

IMMUNIZATION REMINDER

Student immunization records must be current and on file with the school office. Please turn in or update your child's information prior to the start of school. The last date for the school to receive immunization records is August 30th. Any student who is not compliant with the immunization requirements set forth by the state of Missouri will not be able to attend after that date until the school has the required records on file. If you have questions, please contact our office.

Students who are new to NCCS should also have a physical examination form on file.
