

HUSTON ACADEMY NEWSLETTER

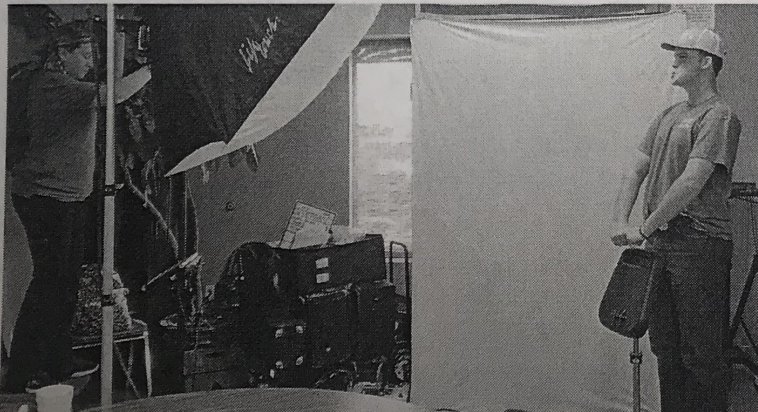

10/08/2018

Mrs. Debbie Smith, our Business Manager here at Huston Academy, was born in Dallas and grew up in a couple of small communities just South of Dallas. Before starting work here in August 2004, Mrs. Smith worked in downtown Dallas for a large Business Forms distributor. Smith moved here when her husband inherited land but it wasn't her first venture to Stephenville, Smith attended college at Tarleton for a short period of time. Smith's favorite aspect about Huston Academy is that this school gives every student a chance and the staff does their best to help every student succeed. "Our goal is to help every student graduate and be prepared for life after high school." After retirement, Smith's plan is to enjoy time with her grandchildren and possibly travel, she has

always wanted to go to Yellowstone National Park.

Fall picture day documents the official start of every school year, the students are all dressed to the nines ready to mark this year as one of the best years of their lives. Some forgot that it was picture day and were not ready, while others had planned and set out what they were going to wear weeks in advance. Nevertheless we can always count

on Lifetouch to capture the beautiful faces that walk through our doors everyday.
