Percent Tested: Source and Use of Enrollment

For percent tested and school/district achievement calculations, student enrollment files were downloaded from eSchool via TRIAND to establish the students expected to test. These files were downloaded May 05, 2017.

When students' test and enrollment records were matched by school and student state identifier, the demographic values from the enrollment files were used in ESEA calculations.

When a student had a test record, but a matching enrollment record was not found, the demographic values from the student's test record were used in ESEA calculations.

When a student had an enrollment record that did not match a test record, the demographic values from the student's enrollment record were used in ESEA percent tested calculations.

School Achievement

The school achievement results in this report include students who completed a full academic year (not highly mobile) and completed a regular or alternate assessment. Students who were considered highly mobile were excluded from the calculations. All grades are included in the school achievement for each subject.

Average State Achievement

The average state achievement statistics listed in this report include students who completed a full academic year (not highly mobile) and completed a regular or alternate assessment. Students who were considered highly mobile were excluded from the calculations. All grades are included in the state averages for each subject.
