If this is an emergency, dial
911

- **Go with your gut.** If you feel uncomfortable about something you have seen or heard, talk to an adult to help you sort out the facts of the situation.
- **Share up.** There is a different reporting and tattling or gossiping. By providing information either directly or confidentially, you may be able to prevent harm to others.

- **Be aware.** Listen, look, pay attention to the people, and places around you.
- **Know what to share.** Who, what, where, when, and why.
- **Keep reaching out.** If the person you speak with doesn't take it seriously or isn't sure what to do, involve someone else with greater authority. OK2SAY is available 24/7
