

# From the Board Room

October 5, 2015 Regular Meeting

Hesperia Unified School District Governing Board

Vol. 5

## *Preparing Today's Students for Tomorrow's World*

### **BOARD APPROVES THE PURCHASE OF 500 ADDITIONAL DELL CHROMEBOOKS**

You may recall that in October, 2014 the board approved the purchase of Dell Chromebooks using Sigmanet managed services for our 1 to 1 initiative piggybacking the WSCA (Western States Contracting Alliance) master contract. Additional devices are needed due to student growth in the 2014-15 school year as well as for the 2015-16 school year. Additional devices are also needed to ensure replacement stock on hand for any loss break during the 2015-16 school year.

Growth in the 2014-2015 school year was greater than expected, depleting the reserve stock of 500 devices. Additional devices are needed to ensure that every student in grades 2-12 has a device as well as provide reserve stock. After debriefing with the IT Department and the CLSs, it was determined that we should increase our on-hand reserves from 2.5% to 5% to better facilitate the beginning of the year rollouts.

The purchase was funded through rebates from the Microsoft Voucher Program.

### **10 GIGABIT FIREWALL APPROVED**

The Board also approved the purchase and installation of a 10 gigabit firewall. Currently, the District has a 4 gigabit firewall to distribute internet to both Charter and County. The new 10 gigabit firewall will manage the increased bandwidth that HUSD is moving toward to support our services.

The purchase was funded through rebates from the Microsoft Voucher Program.

### **BOARD ALSO APPROVES INCREASED BANDWIDTH CONTRACT WITH CHARTER SERVICES**

In anticipation of network growth with the use of chromebooks and other devices this year, the Board approved increasing our bandwidth from 1 gigabit to 5 gigabits. The purchase was funded through rebates from the Microsoft Voucher Program.
