

SEIZURE INFORMATION

Whether it is the first time a student experiences a seizure or a student has an epilepsy diagnosis, parents should feel comfortable that our staff is trained in what to do should a seizure occur during school hours.

For students who do not have a seizure history, 911 is immediately called should this event happen at school. For those students with a seizure disorder, we kindly ask that they have a [Seizure Action Plan](#) on file to ensure their child's academic team knows the student's individual protocol. In the event of a seizure the seizure action protocol will be followed and appropriate personnel will be notified.
