

Wednesday, October 10, 2018

Dear 6th, 7th & 8th grade Parents:

I am writing to invite your student to participate in MathCounts this year. It is open to all 6th, 7th and 8th grade students. It is an extracurricular activity, so we practice before school one day each week from 7:00am until 8:00am. We start in October, usually after teacher's convention and end in February with the county MathCounts competition in Mott.

This program is very beneficial to junior high students since it exposes them to higher level mathematical concepts and problem solving. It stretches their thinking and computational skills in an environment that also promotes positive social growth across three grade levels. We strive to make it a fun and interesting way to challenge junior high students with advanced math topics.

What it requires from you and your student is that you are willing to come in by 7:00 one day a week. There is nothing to buy, all of the materials are supplied by the school. We try to accommodate people's schedules, so if a particular day of the week works best for you, or if a day does not work at all, please be sure and indicate that so that we know when we choose our practice day.

If you have any question or concerns, do not hesitate to call me at home 563-4428 or at school at 579-4160. I am looking forward to working with your student.

Please return the bottom of this letter by Friday, October 10, 2018. You can also email me at shannay.witte@kl2.nd.us if you'd rather respond that way.

Sincerely,

Shannay Witte

YES, _____ would like to participate in MathCounts!

No, _____ does not wish to be in MathCounts.
