

**HERITAGE ELEMENTARY**  
Fifth Grade Supply List  
Welcome to 5<sup>th</sup> Grade!!!

Dear Parents,

We are frequently asked for a list of school supplies. Many parents want to know what supplies the children will need in class for the coming school year. In response to those requests, we have asked the teachers to come up with a **Wish List** that we can share with parents. The items below are things that would enhance your child's school experience next year in **fifth grade** but they are not a required list of items that your child must have. Many are items that children often like to buy and own. Other items help maintain a healthy classroom environment like tissues and hand sanitizer. Shopping for school supplies is something many children look forward to in the late summer months. Please feel free to use this list in any way. With such great before school deals, we recommend you stock up and store at home to refill your child's supplies as the year progresses.
