
RELATIONS WITH PARENTS

The Board believes that the education of children is a joint responsibility, one it shares with the parents of the school community.

Parent-school cooperation will be supported through:

1. Parent-teacher conferences to foster two-way communication between home and school.
2. School visitation/participation days to promote opportunities for parents to observe classes.
3. A Parent Council for each school to meet regularly with the principal and staff to discuss items of interest. Procedures for operation will rest with the individual parent councils.
4. Special events of a cultural, ethnic or topical nature which are initiated and funded by parent groups, involve the cooperative effort of students, staff and parents, and are of general interest to the schools or community.
5. A community volunteer program in the schools.

For the benefit of the students in the district, the board believes that parents have the following responsibilities:

1. To support their children in following school rules and regulations.
2. To support their children's daily work and provide suitable conditions for home study.
3. To follow established procedures for bringing information and concerns to the attention of the district.
