

THE DRAGON TIMES

Meal Packaging Event

By: Tayla Martin and Erin Andersen

Last Thursday, our school had a meal packaging event. The event was put on by FCCLA, but all of the high schoolers participated. There were 15,000 meals packaged and all of the meals went to food banks. These food banks include the Methodist church, the Zion Lutheran church, and food banks in Denver.

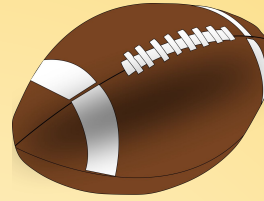

This was the first time our school had done a food bank. Mrs. Ortner said that it was fun, but a lot of work. This was because the nearest company to Holyoke was in Kansas City, it is Something to Eat. Before she found that we could use Something to Eat to put on the food drive, she tried to go through three other companies. Mrs. Ortner thought the food bank went really well, and she thought that the students really enjoyed it. It was Kyra Loutensock's idea to do the food packaging event, and she thought that it would be a good idea if our school did it because her church has done it before.

The duo of Dak Prescott and Ezekiel Elliott was shut down for the first time, and Elliott was held to 33 rushing yards on the day. There is much more to be discussed, so here is what we learned from the week seven matchup. The final score was 17-20 Redskins

Review- Nexus 5x

By:Max Kleve

The Nexus 5x is a phone created by LG, licensed by Google, and runs the Android Operating System. This phone was released in 2015. It is a little old, but it still runs very well. The back camera has 12.3 megapixels, a flash, a light and a proximity sensor. The 'Nexus Imprint' fingerprint scanner is also on the back. On the front side, there is a 5 megapixel camera, a light, and a proximity sensor. The phone is mainly plastic, but is highly luxurious. The phone can flex quite a bit, but the screen does not break. I would rate the Nexus 5x 5/5 stars for lasting through time, and its durability.
