

Dear Upcoming Third Grade Families,

I am so excited to have your children in my class next year. I have gotten to know many of them throughout the year and am looking forward to a new year together.

In this folder you will find information about summer homework and a school supply list for next year. The intentions of summer homework are to maintain the skills that students have worked hard to build thus far. A small amount of weekly skills work will help students enter the school year prepared. Research has shown that the "summer slide" can cause the average student to lose 1-2 months of instruction. This packet is intended to reduce this slide and help us hit the ground running in the fall. Of course TMS believes that students should be playing outside, visiting family, and having meaningful experiences outside of school during the summer. This packet is not meant to become a burden or headache (and please contact me if it becomes so).

You will see that your child's summer homework consists of a packet broken up into 10 weeks of work (to be completed over the 12 weeks of summer). The material in the packet should be a review of curriculum that students covered this year, and students should be able to complete the work independently. If they are "stuck" on a problem, they should circle it and move on. This will help me identify areas where we will need to focus in the fall. On average, each week's worth of work should take an hour total, plus daily independent reading (30 minutes, 5 times a week). I have also included a rubric that outlines the expectations of summer homework.

The recommendation for summer homework is:

- ✓ One math mini-packet a week. These are labeled by week, with 10 packets to be completed over 12 weeks. If they seem too long, pick at least 2 pages to complete per week.
- ✓ One journal entry a week. Entries should be 1-2 pages in length and edited for proper capitalization, punctuation and spelling. They should take 20-30 minutes to complete each week. I have included a number of prompts that students can write about. **Students are welcome to keep a journal of their summer experiences and write creatively if they prefer.**
- ✓ Sight word spelling list. To be completed over the course of the summer.
- ✓ Daily reading in an independent reading book. Students should complete 6-10 books at their level over the course of the summer and record them on the attached reading log. Students should read for 30 minutes approximately 5 times a week. Also, take advantage of the Wilkinson Public Library reading program if you are able.

Please take the time to page through the packets this week so that you can contact me with questions before the school year is over. Have an adventure filled break and we will see everyone in September!

Love,

Ms. Caitlin

Sight Word Spelling Practice

Sight words are words that do not follow a predictable spelling pattern and their spelling must be memorized.

1. At the beginning of the summer, quiz your child on the attached sight word spelling list.
2. Determine which words they already know how to spell and which words they need to memorize.
3. Throughout the summer, practice the words that your child got wrong. I have included a list of ideas for practicing spelling. You can check out <https://thisreadingmama.com/hands-on-spelling-activities/> for additional ideas for practice.

Write your words in the dirt or sand using a stick.	Rainbow write your words example	Trace your words with your finger on sand paper.
Use playdough or pipe cleaners to sculpt your spelling words.	Write each word three times. You can try using fancy letters and cursive writing too.	Write your spelling words in alphabetical order.
Use your finger to spell your words on a family member's back (someone who can read!). You can switch and have them do it to you too.	In a darkened room, use a flashlight to spell your words in the air. Have a family member read each word as you go.	Draw a picture and write your spelling words in the picture. Try to hide the words in the picture.

Second Grade Sight Words

These second grade sight words are the keys to your students' success as readers and writers in this important grade. These are words that all second graders should read instantly and spell easily.

We've broken down the Dolch Sight Word List into three parts, so your children can work on mastering a fewer number of words at a time.
