year the student will have to return to their home district

1400 - Changing Schedules

Due to schedules being completed in the Spring of the previous year, students have the time before school concludes to communicate schedule changes. The administration has the authority to approve any schedule changes at any time. Every student is required to take a full schedule of classes.

1500 - Fees

Students are required to pay a flat fee upon enrollment. The fee is \$25. Students on reduced lunch will pay \$15. Students on free lunch will have no fee. This fee helps offset the cost of the elective programs at Northeast High School.

1600 - Workbooks

Workbooks will be required in some classes. Students will be informed of the price of the workbook by the instructor. Workbooks must be paid for before they will be ordered and given to the students.

1700 - Advisory/Viking Time/Viking Rewards Guidelines

Advisory

Advisory will take place between first thing in the morning and opposite the students lunch period. Second chance breakfast will be immediately after the first advisory meeting of the day.

Viking Time

Viking Time will be the final class period of each day. All students are required to take Viking Time unless they have special permission from the Principal. This time is designed to allow students the opportunity to complete class work with the assistance of the Viking Time teacher. With permission students can travel to obtain help from specific teachers. Viking Time will be a Pass/Fail course. The Viking Time teacher will be required to mentor and keep track of their students' grades.

Viking Rewards

Students receiving grades of A, B, or C will **NOT** be required to attend Viking Time after the first week of each semester. All students receiving a grade of D or F must attend Viking Time until a new list is run the next Monday, and their name is not listed as a D or F. Grades must be updated by teachers by noon on Mondays. The D and F list will be run at noon on Mondays to determine that week's Viking Rewards students.

2000 - Compulsory School Law

K.S.A. Supplement 72-1111. Compulsory school attendance - Every parent, guardian or other person in the State of Kansas having control over or charge of any child who has reached the age of seven (7) years and is under the age of eighteen (18) years, and has not attained a high school diploma or G.E.D. shall require such child to attend continuously each school year (1) public school for the duration of the school term provided for in K.S.A. Supp. 72-1106, as amended, (2) a private, denominational or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational or parochial school is located.

If the child is 16 or 17 years of age, the parent or guardian may allow the child to be exempt from the compulsory attendance requirements after meeting with high school principal and signing a waiver.

Truancy is defined for this policy the same as in K.S.A. 72-1113 as amended and which follows: 1. "Whenever a child is required by law to attend school and such child is not enrolled in a public or non-public school, such a child is a truant"; 2. "Whenever a child is required by law to attend school and such child is inexcusably absent therefrom on either three (3) consecutive days or five (5) or more days in any semester, or seven (7) school days in any school year such child is a truant." A child is inexcusably absent from school if the child is absent therefrom all or a significant part of a day without a valid excuse acceptable to the school employee(s) designated by the Board of Education to have responsibility for the school attendance of such child.

For purposes of this policy, "a significant part of a school day" means "one-half (1/2) or more of the scheduled school day".

For purposes of this policy an "excusable absence" occurs when a pupil misses a significant part of a scheduled school day because of illness, appointments for health care, injury which prevents his attendance, attendance at another educational activity or on a trip approved by the school principal or other absence the reason for which is acceptable to the principal. "Inexcusable absences" occur when there is no attempt to justify an absence, the reason given is not acceptable to the principal and/or the principal has reason to believe that the excuse offered may not be substantially correct.

2100 - ABSENCES

In general, it is the policy of the school to excuse pupils from school for worthwhile reasons and upon the written request of parents. The Principal will determine the importance of the request and shall ultimately decide upon the merits of each case. If absence from school seriously delays the pupil's progress and interferes with his/her school work, then conferences with parents will be held to inform them of these effects on the child's school progress.

Parents must call the office or send a note into the office within 3 days of the absence or the absence will not be excused.

A student will be counted absent from school if he/she is not present for the regular class schedule, except when on activities sponsored by the school. An excused absence may be allowed for other activities if requested by parents and approved by the Principal.

It is the student's responsibility to make up any work missed due to an excused absence. The student will have one day for each day absent to make up their assignments. An unexcused absence will also receive reduced credit.

EXCESSIVE PARENT VERIFIED ABSENCES: Once a student reaches 5 parent verified absences* per semester OR 10 parent verified absences for the school year, all subsequent absences will be classified as UNEXCUSED unless excused by a doctor's note or by our school nurse's aide.

EXCUSED PARENT VERIFIED ABSENCE: Verified by note or phone call from the parent.

Includes illness, family trip, personal reasons, etc.

Parents must call the office by 10:00 am on the day of the absence or send a note into the office within 3 days of the absence or the absence will not be excused.

STUDENTS UNDER COURT SUPERVISION FOR TRUANCY: If a student is under court authority for informal or formal supervision, the court and school administration will only excuse absences verified by a doctor's note or by the school nurse. All other absences will be classified as UNEXCUSED. The school is required to send weekly attendance reports for all students under informal or formal supervision.

2200 - TARDIES

Students are expected to arrive at school on time. School opens at 7:25 a.m. Breakfast is served starting at 7:45 a.m. School begins at 8:00 for all students.

Arrivals after the bell rings will be counted tardy. **Students with excessive tardies can be considered truant, after 3 unexcused tardies in the same period, per semester, which will result in a detention. Every tardy after that will result in a detention.**

Students arriving after the start of school should report to the office for admittance.

Doctor and dental appointments, funerals, and school activities are considered excusable tardies. Prior notification would be appreciated.

2300 - SCHOOL ACTIVITIES

Students who plan to attend a school function are required to be in school the day of that function unless approval is granted from the Principal.

2400 - Leaving a Class

No student shall be permitted to leave a class without a pass. Students should not be in the halls during class time. When a student receives a pass, he/she should first report to his/her regular class to sign out in the proper manner. Students should not ask to be excused from class to go to lockers, as lockers should not be opened during class periods. Students are not to leave class to use the vending machines. Students leaving class without permission will make up the time missed during detention.

2500 - Leaving the Building

No student should leave the school grounds after arrival on campus during school hours without permission of the Principal or Vice Principal and permit from parents stating the reason for leaving. A student may not write his/her own excuse. Students shall not be sent on personal errands for teachers during school hours. Students leaving the school grounds will serve the amount of time missed during detention. Any subsequent offense will have the possibility of out of school suspension.

2600 - Excuses for Appointments or Other Reasons

In general, it is the policy of the school to excuse pupils from school for worthwhile reasons and upon the written request of parents. A student may not write his/her own excuse. The principal will need to determine the importance of the request and shall ultimately decide upon the merits of the case.

If absence from school in individual cases retards the pupil's progress and interferes with his/her school work, then conferences with parents should be held to inform them of these effects on the child's school progress.

Whenever a student is absent from school due to a doctor's appointment, a note from the doctor's office must be brought to the office upon the student's return to school. If a note is not turned into the office within 3 days of the absence, the absence will not be excused.

Whenever possible, pupil appointments with dentists or doctors should be scheduled for times which will not conflict with the school day.

3000	Requirements for Graduation
3100	Test Out Procedure for Academic Credit
3200	On-line Learning Opportunities
3300	Dual Credit and AP Courses

Twenty-eight units of high school credit are required for graduation. The required units and subjects are:

English	4 units
American History	1 unit
American Government	1 unit
Fine Arts	1 unit
Math: Algebra is Required	3 units
Science: Biology and a Physical Science course are Required	3 units

Personal Finance (2024)	½ unit

Every student is required to take a full schedule of classes unless approved by the principal. These classes can include online college courses.

3100 - Test Out Procedure for Academic Credit

A student may earn credits towards high school graduation by demonstrating mastery of the course standards, benchmarks and indicators through a performance instrument. The standards for designing and passing the performance instrument shall be set sufficiently high to ensure credits earned by such means shall be equivalent to the learning accomplished by students completing the full course.

A written request to “test out” of a class must be submitted prior to the beginning of each year. A student may not request to “test out” of a class in which he or she is currently enrolled or has been enrolled.

The request is to be evaluated within 30 school days by a review committee composed of: a building administrator, a school counselor, a faculty member appointed by the principal and the students’ parent(s) or guardian(s).

If the request is approved, the course instructor will have 30 school days to design a performance instrument that reflects mastery of all course standards, benchmarks and indicators. Commercially available instruments may be used if

they adequately cover course objectives.

The student has 10 school days in which those designated tasks developed by the teacher and approved by the administration must be performed. The principal, in consultation with the instructor, will determine the setting and the timelines for the administration of the instrument, as well as the criteria for successful completion of those tasks.

Credit for such classes shall be awarded based on the letter grade received on the completed performance assessment. Students will be allowed only one opportunity to “test out” of any particular class. It will not be the responsibility of the school or the instructor to provide instructional and/or review time for the student. However, the standards, benchmarks, and indicators for the course will be made available.

3200 – On-line Learning Opportunities

Application – Students may apply for permission to enroll in an online course for credit. Applications for the next academic term shall be submitted to the principal no later than 45 calendar days before the next academic term begins. The student and student’s parents shall be informed of the administrator’s decision in writing no later than 15 calendar days before the start of the next academic term.

Students may not enroll in an online course as an alternative to any course offered by the high school, except as:

- an attempt to earn credit for a class already attempted but failed by the student
- to reasonably accommodate a student wishing to accelerate high school graduation and proceed with further post secondary education or training;
- or to resolve a significant scheduling conflict.

Guidelines – The following guidelines shall be used by the administration:

1. Only approved courses shall be posted on student transcripts.
2. Approval of any course shall be based upon the course content and rigor, its length, scope, and its method of assessing knowledge acquired by the student, the qualifications of the instructor and the other appropriate factors.
3. Enrollment in an on-line course will be allowed only if an appropriately certified or licensed teacher is available and willing to supervise the student’s participation in the course.
4. Suspended or expelled students may also apply for permission to enroll in on-line coursework.
5. The cost of on-line courses shall be borne by the student unless otherwise approved by the Superintendent.

Other Regulations or Guidelines – Approval by the administration shall also be based on Kansas State Department of Education regulations and/or guidelines in effect at the time the student request is made.

***Attending an accredited Virtual School does not fall under these guidelines. Students wishing to enroll in Virtual School must meet with the counselor to enroll.**

3300 – Dual Credit and AP Courses

Northeast High School students attending college classes during the school year will receive both college credit and high school credit. The grade for the class will go on the student's high school transcript and be used to calculate the student's GPA and rank in class. Students will receive .5 high school credits for a 3 credit hour class and 1.0 high school credits for a 5 credit hour class. These courses do incur a charge as you must be enrolled as a college student and pay the required course fee.

Students taking AP Courses will receive high school credit for the course. They may choose to take the AP exam at the end of the course. If they pass this exam they will also be given college credit. There is a possible fee for AP Courses.

3400 – Alternative Credits & Graduation

Northeast U.S.D. 246 may provide instructional programming for identified At Risk students. Students enrolled will be expected to meet all course requirements, counseling sessions, and other criteria as set forth by the student improvement team. Credit earned will be counted toward graduation requirements.

3500 – Credit Recovery

Northeast High School will offer students the opportunity to make up failed credits through an online program. Students will be allowed to enroll in credit recovery for 2 semesters of their 4 year high school career free of charge. If a student must take credit recovery beyond these 2 semesters there will be a fee of \$20.00 per credit. Credit Recovery will be limited due to the number of licenses that can be purchased. Students who have discipline issues during credit recovery will be given one warning. On the second discipline issue the student will be removed from credit recovery and will no longer be able to take credit recovery for the remainder of their high school career.

3600 - Early Graduation

A student may graduate early under the following provisions:

1. The student has completed all graduation requirements as set forth by Northeast U.S.D. 246 and the Kansas State Department of Education.
2. The student has the option to attend commencement exercises or receive the diploma by mail. In either case, the diploma will be issued on or after the formal commencement date.

3. Grades will be tabulated for rank in class and the student cannot qualify for valedictorian or salutatorian.
4. Approval forms must be completed 60 (sixty) school days prior to the end of the semester the student plans early graduation.
5. Senior students that opt to graduate early, will NOT be eligible for Prom or Senior Trip.

3700 Promotion to the Next Class

A student must meet the minimum units required to be promoted to the next class.

1. To be considered a Sophomore you must have passed 7 credits
2. To be considered a Junior you must have passed 14 credits
3. To be considered a Senior you must have passed 21 credits
4. In order for a student to walk at graduation, they must meet all graduation requirements at the time of graduation

If a student does not meet the minimum number of credits passed the school will take the measurements needed to try and get the student caught up. Until the student reaches the required credits, they will not advance to the next class and will not attend meetings or events sponsored by that class.

Grading System

3. Any work turned in late will be graded at a 40% deduction of the maximum points earned.

6. Art sketchbooks, yearbook pages, and AR points do not fall under the late work policy
7. There is to be no internet-dependent work to be assigned on a Friday and due on a Monday.

Students should walk quickly and orderly to designated areas and follow instructions for tornado drill. (The Principal will explain the difference between a fire alarm and a tornado alarm). During the course of regular student transportation in school district vehicles, the Board of Education views this service as a privilege extended to students confirming the district's rules of conduct. Specific bus rules will be posted on each bus, as well as, the district on the website.

Extra-Curricular Trips

1. The above rider rules and regulations will apply to any trip under school sponsorship.
2. Pupils shall respect the wishes of a competent chaperone appointed by the school.

NO EATING OR DRINKING OR CHEWING OF GUM ON THE BUS AND NO TOBACCO PRODUCTS OR MEDICATION NOT PRESCRIBED BY A PHYSICIAN.

5300 - Bus Discipline Procedures

Bus drivers are encouraged to maintain discipline and assure that the students adhere to these rules in the course of their duties. Verbal warnings to students

are appropriate when the driver believes they will be effective in correcting misbehavior.

If the bus driver is not successful in correcting misbehavior through verbal prompts and warnings, the driver will file the appropriate written notice with the building principal.

The appropriate building administrator will take the following disciplinary actions:

1. Upon receipt of the 2nd written report within a school year from a bus driver concerning a student, that student will lose transportation services for three school (3) days.
2. Upon receipt of the 3rd written report within a school year from a bus driver concerning a student, that student will lose transportation services for five school (5) days.
3. Upon receipt of the 4th written report within a school year from a bus driver concerning a student, the student will lose transportation services for the balance of the current semester.

Should a student's parents be unable to be contacted, and no parent designated emergency contact person is available, or the parents are unable to provide transportation, the student will be provided bus transportation to his/her residence that evening.

The building principal may bypass any of the above steps and adjust, restrict, or suspend a student's bus riding privileges as he/she deems appropriate for the situation after conferring with the parents.

5500 - Administration of Medication

The district will comply with current statutes and regulations as defined by the Legislature, Kansas State Department of Education and the Kansas Department of Health and Environment.

To comply with the Kansas Nurse Practice Act (K.S.A. Chapt. 65, Article 11, Chapter 231, Laws of Kansas 1968 and K.S.A. 1979 Supp. 65-1113 and 65-1124) the following policy is in effect:

- A. When at all possible, medications should be given at home rather than during school attendance hours.
- B. Prescribed medications must be accompanied by a note from the physician and in the original container the medicine came in. We need a note from the parent giving us permission to administer the medication at school. This should include date, name of the medication, the reason for medication, time of day it is to be given, and an anticipated number of days to be provided. There is an available form.
- C. Any over-the-counter medications may be given at school only if needed in order for the student to remain in attendance. This can

be determined by a conference between parents and school nurses. A parental permission form must accompany the medication, including date, name of the medication, the reason for medication, time of day it is to be given, and an anticipated number of days to be provided.

- D. Medication may be given by delegated school personnel under the supervision of the school nurse. In accordance with Kansas Department of Health and Environment guidelines, the school will allow self-administration of medication to children and youth, provided the proper authorization is on file with the school.

Please contact the school nurse if you have questions concerning the administration of medication in school.

5600 - Illness and Medical Emergencies

In the case of any serious injury or illness, the parent or guardian will be notified as soon as possible.

The Kansas Department of Health and Environment procedures are followed in cases of illness and medical emergencies.

Emergency information is to be completed on school records for every student, with at least two emergency backup telephone numbers included.

At the time of an emergency, the school has the responsibility for:

- a. Initiating the immediate care of the student
- b. Notifying the parent or guardian, or if the parent or guardian cannot be reached follow the directions given on the student's records
- c. In some cases, getting the student under professional care with or without the family's permission.

HEAD LICE

Schools bring a large number of children into daily contact with each other, therefore, they serve as a focal point for the transmission of head lice.

When an infested student is discovered in the classroom the following procedure will be followed:

- A. If the student(s) are infested, parents are contacted and they shall be sent home immediately to be treated.
- B. When the child returns to school he/she will be checked prior to readmission.

5700 – Interrogation and Investigations Conducted in School

It shall be the policy of the district that a reasonable cooperative effort be maintained between the school administration and law enforcement agencies.

School administrators and School Resource Officers retain the authority to override these guidelines when, in the reasonable judgment of the

administrator or School Resource Officer, different action is needed to address an immediate threat of injury or damage to a person or to property.

Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct see the school premises or during a school-sponsored activity. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property. Administrators have the responsibility and the authority to determine when the presence and assistance of law enforcement officers is necessary within their respective jurisdictions. The district's administrators shall at all times act in a manner that protects the rights of students and parents and shall cooperate with law enforcement officials.

School staff members shall be reminded annually of the contents of this policy and rules.

A student who has attained the age of 18 enjoys the responsibility of speaking for himself/herself without the agreement of the parent, guardian or representative as to his/her submitting to questioning.

Initiated by School Administrators and Conducted by Administrators

Building principals shall have the authority and duty to conduct investigations and to question students pertaining to infractions of school rules, whether or not the alleged conduct is a violation of criminal law. Any investigation shall be conducted in a manner that minimizes interference with regular education or school activities.

Initiated by School Administrators and Conducted by Law Enforcement Officers

The building principal shall determine when the necessity exists for law enforcement officers to be notified to conduct an investigation of alleged criminal behavior.

The building principal may request that law enforcement officers conduct an investigation and question students who are potential witnesses of such alleged criminal behavior during school hours. A reasonable attempt shall be made to contact the student's parents, guardian or representative prior to questioning by law enforcement officers. Reasonable requests of the parents, guardian or representative shall be observed. Such notifications or attempted notifications to parents, guardians or representatives shall be documented by the administrator involved. In the absence of a student's parents, guardian or representative during any questions of such students, the principal or certified school staff person shall be present.

If the investigation has centered on any particular student suspected of any alleged criminal activity, the procedure for taking students into custody shall not interfere with reasonable law enforcement procedures.

Initiated and conducted by Law Enforcement Officers

Only in demonstrated emergency situations shall law enforcement officers be voluntarily permitted to conduct such an investigation during school hours.

The building principal shall require proper identification of law enforcement officials and the probable cause for the interrogation or investigation of a student. If the principal is not satisfied with either the identification or the probable cause, he/she shall not grant the request of such persons and shall attempt to notify the superintendent and the officer's superior, documenting such action.

The law enforcement officers shall be required to obtain prior approval of the principal before beginning such an interrogation or investigation on school premises. The administrator shall document the circumstances as soon as practicable.

Interrogation of Student During Investigation of Violations of School Rules

In instances where school rules have allegedly been violated, the principal may notify the suspected rule violator(s). When suspension may be a consideration, the suspect student shall be advised orally or in writing of the nature of the alleged offense and of the evidence.

Probable witnesses should be told the nature of the alleged misconduct and the reason to believe that they were witnesses. The principal may have another adult present during the questioning of students.

Violations of Criminal Law

During an investigation of violation of school rules, the principal shall attempt to ascertain whether there is sufficient justification to believe that a criminal offense was committed that warrants notification to law enforcement officials.

Information of criminal conduct not related to the schools shall be turned over to law enforcement officials, without additional investigation by school officials. School officials shall request that law enforcement officers advise a student of his/her rights.

Taking a Student Into Custody

Following either interrogation or investigation, students shall not be released to law enforcement authorities voluntarily by school officials unless the student has been placed under arrest.

When students are removed from school for any reason by law enforcement authorities, every reasonable effort will be made to notify the student's parents, guardian or representative immediately. Such effort shall be documented.

When an emergency exists, the principal may summon law enforcement officials to the school to take a student into custody.

If an officer has to place handcuffs on a student, it should be done as discreetly as possible. Reasonable care should be taken to avoid “parading” a student in the hallways or on school grounds. Officers have discretion as to when and where to handcuff a student for the student’s safety, the safety of others, and the safety of the officer(s).

When a student has been taken into custody or arrested on school premises without prior notification to the building principal, the school staff present shall require the law enforcement officers to notify the principal of the circumstances as quickly as possible.

Disturbance of School Environment

Law enforcement officers may be requested to assist in controlling disturbances of the school environment.

Any student may be sent home (OSS) for misbehavior or sufficient reason by the Principal. The suspension will be for such time as the Principal or Superintendent determines necessary for proper adjustment. Subject to K.S.A. 72-8901 through 72-8906.

6110 - In-School Suspension

An in-school (ISS) suspension may be used as a means to allow a student to maintain his/her school work while on suspension. It is the intention of the in-school suspension to restrict the activity of a student from the general student body. It is hoped the in-school suspension will be used for most major school violations, taking away the attitude that a suspension is a vacation. The Principal has the prerogative of changing an in-school suspension to an out-of-school suspension should circumstances change.

A student in in-school suspension will be isolated from all other students during the school day and will not be allowed to participate in activities outside of school hours or attend and/or participate in activities or assemblies during school hours.

A student will be provided with all subject assignments and work may be made up during all in-school suspensions. A student in in-school suspension will be considered present for attendance purposes and must be supervised by certificated personnel at all times.

6300 - Drug and Alcohol Policy

The Board of Education and educators of Northeast U.S.D. 246 recognizes the illegal use of drugs and alcohol as being detrimental to the positive development of the students. The school's primary role in this area is to educate students concerning the hazards of drug and alcohol use.

All Northeast U.S.D. 246 personnel and students have the responsibility to report to the principal observed use or knowledge of any chemical substance. These chemical substances include any narcotic drug, alcohol, a hallucinogenic drug, amphetamine, barbiturate, marijuana, solvent, or narcotic device.

Nothing in this policy is intended to diminish the ability of the district to take other disciplinary action against the student in accordance with other policies governing student discipline.

6400 – Searches

- A. Overview. While recognizing that the individual student has a right to some privacy in an atmosphere that encourages growth towards responsible and mature personalities, the District cannot and will not tolerate conduct that violates Federal or State Law or District policies, or otherwise jeopardizes the health, safety and general welfare of the student body, specifically including violations of the “drug-free” and “weapons free” school zone. See #5180 Drug and Alcohol Policy in Board of Education Handbook.
- B. Information. The District will endeavor to reduce the use of and experimentation with harmful substances such as tobacco, illicit drugs, and alcohol by its students, by educating the students about the dangers of such substances through programs including participation in the Drug Abuse Resistance Education (DARE) Program. Such efforts shall include periodic overviews of current drug use prevention activities and dissemination of information at least annually to advise the students of the existence of these policies and their implementation and enforcement, including the random use of dogs specially trained to detect the presence of illicit drugs or weapons.
- C. Searches by Building Principal. The Building Principal may search any locker at any time the Principal reasonably believes that the locker contains or may contain any matter prohibited from being possessed on/or around school property by Federal or State law or by Board policy. Any such search may be made without prior notice to the student to whom the locker has been assigned and with or without the student being present.
- D. Searches by Third Persons. Any person other than the Building Principal who wishes to search a student’s locker shall report to the Building Principal before proceeding to the locker, and in no event shall such person be permitted to search the student’s locker without the principal’s consent unless such person has a valid search warrant authorizing him to make such search.
- E. Searches by Law Enforcement Officers. The District will endeavor to reasonably cooperate with law enforcement officers in the carrying out of

their statutory duties. If a law enforcement officer desiring to search a student's locker has a warrant for authorizing such a search, the Building Principal shall immediately take such person to the student's locker and permit the officer to search the locker. The search shall be made in the presence of the Building Principal.

If a law enforcement officer desires to search a student's locker without a warrant, the Building Principal shall ask what facts lead the officer to believe that evidence of a crime will be lost, destroyed or moved if the search and seizure did not take place immediately, before a warrant is obtained. If the information provided by the law enforcement officer gives the Building Principal reasonable suspicion that a crime has been committed, the principal may choose to search the student's locker. If the information does not provide a reasonable suspicion and no warrant is offered, the principal shall report the incident to the superintendent, who may notify the officer's superior of the incident.

- F. Use of Dogs Trained to Search. Law enforcement officers may, when authorized by the Superintendent of Schools, conduct a sweep of all lockers located in the building, on a periodic or random basis, with dogs specially trained to detect the presence of and locate weapons or illicit drugs. As provided above, the student body shall be advised at the beginning of each school year of the likely occurrence of such searches, which may thereafter be conducted without notice to any student, whether or not any student is present.

Upon reasonable suspicion and at the request of the administration, law enforcement officers or licensed private agencies may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials are present which may threaten the general health, welfare, and safety of students and/or district employees.

- G. Recovery of Prohibited Items. Prohibited items recovered from a student's locker shall remain in the custody of either the Building Principal or the law enforcement officer. If such items are turned over to law enforcement officials the principal shall receive a receipt for the items.
- H. Search for a Person. When it has been determined by the Building Principal that there is a reason to believe that a student has in his or her possession an object which can jeopardize the health, welfare or safety of others, that student shall be ordered to report to the Building Principal's office. This determination may be based on any information received by the Building Principal, designated representative or by a member of the faculty or staff. It also may be based on knowledge of the student's disciplinary problems, the student's association with known drug offenders, the student's exhibiting objects associated with drug use or the student's exhibiting such objects as bullets or a knife sheath which could be associated with dangerous weapons.

Once in the principal's office, the student shall be advised of the reason why he has been ordered to report to the principal's office. The student shall then be permitted to empty the student's items such as, but not limited to pockets, purses, shoulder bags and briefcases. Items which the

Building Principal believes may be connected with illegal activity may remain in the custody of the Building Principal, unless such items are turned over to law enforcement officials; and if this is done, the principal shall receive a receipt for such item delivered. If the student refuses to comply with this request, the Building Principal shall notify the student's parents and request that they come to the school at once. The Building Principal shall advise the parents of the immediate situation. If the parents and the student are unable to persuade the student to comply, the parents and the student shall be advised that law enforcement officials will be notified, and the matter turned over to them. If the parents refuse to come to the school or are unable to be notified and the student continues to refuse to cooperate, the Building Principal shall notify law enforcement officials and inform them of the facts. Any further search of the student shall be at the discretion and under the control of the law enforcement officials with a valid warrant. Any search of an individual person or a privately owned vehicle by a law enforcement officer shall be conducted only upon presentation of a properly executed search warrant for that specific student or for that specific vehicle.

Once the Building Principal has relinquished control of the student to the law enforcement officials, the Building Principal shall remain with the student and be present during any search of the student made by law enforcement officials on school property. A written report of each search shall be made by the Building Principal and submitted to the Superintendent. The written report shall contain the name of the student; the time, date and place of the search; the reason or reasons for the search; the fact that law enforcement officials were called; the name of the person who conducted the actual search; the names of the persons present while the student was being search; the result of the search; and the objects confiscated. The Superintendent shall keep a copy of the written report on file.

- I. Discipline. See #5100-5120 Discipline, etc., #5180 Drug and Alcohol Policy in Board of Education Handbook.
- J. Involvement of Parents. See #5050 Control and Guidance of Students in Board of Education Handbook.

6500 - Dress and Appearance

Dress, personal appearance and hygiene are necessary for an orderly educational atmosphere. Students are expected to be well groomed and neatly dressed at all times. The principal shall make the final decision about appropriate dress. The Board of Education supports the principal as final judges about the interpretation of appropriate and modest dress.

The following guidelines will be used:

9400 - Special Education Services

Unified School District #246 strives to provide for the educational needs of all students. Among these are instructional and support services for exceptional students, including handicapped and gifted.

These services are provided to our students through membership in the Southeast Kansas Special Education Cooperative. Through membership in the cooperative we join twelve other districts in providing an appropriate education to all our exceptional children and youth.

Acquisition of these services through a cooperative is necessary due to reasons of small incidence of exceptional children, economy in providing the services and the ability to serve the varying needs of these children.

For information regarding these programs, services, and procedures for referral for comprehensive evaluation for the exceptional child, please call the Board of Education Office or the Director of the Southeast Kansas Interlocal #637, Pittsburg, Kansas 66762, phone 800-381-2749.

9500 – Site Council Bylaws

The purpose of the Northeast High School Site Council shall be:

- Provide advice and counsel to the school in evaluating state, school district and school site performance goals and objectives
- Help determine methods which should be employed by the school to meet the goals and objectives
- Provide ongoing support for the students and staff of the school.

The School Site Council is required by Kansas law to have the following groups represented:

- The principal
- Teachers
- Other school personnel
- Parents of pupils attending the school
- The business community
- Other community groups
- Students

Site council will meet at a minimum of that required by the Kansas State Department of Education and the KESA accreditation system.

9600 – GEI (General Education Interventions)

The Every Student Succeeds Act (ESSA) and the Individuals with Disabilities Education Act (IDEA) place a strong emphasis on using evidence-based instruction and interventions, as appropriate, for children in general education. ESSA defines evidence-based as “an activity, strategy, or intervention that—

- (i) demonstrates a statistically significant effect on improving student outcomes or other relevant outcomes based on—
 - (I) strong evidence from at least 1 well-designed and well-implemented experimental study;
 - (II) moderate evidence from at least 1 well-designed and well-implemented quasi-experimental study; or
 - (III) promising evidence from at least 1 well-designed and well-implemented correlational study with statistical controls for selection bias; or
- (ii)(I) demonstrates a rationale based on high-quality research findings or positive evaluation that such activity, strategy, or intervention is likely to improve student outcomes or other relevant outcomes; and
- (II) includes ongoing efforts to examine the effects of such activity, strategy, or intervention.” (20 U.S.C. 7801(21)).

These practices and programs apply to all schools and all children in general education. Kansas’ requirement to implement GEI supports this emphasis on providing the intensity of instructional support in proportion to the presenting needs of children through methods of analyzing child data, implementing scientifically research-based interventions, and monitoring child progress.

The GEI process should continue until a successful intervention is determined. However, when it is evident that the child's needs require resources beyond those available in general education, and the team suspects the child is a child with an exceptionality (disability or giftedness) the child must be referred for an initial special education evaluation. At any time during GEI, the team responsible for planning and implementing the interventions may make three decisions:

- a) Continue the intervention and monitor child progress
- b) Change or modify the intervention and monitor child progress
- c) Refer the child for an initial special education evaluation.

NORTHEAST USD 246 STUDENT DRUG TESTING POLICY

Approved by the Northeast USD 246 Board of Education
Effective 2012-2013 School Year

In an effort to protect the health and safety of Northeast USD 246 students from illegal and/or performance-enhancing drug use and abuse or injuries relating from the use of drugs/alcohol, and to set an example for all students, the Northeast USD 246 Board of Education has adopted the “Student Drug Testing Policy” for drug testing of students participating in or attending extracurricular and/or co-curricular activities as well as students parking in the school parking

lot. The Board recognizes that all students have certain personal rights of privacy guaranteed by our federal and state constitutions. This policy will not infringe on those rights.

STATEMENT OF PURPOSE AND INTENT

A. It is the intent and desire of the Northeast USD 246 Board of Education, Administration, and staff that every student in Northeast USD 246 refrain from using, possessing, or distributing illegal drugs and/or alcohol, and to help students make good decisions. The actions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extra curricular and/or co-curricular activities. This Policy is intended to supplement and complement all other policies, rules, and regulations of Northeast USD 246 regarding possession and/or use of illegal drugs and/or alcohol.

B. Participation in or attendance at school sponsored extracurricular and co-curricular activities, as well as parking in the school parking lot is a privilege. Accordingly, students participating in or attending extracurricular and co-curricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set the highest possible examples of conduct, which includes avoiding the use or possession of illegal drugs and alcohol.

C. The purpose of this policy is to prevent illegal drug use and to create an environment free of illegal drug use and abuse. The sanctions of this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in or attend extracurricular or co-curricular activities. No academic sanction for violation of this policy will occur, except to the extent that a violation of this policy would also constitute a violation of the school's discipline policy. If the school's discipline policy regarding drug/alcohol use is violated, the student will be subject to the penalties of the discipline policy.

D. The purpose of this policy is to educate students as to the serious physical, mental, and emotional harm caused by drug use; alert students with possible drug problems to the potential harms of use; prevent injury, illness, and harm as a result of drug use; and maintain in the school district an environment free of drug use and abuse. Northeast USD 246 has adopted this policy for use by all students participating in or attending extracurricular and co-curricular activities in grades 7-12 and students parking in the school parking lot grades 9-12.

EDUCATION AND CONSENT

A. The school shall provide a drug policy education for students within one week of the policy implementation. The session will include a detailed explanation of the Northeast USD 246 Student Drug Testing Policy.

B. In addition the Principal will review the policy each year on the first day

of school and with any new students upon their arrival to school. In addition, it is recommended that each coach/sponsor conduct a player and parent meeting that will include information about the impact of the drug testing policy on participants. Parental attendance is strongly encouraged at each session. Each student in grades 7-12 will be provided copies of the Northeast USD 246 Student drug Testing Policy and of the Student Drug Testing Consent Form.

C. Each student who desires to participate in or attend extracurricular and/or co-curricular activities or to park in the school parking lot must return a copy of the Student Drug Testing Consent form, signed and dated by the student and by the student's parent or guardian, to the school office within the first five (5) days of the start of the school year. Transfer students will have five (5) days from their date of enrollment. Failure to turn in the properly signed consent form within the time limits set forth in this policy will keep a student from participating in or attending extracurricular and/or co-curricular activities as well as parking privileges on campus being revoked.

SELECTION FOR TESTING

A student may be subject to drug testing under this policy in any of the following circumstances:

A. Upon request at any time the administration determines there is reasonable suspicion to believe the student has used or is under the influence of illegal or performance-enhancing drugs or alcohol;

B. Upon request by the administration based upon an objective random selection process from among all students in the particular pool of students to be tested;

C. As a member of a recognized club or group of students or team based upon a rotating schedule of similar clubs, groups and teams as determined from time to time by the administration; and

D. Students attending school sponsored extracurricular and/or co-curricular activities may be required to submit to an alcohol breath analyzer test prior to entry to determine the presence of alcohol, or at anytime requested by administration, based upon reasonable suspicion.

PROCEDURE

A. Any drug use test required under this policy will be administered by a professional laboratory chosen by Northeast USD 246, using scientifically validated toxicology methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

B. All aspects of the drug-testing program, including the taking of specimens, will be conducted in a manner to safeguard the personal and privacy rights of students to the maximum degree possible. The test specimen shall be

obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility. The student will empty his or her pockets and remove his or her coat and other excess clothing prior to entering the restroom or other private facility. The principal shall designate a drug laboratory employee or school employee of the same gender as the student to accompany the student to a restroom or other private facility. When collecting a urine sample, the monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure. At this time the monitor will inform the principal, who will then determine if a new sample should be obtained. The monitor will be present to collect the sample along with the student and one other witness.

C. If the initial drug test is positive, the initial test result will then be subject to confirmation by a second test.

D. If the second test confirms the presence of drugs or alcohol, the laboratory will report the results to the designated school representative. The school will then contact the parents of the student with the results and will solicit information regarding any medications the student may be taking. If needed, the school will contact a certifying scientist at the laboratory regarding any drug interactions. If requested, a medical review officer will review and confirm the results and report the findings to the designated school representative.

E. The principal will contact the superintendent, athletic director, head coach/sponsor, student, and parent/guardian to schedule a conference. At the conference the principal will solicit any explanation of the positive test result. If the student asserts the positive test results are caused by something other than consumption of an illegal drug, performance-enhancing drug, or alcohol, the student will be given the opportunity to present evidence of such to the principal, athletic director, and head coach/sponsor. The school district will rely on the professional opinion of the laboratory that performs the confirmation test in determining whether the positive test result was produced by something other than the consumption of an illegal drug, performance-enhancing drug, or alcohol. The principal, superintendent, athletic director and coach/sponsor will make the decision within three (3) working days.

F. The decision may be appealed in writing to the Northeast USD 246 superintendent within three (3) working days. The superintendent will then make a written decision within three (3) working days. During the time of this appeal, the student will not be eligible to attend, participate in, or compete in extracurricular and/or co-curricular activities or to use the school parking lot.

G. The superintendent's decision may be appealed in writing to the Northeast USD 246 Board of Education within three (3) working days. The superintendent will then make a written decision within three (3) working days.
