

8.24 - SCHOOL BUS DRIVER'S USE OF MOBILE COMMUNICATION DEVICES

"School Bus" is a motorized vehicle that meets the following requirements:

1. Is privately owned and operated for compensation, or which is owned, leased or otherwise operated by, or for the benefit of the District; and
2. Is operated for the transportation of students from home to school, from school to home, or to and from school events.¹

Any driver of a school bus shall not operate the school bus while using a device to browse the internet, make or receive phone calls or compose or read emails or text messages.² A school bus driver may use a two-way radio communications device or any device used in a similar manner as a two-way radio communications device to communicate with the District's central dispatch or transportation center. In addition, if the school bus is safely off the road with the parking brake engaged, exceptions are allowed to call for assistance due to a mechanical problem with the bus, or to communicate with any of the following during an emergency:

- An emergency system response operator or 911 public safety communications dispatcher;
- A hospital or emergency room;
- A physician's office or health clinic;
- An ambulance or fire department rescue service;
- A fire department, fire protection district, or volunteer fire department; or
- A police department.

In addition to statutorily permitted fines, violations of this policy shall be grounds for disciplinary action up to and including termination.

Notes: This policy is similar to Policy 3.51. If you change this policy, review 3.51 at the same time to ensure applicable consistency between the two.

¹ Students are not required to be transported on a school bus as long as the transporting vehicle is not scheduled for a regularly occurring route or takes a route that contains frequent stops to pick up or drop off students.

² A.C.A. § 6-19-120 only prohibits "cell phone" use,; A.C.A. § 27-51-1504 prohibits the use of a "handheld wireless telephone" for browsing the internet, sending or receiving emails, and sending or receiving text messages at any time; and A.C.A. § 27-51-1609 prohibits the use of a "handheld wireless communication device" for any purpose while in a school zone. The terminology in this sentence is designed to combine these statutes and to cover all the distractions that could affect a driver's ability to safely drive the bus.
