Our kids need us... Our kids need you!

When I refer to our kids, I am talking about the children in our own community. Sometimes these are the kids next door and sometimes they are the kids sitting in the seat right next to your child at school.

Every school year in our community hundreds of children enter the foster care system. The critical shortage of foster homes in your school district means that abused and neglected children are rarely able to stay in their original school when they enter foster care.

As a result, children who must enter foster care not only lose their families, but also friends, teachers, tutors, counselors, administrators, bus drivers, food service workers and custodians.

For many of these kids, school is the only secure piece of their lives. You could be the best solution!

We are searching for a few families from your school to become licensed foster parents. Just in case a child in your school needs a home. You don't have to be a super hero or even save the world... but just maybe you could find room to make the difference in the life of one child.

Attend orientation now.

Get **licensed** and be **ready** to help when a child in your school district needs a foster family.
