Procrastination

By Inspiration Blaine

Have you ever needed to get something done, whether it was homework or cleaning your room, but you can't seem to get it done? You are probably a procrastinator. Let's face it. We have all faced procrastination at one time or another. You may be sitting down doing your homework and then your favorite TV show comes on. You turn to watch the TV for a few minutes, then next thing you know you are watching it for 30 minutes. To reduce procrastinating, you should tell yourself that you need to finish what you are doing and afterward, you can play your game, watch TV, or whatever you want to. Turn off the TV and get away from all distractions. If you are reading this, go do your homework and stop procrastinating.

Are Cats or Dogs Better?

By Megan Ford

Cats and dogs are the top pets that everyone has. Which one is better though? That's something that every pet owner will argue about. Here are the pros and cons of both cats and dogs:

Cats		Dogs	
Pros	Cons	Pros	Cons
Low maintenance	Poop		Poop
Good hunters	Sharp Claws	Very loyal	Require a lot of attention
Good with apartments	Shedding	Always happy to see you	High maintenance
Very affectionate	Vomit	They can help you not feel alone	You have to buy toys, treats, and collars for them
Can be very entertaining	Predator instincts	They will become your best friend	Walking them

So which one is better? That's your choice and whichever one would be better for you. If you want a more low maintenance pet then go for a cat. If you're okay with having more to take care of, then go for a dog.

Is Metal Music Evil?

By:Sherril Williams

Metal music is considered evil probably because it sounds angry. Metal music uses minor scales while pop and R&B use major scales. Metal music uses a fast tempo and harsh sound quality of metal bands combined with the use of minor scale alter the sound of minor scale from sounding sad into sounding angry. It can also partly be the way people say things. Try saying "stop it" in a slow tempo and a soft tone then try saying it in a loud or aggressive way. When you say it in a slow and soft tone, it sounds depressed, and when you say it loud and aggressively, you sound angry. Some metal musicians don't appear human, but that doesn't make the music evil. Listen to the original song Black Widow by Iggy Azalea, then listen to the same but covered by The Animal in me. Almost any song can be made into a metal song. I guess, in my opinion, it depends on how you view metal. Knowing what I know, sometimes you have to listen to the screaming to understand the meaning.

Why Is the Internet Dangerous?

By Bethany Tobler

Wherever you go, you see people on their phones. People take phones everywhere. They are constantly calling, texting, and on social media. My question is why does all of that matter so much?

You constantly hear stories about some kind of drama online. People are always saying something bad or bullying someone and posting things they probably shouldn't. For some reason, so many people are interested in all this.

Many parents worry about their children but, now more than ever, grandparents are raising their grandchildren more than the actual parents. Grandparents don't understand phones as much sometimes. So it's harder for them to know what to do when problems are happening online.

Many people love seeing the drama or posting it. Sometimes, a person has something going on in their life, and they post about it. They may not have anybody to talk to about it. Then they regret posting, and

everybody has already seen it and shows everyone else. Then it may get deleted, but we all know that it is never truly deleted.

Do you choose to post bad things or good things? Or are you mean to someone online? You need to think about the consequences that come with it. Be careful and watch what you do because it's going to be with you forever.

Haunted Houses

By Bethany Tobler

How do haunted houses make you feel? Do you get scared, or do they scare you at all?

Many people go through haunted houses to have the thrill, rushing of your heart, warmth rising in your, head throbbing, and to scream. They love the adrenaline that rushes through you. Most people feel the same about scary Halloween movies. I mean I do. The excitement and the anxiety are there.

The thought of being scared gets people's nerves high and their anxiety too. The scary things grabbing and jumping at you pleases people. Friends tend to go together. Not many people will go alone. It's funny because people love to go with friends but, fear to go alone. Is there really a difference?

Many people think there is a difference because they feel safer. When you go with a friend, you have someone's hand to hold or someone to hold onto. When you go alone, you have nothing to grab or hold onto when something jumps at you.

Some people say they don't get scared. People don't get scared because the thought of something jumping at you doesn't have an affect on you. They don't have a high rush for being scared. When they do get scared, they don't get scared much.

People react differently to scary things. Some are over dramatic. The thought of having a good time always drags people in to go to them. Mostly, they just enjoy going with friends.

Our last home game. The band and Bulldogs did great! It was so much fun. The Bulldogs did great on the fields. Even though we didn't win, y'all did such a good job. It's depressing knowing that was our last home game and the last time we step on that field during a game.

High School Stress Levels

By: Madisyn Allen

What is stress? Stress is your body's way of responding to any kind of demand or threat when you sense danger whether it's real or imagined. The body's defenses kick into high gear in a rapid, automatic process known as the "fight-or-flight" reaction or the "stress response". Stress isn't always bad in small doses, it can help you perform under pressure and motivate you to do your best.

But when you're constantly running in emergency mode, your mind and body pay the price. If you frequently find yourself frazzled and overwhelmed, it's time to take action to bring your nervous system back into balance.

The Most Popular Halloween Costumes for 2018

By: Megan Ford

And here are the other most popular costumes:

Aries Zodiac Sign
By Inspiration Blaine

If you were born between March 21st- April 19th you are an Aries. The symbol of an Aries is a ram and our element is fire. If you are an Aries you may be ambitious, independent, and very impatient. The motto that best describes an Aries is that, "When you know yourself, you're empowered. When you accept yourself, you're invincible." The lucky gem is a diamond and the spirit color is red. If you are looking for a love match, try going for a Sagittarius. They are an Aries. People that are Aries seem to be very blunt. Aries will tell you what's on their mind. A few famous Aries include: Big Sean, Leonardo da Vinci, Lady Gaga, Emma Watson, and Reese Witherspoon.

Feelings About College

By Bethany Tobler

Many people want to go to college. Some don't due to the fact that they don't have any money or enough money to go. So many students want to go because of the career choice. So many will be at college for four or more years. Do they really want to go college just for that?

Some people are scared to go to college. They get scared because what if you spend all your money on something you don't even like at the end? What are you going to do? There's not much you can do but save money and go find something else.

Also, some students don't go because they're scared it's going to be too hard. Is it really all that hard? Some think it's hard to focus on one thing for that long. Others just think it is too much to do all at once with handling a job also. Finishing college is well worth going because you learn more. Also you get to start the job you have always wanted. So yes I want to go, and I think it will be well worth a few more years of school. You just have to stay focused and work hard, and I think everything will turn out just fine.

Alternative Scary Movies

By Hunter Robinson

When Halloween comes around, we all expect the traditional Halloween movies to come into our lives somehow. From Friday the 13th, to Scream, to all 348 of the Halloween movies, it can be hard to break tradition with movies. Although, from time to time, everyone wants and needs to break away from tradition. So, here is a list of four movies to help you dive into a new side of scary.

1. Hush- This movie is about a deaf woman who lives in the woods, and experiences a break in attempt by a deranged serial killer. It's a super good movie and I recommend it 100%.
2. The Ritual- Now this movie is very different, and not your usual horror movie. It revolves around old folklore and has a very "Blair Witch Project" vibe.
3. The Village- Of all the movies, this is the strangest. It takes place in an Amish community that is completely cut off from the world, and a lot crazy murders happen and it's completely crazy.
4. The Ruins- I know a lot of people might've actually have seen this one but it's still good. It takes place in a Central American country, where a bunch of tourist students get trapped on top of ruins when a bunch of cannibalistic isolated tribes attempt to murder them. It is one of the bests!

Last Home Game

By: Destiny Ridenour

For seniors, last Friday was our last home game. For some of us, this is a big deal and pretty sad. We made so many memories at home football games. From laughing till we couldn't breathe, huddling up because it was freezing outside, to cheering our bulldogs to a victory. It's unbelievable how fast this year is going by. Each day gets more scary knowing we are one day closer to graduation.
