NATCHITOCHES PARISH SCHOOL BOARD EQUAL EDUCATION OPPORTUNITY POLICY

The Natchitoches Parish School System is committed to a policy of educating children by helping them to develop an awareness and appreciation for the achievements, problems, and aspirations of all people in our culturally diverse society.

The school system will help all children gain the knowledge, skills, and determination that will enable them to reach their highest potential and to contribute to the welfare of all mankind. The school system shall establish and maintain an atmosphere, in which all persons can develop attitudes and skills for effective, cooperative living, including:

1. Respect for the individual regardless of socio-economic status, intellectual ability, race, creed, color, religion, sex, or age
2. Respect for cultural differences
3. Respect for economic, political, and social rights of others
4. Respect for the right of others to seek and maintain their own identities

The school system will continue to provide good human relations by removing all vestiges of prejudice and discrimination in employment assignment and promotion of personnel; in location and use of facilities; in curriculum development and instructional materials; and in the availability of programs for children. To ignore such concern is morally wrong, economically wasteful, and socially dangerous.

The school system shall continue to reexamine thoroughly all parts of the curriculum to make sure that it emphasizes positive human relationships. The instructional materials used in schools must accurately portray the history, contributions, and culture of the various ethnic groups in our society. Children from minority groups must be helped to establish their identity within their own group as well as with the total society.

It is essential that staff, students, parents, and citizens become more aware of human relations concerns in the school and community. The school system will train all staff members to become more responsive to the needs of children and adults. It will also develop programs that will increase the awareness of students, parents, and citizens of the cultural diversity of others.

With people moving from rural to urban areas, from cities to suburbs, and from one part of the nation to another, the public schools have an obligation to help children know and appreciate different physical environments, cultural backgrounds, and life styles.

The school system shall continue to reexamine its policies and procedures to determine their effect on individual and group behavior and to make whatever changes are necessary to improve human relations. The school system shall continue to take affirmative action to make opportunities for employment and promotion available to every individual solely on the basis of his/her qualifications and without regard to sex, age, race, creed, or national origin.

The school system will utilize every opportunity to work with other institutions and agencies to develop improved human relations in the community and to make channels available through which citizens can communicate their human relations concerns as well as to contribute their intellectual and moral resources for the solution of these concerns.

The Natchitoches Parish Public Schools must contribute to our national effort to improve international understanding and cooperation by helping to reconcile group differences and by building understanding of the various interdependent cultures of the world.

SCHOOL ADMISSIONS

“No student may be excluded from the appropriate school within the district except by due process or failure to meet specifications of Board policies.”

SCHOOL ADMISSION POLICY

The Board shall admit students to the schools of the school district based upon an application submitted by the parent, guardian, or student to the Board at the beginning of each school year, under such rules and regulations as the Board may prescribe. ***All Natchitoches Parish School Board student’s parents/guardian MUST go to their child(ren)’s designated school each year to complete all necessary paperwork and forms.***

No student may be excluded from the appropriate school within the school district except by due process or failure to meet specifications of Board policies. The Board fully recognizes that providing equality of educational opportunities for all children requires objectivity. The Board is equally concerned that all admission policies adhere strictly to applicable legal requirements, e.g., health-related standards.

No child shall be admitted to school for the first time until her or his parents do the following:

1. Present to school officials an official birth certificate.
2. Present to school officials evidence of **immunization according to a schedule approved by the State Division of Health.**

A. Pre-Kindergarten/Kindergarten/First Time Entry:

Beginning in school year 2009-2010, two doses of varicella vaccine will be required in Louisiana schools for entry into pre-k, kindergarten, daycare, and headstart programs. In addition, prior to school entry, these students must have documented proof of immunizations for: two (2) doses of MMR; three (3) HBV; two (2) Varicella; and booster doses of DtaP and Polio vaccines administered on or after their 4th birthday *and* prior to school entry. If a child is not complete (up-to-date), he/she must present a record indicating the child is in progress of receiving vaccines, and follow-up must be provided for compliance with the above requirements.

B. Middle School Requirement:

Effective July 1, 2008, Act 152 and Act 342 requires that beginning with the 2009-2010 school year and continuing thereafter, a student shall provide satisfactory evidence of current immunizations against meningococcal disease and any other age appropriate vaccine as a condition of entry into the sixth grade. Further, any student who has attained the age of eleven years or who is entering a grade other than grade six shall provide satisfactory evidence of current immunizations against meningococcal disease and any other age appropriate vaccine as a condition of entry into that grade. This requirement also affects susceptible individuals through 18 years of age who are enrolled in any Louisiana school.

At the time of registration, students must show proof of immunization of the following vaccines: Tetanus Diphtheria Acellular Pertussis vaccine (Tdap); two (2) doses of Varicella; two (2) Measles-Mumps-Rubella (MMR); three (3) Hepatitis B (HBV); and one (1) Meningococcal Vaccine (MCV-4).

4. Present to school official **information needed to access such records.**
5. Present to school officials evidence of being bona fide residents of the parish, with limited exception. **However, children temporarily residing within the jurisdiction of the Board who have no permanent address or who have been abandoned by their parents shall be admitted to school, except as may be allowed by statute.**
6. Present to school officials satisfactory evidence that at least one of the student's parents/guardians has attended a parent orientation meeting conducted by the parish. However, no child shall be denied entry into school because parent/guardian has not done so.

SCHOOL ENTRANCE AGE

By state law RS 17:221 starting in the 2022-2023 school year, Kindergarten is now mandatory for all **children entering kindergarten** at the beginning of the school session for the first time must be at least **five (5) years of age on or before September 30** of the calendar year in which the school year begins. Kindergarten students entering after the school session has started must meet Natchitoches Parish entrance requirements.

STUDENT SCHOOL ASSIGNMENTS/ATTENDANCE ZONE REQUIREMENTS

The School Board shall have authority and responsibility for the assignment, placement, transfer, and continued education of all students attending schools within its jurisdiction. The School Board shall require a student to attend the appropriate school as determined by the domicile of the parent, legal guardian, or by the student's own domicile if the student is at least eighteen years of age or has been emancipated by a court order.

A court order requires that all Natchitoches Parish students attend school within specified attendance zones.

Legal custody is defined as the legal status created by a court order that establishes in a custodian the right to have physical custody of the child or minor. The school principal or his/her designee will be responsible for monitoring the school enrollment list and will immediately terminate and/or transfer an unauthorized student.

VERIFICATION OF DOMICILE

The School Board shall require verification of the domicile of those students whose residence is suspected to be outside the attendance zone of the school the student is attending. When investigating the domicile of a student, the School Board shall attempt to verify the primary place of residence of the legal parent or legal guardian. Such verification of the domicile will be determined by **one** of the following items:

1. Voter registration card of parent or custodian, or statement from 911 Office in the Natchitoches Parish Courthouse;
2. Property tax statement of parent or custodian showing homestead exemption;
3. Certified copy of any judicially ordered tutorship, custody or guardianship of any minor child student not domiciled or in the custody of their natural and/or legal parents and verification of the physical residency of legal custodian, tutor, or non-parent shall also be required;
4. Any other documentation as may be stipulated by the Board such as a utility bill documenting **location of utility meter**.

SCHOOL ATTENDANCE

“Regular attendance and punctuality shall be required of every student. Students have the responsibility to take advantage of their educational opportunity by attending all classes daily and on time unless circumstances prevent them from doing so.”

ATTENDANCE POLICY

The Natchitoches Parish School Board believes regular attendance in the school accompanied by the responsibility to study and participate in school activities is essential to the learning process. Once a pupil arrives at school, he/she is expected to remain and attend each class throughout the day.

Elementary and secondary students shall be present the minimum number of days as required by the State Board of Elementary and Secondary Education and enumerated in the Louisiana Handbook for School Administrators, Bulletin 741, to receive credit for courses taken. Elementary students must be in attendance a minimum of 167 days per school year in order to receive credit for courses taken. High school students on 4 x 4 block schedules must be in attendance 83.5 days for full credit classes and 41.75 days for 1/2 credit classes. Personal illness must be verified by a physician's statement and other extenuating circumstances will be investigated by the Supervisor of Child Welfare and Attendance in consultation with the school principal.

COMPULSORY SCHOOL ATTENDANCE AGES

Every child in the parish is required by state law to attend public or private school from the child's fifth (5th) birthday until his/her eighteenth (**18th**) birthday, unless the child graduates prior to his/her eighteenth (**18th**) birthday. **Any child below the age of five (5) who legally enrolls in school shall also be required to attend school.**

LATE/TARDY

A student is marked **absent** if he/she is not in their assigned seat at the start of the school day or first block class.

A student is marked **late** if he/she arrives after the start of the school day or during first block and must check-in at the front office. Examples of late, but are not limited to the following: missed bus, overslept, flat tire, lost keys, ran out of gas.

A student is marked **tardy** if he/she arrives after any other class period/block begins during the school day. Examples of tardy, but are not limited to the following: locker problems, restroom break.

The discipline administered for late/tardy is based upon the number of times a student is late/tardy. Each school is responsible for developing escalating consequences for students being late/tardy; however, they must be consistently applied for all students. Students who are late/tardy **FIVE** times during a grading period **SHALL BE reported to the Supervisor of Child Welfare and Attendance, along with a report that shows dates of student being late/tardy and dates of contact with the home.**

TRUANCY

The Board recognizes truancy as absence from class or school for any portion of a period or day without permission from home or school. Students shall not be allowed to leave the campus without proper permission at any time during the

school day, including before school begins or after school while waiting for their bus. A student shall be considered habitually absent or tardy when either condition continues to exist after all reasonable efforts by school personnel, truancy officer, or other law enforcement personnel have failed to correct the condition after the **fifth unexcused absence** or **fifth unexcused occurrence of being tardy within any school semester**. Students who do not comply shall be subject to disciplinary action. Violations of attendance laws and regulations may lead to suspension and/or expulsion from school.

School personnel shall make every reasonable effort to assist a child who is habitually absent or tardy from school. A student shall be considered habitually absent or habitually tardy when either condition continues to exist after all reasonable efforts by the principal and teacher have failed to correct the condition. The principal or designee, with the aid of the teachers, shall file a report of the school's efforts to affect regular attendance by the student with the Supervisor of Child Welfare and Attendance.

STUDENT CONDUCT

"It is the responsibility of adults, parents, teachers, and community leaders to provide a safe learning environment for every student."

The Board expects all student behavior to be based on respect and consideration for the rights of others. Each student shall be expected to conduct himself/herself at all times in a manner that will enable him or her to be a responsible, contributing member of society.

The conduct of the students while in attendance at the various schools under the jurisdiction of the Natchitoches Parish School Board (including school grounds, school buses, travel to and from school, and any school sponsored event during or after regular school hours) shall be under the supervision and control of school personnel. **Every employee acting on the behalf of Natchitoches Parish School Board is authorized to hold every pupil to a strict accountability for any disorderly conduct while under the jurisdiction of the Board.**

The *Code of Student Conduct* provides a description of a broad range of behavior considered to be student misconduct. The behavior described should be viewed as representative of the misconduct that most frequently causes a disruption to the orderly educational process. **Any student who commits an act of misconduct (whether listed in this section or not) while under the jurisdiction of the Board shall be subject to disciplinary action by the classroom teacher, assistant principal, and/or principal.**

WHEN AND WHERE THESE RULES APPLY

The policies and administrative procedures concerning student conduct apply to actions of students on school property and school buses and, in some cases, for conduct occurring off of school property. Additionally, the rules apply to actions of students at all school-sponsored or school-related activities or events, such as field trips, sporting events, stadium assemblies, fairs, or evening school-related activities. Students should be aware that the commission of any felony offense, whether at school or away from school, may result in expulsion to an alternate site. Finally, students should be aware that any school administrator who becomes aware of possible criminal activity by a student (whether on or off of campus) will make a report to appropriate law enforcement agencies and that, in addition to these administrative rules, students may be subject to criminal penalties for violations of law.

GENERAL DISCIPLINE GUIDELINES FOR ASSESSING PENALTIES

When administering discipline, district personnel shall adhere to the following general guidelines:

1. Discipline shall be administered when necessary to protect students, school employees, or property and to maintain essential order.
2. Students shall be treated fairly and equitably. Discipline shall be based on a careful assessment of the circumstances of each case and may include such factors as:
 - a. Seriousness of the offense
 - b. Student's age
 - c. Frequency of misconduct
 - d. Student's attitude
 - e. Potential effect of the misconduct on the school environment
 - f. State law requirements for certain disciplinary consequences

RESPONSIBILITIES IN BEHAVIOR INTERVENTION

The effective enforcement of the *Code of Student Conduct* and the Student-Based Discipline Management System is essential in keeping a school and/or school-related activities free of disruption and is dependent on the exercise of the responsibilities by the following:

STUDENTS should:

- Adhere to school, district, and classroom rules and regulations for behavior and good conduct.

PARENTS should:

- Support school, district, and classroom rules for student behavior and ensure that their children conduct themselves according to district standards.
- Provide the school with their current address or change of address, current telephone numbers and emergency contact numbers.
- Ensure student attendance at school. State law states, student attendance is the responsibility of parents and guardians.
- Provide the appropriate school personnel with any student information that will affect the student's ability to learn and the student's behavior.
- Read, acknowledge, and understand these rules and the rules applicable to their children's conduct while they are at school.
- Participate in appropriate School Building Level Committee (SBLC) meetings and attend required scheduled conferences with school officials. Non-compliance could result in referral to FINS.

TEACHERS should:

- Establish classroom management procedures that concentrate on good student conduct and support school and district policies and procedures.

ADMINISTRATORS should:

- Develop with all members of the school community an effective School-Based Discipline Management System that promotes and maintains the support of good student behavior.
- Establish School Building Level Committee (SBLC) to seek solutions for students with specific persistent behavior problems.

SCHOOL BOARD should:

- Approve a behavior code that identifies standards of conduct for students and enact policies and procedures necessary for implementing and enforcing a structured and disciplined learning environment.

NOTICE TO PARENTS AND STUDENTS

Students shall be informed by school authorities that violations of Board policy and school rules may result in a range of disciplinary actions including, but not limited to, corporal punishment, suspension, or expulsion to an alternate site.

STATEMENT OF COMPLIANCE

Each student and parent or guardian of a student shall annually sign a *Statement of Compliance*. For students, the *Statement of Compliance* shall state that the student agrees to attend school regularly, arrive at school on time, demonstrate significant effort toward completion of homework assignments, and follow school and classroom rules. For parents, the *Statement of Compliance* shall state that the parent or legal guardian agrees to ensure his/her child's daily attendance at school, ensure his/her child's arrival at school on time each day, ensure his/her child's completion of all assigned homework, and **attend all required parent/teacher/principal conferences.**

DISCIPLINE PROCEDURES

Every teacher shall endeavor to hold every pupil to a strict accountability for any disorderly conduct in school or on the playgrounds of the school, on the street or road while going to or returning from school, during intermission or recess, or while attending school functions or events. Each teacher may take disciplinary action to correct a pupil who disrupts normal classroom activities, who is disrespectful to a teacher, who willfully disobeys a teacher, who uses abusive or foul language directed at a teacher or another pupil, who violates school rules, or who interferes with an orderly educational process.

Disciplinary action may include, but is not limited to:

- Teacher/student conference

- Oral or written reprimands
- Referral for counseling session to disciplinarian/school counselor or other appropriate school staff, which may include, but shall not be limited to conflict resolution, social responsibility, family responsibility, peer mediation, and stress management
- Written notification to parents of disruptive or unacceptable behavior, which a copy shall be provided by the principal
- Referral to the SBLC for additional recommendations and assistance

A pupil may be immediately removed from a classroom by the teacher and placed in the custody of the principal or designee if the pupil's behavior prevents the orderly instruction of other pupils, if the student poses an immediate threat to the safety of pupils or the teacher, or when a pupil exhibits disrespectful or threatening behavior toward a teacher.

A pupil removed from class in kindergarten through grade 6 shall not be permitted to return to class for at least thirty (30) minutes unless agreed to by the teacher. A pupil removed from class in grades 7 through 12 **shall not be permitted to return to class during the same class period**, unless agreed to by the teacher initiating the disciplinary action.

Example: A student removed from 2nd period can return to class at 3rd period.

Upon the pupil's removal from class, the principal or designee shall conduct a counseling session with the pupil to discuss the particular misconduct. Once removed, the pupil shall not be readmitted to the classroom until the principal has implemented **one** of the following disciplinary measures:

- Student conference/reprimand
- Parent contact
- In-school alternatives to suspension
- Corporal punishment in accord with Board policy
- Detention or in-school suspension which may include requiring the completion of all assigned school and homework which would have been assigned and completed by the pupil during the period of suspension
- Removal from teacher's class
- Out-of-school suspension
- Any other disciplinary measure authorized by the principal with concurrence of the teacher, parent, and/ or School Building Level Committee/IEP Committee.
- Expulsion proceedings

When a pupil has been removed from a classroom, the principal may require the parent, tutor, or legal guardian of the pupil to have a conference with the teacher in the presence of the principal/designee before the pupil is readmitted. Upon the pupil's third removal from the same classroom, the teacher and principal shall discuss the pupil's disruptive behavior and contemplated disciplinary measures to be taken before the principal implements such measures. A referral of the matter may be made to the appropriate School Building Level Committee. In addition, a conference between the teacher or the appropriate school employee and the pupil's parent, tutor, or legal guardian shall be required prior to the pupil being readmitted. If the disruptive behavior persists, the teacher may request that the principal transfer the pupil into another setting.

Whenever a teacher is struck by a pupil, the pupil, in addition to any other discipline given, shall be permanently removed from the teacher's classroom, unless the teacher objects, or unless the principal, with the concurrence of the School Building Level Committee, finds the striking incident to be entirely inadvertent.

DELINQUENT STUDENTS

Pupils who regularly disrupt the normal school environment shall be considered as delinquent and may be reported by appropriate school personnel to the juvenile court. Any pupil who exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general may be recommended by the principal for expulsion, assignment to an appropriate alternative education program, or transfer to an adult education program if the pupil is:

1. Seventeen (17) years of age or older with less than five (5) units of credit toward graduation; or
2. Eighteen (18) years of age or older with less than ten (10) units of credit toward graduation; or
3. Nineteen (19) years of age or older with less than fifteen (15) units of credit toward graduation.

READMISSION AFTER SUSPENSION/EXPULSION

Before any student can be admitted after a suspension or an expulsion that terminates prior to the end of a school term, one or both parents or guardians of the student must meet with the principal in charge of discipline. Students who are removed from the classroom for disruptive, dangerous, or unruly behavior or who are suspended for ten days or less shall

be assigned schoolwork missed and shall receive **full credit** for such work if it is completed satisfactorily and timely as determined by the principal or designee, upon the recommendation of the student's teacher. A student, who is suspended for more than ten days or is expelled and receives educational services in an alternative school site, shall be assigned schoolwork by a certified teacher and shall receive credit for schoolwork if it is completed satisfactorily and timely as determined by the teacher. Such work shall be aligned with the curriculum used at the school from which the student was suspended or expelled.

No student shall be admitted and allowed to attend a Natchitoches Parish School while on suspension or expulsion from another school system (either inside or outside the state of Louisiana) as a result of disciplinary actions. If student is currently assigned in an alternative school setting from another district, Natchitoches Parish School Board will enroll the student in our alternative school.

IN-SCHOOL SUSPENSION

In-school suspension means removing a pupil from his/her normal classroom setting but maintaining him/her under supervision of the school. Pupils participating in in-school suspension may receive credit for work performed during the in-school suspension. Any pupil who fails to comply fully with the rules for in-school suspension shall be subject to immediate out-of-school suspension. **In-school suspensions are counted as a suspension.**

DETENTION

Detention means activities, assignments, or work performed before the normal school day, after the normal school day, or on weekends. Failure or refusal by a pupil to participate in assigned detention shall subject the pupil to immediate suspension.

The administration shall put any student in detention class as outlined in the Discipline Plan. Detention is a class designed to offer fair and equitable discipline while allowing these same students to continue regular classroom work with teacher instruction. When a student is assigned Saturday detention, the administration will notify the parents. Parents will be responsible for bringing and picking up their student. If a student fails or refuses to attend the assigned detention, the student will be subject to an out-of-school suspension.

SUSPENSIONS/EXPULSIONS

“Students have a responsibility to conduct themselves in a responsible manner on the way to school, at school, at school functions, and while returning from school.”

DISORDERLY CONDUCT

Students shall comply with all Board policies and regulations, each school's code of behavior, and directives of principals, teachers, or other authorized school personnel during any period of time when the student is properly under the authority of school personnel.

SUSPENSION

The School Board recognizes its authority to maintain good order and discipline within the schools of the school district. Therefore, the Board recognizes the authority of a principal to suspend a pupil for a specified period of time in accordance with statutory provisions. The term of suspension may carry over into the next school year, when necessary, unless otherwise provided for in state statutes. **The days a student is suspended from school count as unexcused absences from school and can affect the student's promotion to the next grade.**

(REVISED 7/7/2017)

DUE PROCESS FOR SUSPENSIONS

In each case of suspension, the school principal or his/her designee shall, prior to any suspension, advise the student of the particular misconduct of which he/she is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his/her version of the facts. The principal/designee shall contact the parent, tutor, or legal guardian of the pupil to notify them of the suspension and shall establish a date and time for a conference with the principal/designee as a requirement for readmitting the pupil. Notice shall be given by contacting the parent, tutor, or legal guardian by telephone at the telephone number shown in Student Information System or by sending a certified letter to the address shown in Student Information System. The subsequent admission of a student after any suspension will be contingent on a satisfactory understanding between students, parents, or guardians, and school officials.

When a pupil is suspended for a second or subsequent time within one school year, the principal may require a counseling session be held with all the pupil's teachers and the principal or other administrator. A referral to the School Building Level Committee shall also be made. A behavior intervention plan shall be put in place in accordance with the school's Positive Behavior Interventions and Support Plan.

Any pupil, after being suspended on *three* (3) occasions for committing any suspendable offense during the same school session, on committing the fourth offense, may be recommended for expulsion to an alternate site from the public schools of the parish for a period of time determined by the hearing officer. The pupil's reinstatement at that time shall be subject to review by the School Board Superintendent.

The principal shall promptly advise the Superintendent of all such suspensions, stating the reasons for the suspensions. No suspended pupil shall be allowed to leave the school premises during the school day until a parent, guardian, or other proper authority has assumed responsibility for him/her, unless immediate removal from school due to danger or threat of disruption to the academic process is warranted.

The principal and other appropriate personnel shall be required to file written documentation of all suspensions. Said documentation shall include the circumstances surrounding any suspension, the reason for suspension, and any other pertinent facts concerning the disciplinary action. The principal shall file copies of his report with the Superintendent, other appropriate personnel (Director of Exceptional Student Services and/or Section 504 Coordinator), and the parent or guardian and shall retain a copy for his/her records.

RIGHT TO APPEAL SUSPENSION

Any parent, tutor, or legal guardian of a suspended pupil shall have the right to appeal to the Superintendent, who personally or through designee shall conduct a hearing. The decision of the Superintendent based on the merits of the case, as well as the term of suspension, shall be final, reserving to the Superintendent the right to remit any portion of the time of suspension.

NPSB FIGHT POLICY

NPSB is committed to ensuring and providing the safest environment possible for all students and staff. We do not tolerate violence of any kind.

A FIGHT is defined as a hostile confrontation with physical contact involving two or more individuals. Students found to participate in a fight as defined above MAY be recommended for a Disciplinary Hearing on any fight violation depending on the seriousness of the offense.

No recording, videoing, or taking/sending of pictures/videos is allowed on personal or school-issued electronic devices at any time. If found in violation, the discipline policy will be enforced.

Fights/altercations in grades K-5 will be addressed on an individual basis by school administration.

Students in grades 6-12 MAY receive, at a minimum, three days of OSS with the possibility of five days of OSS (administrative discretion).

The following factors will be considered in the administrator's decision as to the consequence given in each instance:

- Was it a group fight/altercation?

- Was it a premeditated assault?
- Was there definitive evidence or admission of premeditation of violence?
- Were there serious or visible injuries to individuals due to the fight/altercation?
- Did the students have the opportunity to respond appropriately to school staff's commands to stop?
- Was school staff or SRO struck during the fight/altercation?
- Were any weapons or objects used in the fight/altercation?
- Has the student been involved with previous instances of fighting/instigating altercations?

EXPULSION/REMOVAL

Where “expulsion/removal” is used throughout this handbook, “removal” refers to SPED/504 students only.

A pupil may be expelled/removed from school if an offense committed by the pupil is serious enough to warrant such action or is in violation of state law. Upon the recommendation for expulsion/removal of a pupil by the principal, the Superintendent or designee shall conduct a hearing to determine the facts of the case and make a finding of whether or not the student is guilty of conduct warranting expulsion/removal. Upon the conclusion of the hearing and upon finding the student guilty of conduct warranting expulsion, the Superintendent/designee shall determine whether such student should be expelled/removed and the specific period of expulsion/removal or whether other disciplinary action should be taken against the student. Unless otherwise stipulated by state statutes or Board policy, the period of expulsion/removal shall be determined by the hearing officer. **Students expelled/removed for the following infractions are subject to losing their driving privileges: Sale of, or possession of drugs, alcohol, or other illegal substances, possession of a firearm or any infraction involving assault or battery on faculty/staff.**

At the expulsion/removal hearing, the principal and/or teacher concerned may be represented by any person appointed by the Superintendent and the concerned teacher shall be permitted to attend and present any relevant information. Until the hearing, the pupil shall remain suspended from school.

MANDATORY EXPULSION/REMOVAL

State law requires the Superintendent to expel/remove a pupil for certain minimum periods of time if found guilty of particular offenses.

- Any student, regardless of age, who is found guilty after a hearing of being in possession of a firearm, or anything resembling a firearm, on school property, on a school bus or in actual possession at a school-sponsored event, shall be expelled/removed from school for a minimum period of 2 complete semesters for under 16 years of age and 4 complete semesters for 16 years and above and shall be referred to the District Attorney for appropriate action.
- Any student, sixteen (16) years of age or older, found guilty after a hearing of possession of, or knowledge of and intentional distribution of or possession with intent to distribute, any illegal narcotic, drug, or other controlled substance on school property, on a school bus or at a school-sponsored event shall be expelled/removed from school for a minimum of 4 complete semesters and shall be referred to the District Attorney for appropriate action.
- Any student who is under sixteen (16) years of age and in grades six (6) through twelve (12) and who is found guilty after a hearing of possession of, or knowledge of and intentional distribution of or possession with intent to distribute, any illegal narcotic, drug or other controlled substance on school property, on a school bus, or at a school-sponsored event pursuant to a hearing shall be expelled/removed from school for a minimum period of two complete semesters and shall be referred to the District Attorney for appropriate action.
- Any drug-related offenses involving a student in grades K-5, the local superintendent or his/her designee shall make a recommendation for action to the local school board.
- Any student who has been suspended or expelled/removed may be readmitted on a probationary basis to school prior to the completion of the specified expulsion/removal period on terms and conditions stipulated by the local school board and agreed to, in writing, by the student and his parent or legal guardian. Students who were expelled/removed for knife, firearm, and drug-related offenses also shall provide documentation that he/she has participated in a rehabilitation or counseling program related to the offense leading to the expulsion.

Mandatory expulsion/removal, especially those outlined above, shall not apply to the following:

A student possessing any controlled dangerous substance that has been obtained directly or due to a valid prescription or

order written to that student by a licensed physician. However, such student shall follow the medication policy of the Board.

ADDITIONAL REASONS FOR EXPULSION/REMOVAL

Students may also be expelled/removed for any of the following reasons:

1. Any pupil, after being suspended for committing violations of any discipline policies or other rule infractions, depending on the severity of the behavior, may be expelled/removed upon recommendation to the Superintendent by the principal and after an appropriate hearing is held by the Superintendent or designee.
2. Any student found in possession of a dangerous weapon on the school grounds, on school buses and/or at any school-sponsored event, at any time, during or after regular school hours, with limited exception. The term "dangerous weapon" includes any gas, liquid, or other substance or instrumentality which, in the manner used, is likely to produce death or great bodily harm. When the student is found in possession of a weapon, the Superintendent and/or appropriate law enforcement agencies shall be immediately notified and the weapon shall be delivered to that agency. School officials, in accordance with statutory provisions, shall have total discretion and shall exercise such discretion in imposing on a pupil any disciplinary actions authorized by state law for possession by a pupil of a firearm or knife on school property when such firearm or knife is stored in a motor vehicle and there is no evidence of the pupil's intent to use the firearm or knife in a criminal manner.
3. The conviction of any pupil of a felony or the incarceration of any pupil in a juvenile institution for an act which, had it been committed by an adult, would have constituted a felony, may be cause for expulsion of the pupil for a period of time as determined by the Board; such expulsions/removals shall require the vote of two-thirds of the elected members of the Board.
4. Any student who commits battery on a school board employee shall be automatically suspended and recommended for expulsion/removal.
5. A student may be suspended from school and/or recommended for expulsion if it is determined that the pupil has engaged in harassment, threats, bullying, or intimidation directed against a pupil or group of pupils that is sufficiently severe or pervasive to have the actual and reasonably expected effect of disrupting class work, creating substantial disorder, and invading rights of that pupil or group of pupils by creating an intimidating or hostile educational environment. Any harassment or threats should be reported to the administration.
6. A student shall be suspended from school and recommended for expulsion for knowledge of, attempting to, or committing any act of terrorism.
7. Students involved in a first fight will be suspended but offered special counseling. Upon involvement in a second fight, the student will be suspended indefinitely pending an expulsion hearing. Due process will be followed during the expulsion hearing. If the student is expelled/removed, the expulsion/removal will be for a minimum of the remainder of the school year. All laws involving special education students will be followed. School administrators will address altercation involving students in grades K-3 on an individual basis.
8. Students involved in physical sexual activity.

EXPULSION/REMOVAL DUE PROCESS

The following due process of students shall be followed:

Step I: Upon committing an infraction that in the opinion of the principal warrants mandatory expulsion/removal or upon the recommendation of expulsion/removal, a letter shall be written by the school principal to the Superintendent recommending EXPULSION/REMOVAL. The letter shall include in packet formal discipline records of student, documentation of incident and information that due process was provided to student.

Step II: Upon receipt of the letter from the principal recommending expulsion/removal, the Superintendent/Designee will schedule and conduct a hearing. During the hearing, the principal/designee will present the evidence that supports the expulsion/removal recommendation and the parent/student shall have the right to present evidence in opposition to that recommendation. The Superintendent/Designee can decide the case immediately after the conclusion of the presentation of evidence or can take the matter under advisement and decide at a later time. In any event, the Superintendent/Designee's decision must be placed in writing with copies provided both to the principal and to the parent/guardian.

Step III: The parent or tutor of the pupil may, within five (5) days after the decision to expel/remove has been rendered, request the Board to review the findings.

Step IV: The parents or tutor of the pupil may, within ten (10) days, appeal to the district court for Natchitoches Parish an adverse ruling of the Board in upholding the action of the Superintendent/Designee. The court may reverse or revise the ruling of the school board upon a finding that the ruling of the board was based on an absence of any relevant evidence in support thereof.

READMITTANCE FOLLOWING EXPULSION/REMOVAL

In each case of expulsion/removal, the school principal/designee shall contact the parent, tutor, or legal guardian of the pupil to notify them of the expulsion and to establish a date and time for a conference with the principal or designee as a requirement for readmitting the pupil. Notice shall be given by sending a certified letter to the address shown on the pupil's registration card. Also, additional notification may be made by contacting the parent, tutor, or legal guardian by telephone at the telephone number shown on the pupil's registration card.

Any pupil expelled/removed from school may be readmitted on a probationary basis at any time during the expulsion/removal period on such terms and conditions as may be stipulated by the School Board. Readmission to school on a probationary basis shall be contingent on the pupil and legal guardian or custodian agreeing in writing to the conditions stipulated. Any such agreement shall contain a provision for immediate removal of the pupil from school premises without benefit of a hearing or other procedure upon the principal or Superintendent determining that the pupil has violated any condition agreed to. Immediately thereafter, the principal or designee shall provide proper notification in writing of the determination and reasons for removal to the Superintendent and the pupil's parent or legal guardian.

A pupil who has been expelled/removed from any school in or out of state shall not be admitted to a school in the school system except upon the review and approval of the School Board following the request for admission. To facilitate the review and approval for re-admittance, the pupil shall provide to the Board information on the basis of any expulsions/removals and the reasons thereof. Additionally, the transfer of pupil records to any school or system shall include information on the dates of any expulsions/removals and the reasons thereof.

ASSIGNMENT TO THE RE-DIRECTION PROGRAM

Natchitoches Parish School Board Policy directs that an alternative school assignment be made once a student is expelled. Students shall be assigned to the Re-Direction Program for whatever term is determined to be appropriate by the Superintendent or his/her designee. The student may receive credit for school work during the term of assignment to Re-Direction Program if the school work there is satisfactorily completed and the student complies with the disciplinary regulations at the Re-Direction Program.

DISCIPLINE REQUIREMENTS IN THE RE-DIRECTION PROGRAM

Students assigned to the Re-Direction Program are subjected to heightened disciplinary requirements. Involvement in programs to improve behavior for which the student is excluded is required of all students in the Re-Direction Program. The particular requirements may be obtained from the school administrator upon admission.

Counseling is mandated for all students placed at the Re-Direction Program for violation of the substance abuse policies. Students not complying with these rules and regulations may be expelled without a further hearing for the term of their school year. Students may also be expelled from the Re-Direction Program for other serious or habitual violation of rules.

DISCIPLINE FOR VIRTUAL LEARNERS

Students should refrain from engaging in any of the behaviors identified in the Natchitoches Parish Code of Conduct while engaged in virtual schooling. The Natchitoches Parish School District has extended its normal behavior guidelines to the virtual classroom with a few modifications that factor in the home setting.

Behavior that could result in disciplinary actions for online students include, but are not limited to are cyberbullying, wearing inappropriate clothing, repeated tardiness, inappropriate use of electronic media, threats, and intentional disturbance of an online class.

For students who break rules, discipline will be with one of two kinds of virtual suspensions: in-school and out-of-school. In-school suspensions would see students working in a virtual classroom with others who have been punished. Out-of-school would see students doing assignments alone.

Recommended expulsion will be reserved for serious discipline infractions but none that violate a student's constitutional rights in a home setting. For example, there are no weapon or firearm free zones in a home setting as there are in an on-campus classroom.

Parents of students who are recommended for expulsion, but whose penalty is reduced to a suspension after due process may appeal to the school board and district court in the same manner as an expelled student.

BULLYING, INTIMIDATION, HARASSMENT, HAZING AND CYBER-BULLYING

The Natchitoches Parish School Board is committed to maintaining a safe, orderly, civil and positive learning environment so that no student feels threatened while in school or participating in school-related activities. Students and their parents/guardians shall be notified that the school, school bus, and other school environments are to be safe and secure for all. **Therefore, all statements or actions of a bullying, intimidating, threatening, harassing, hazing, or any other violent nature made on campus, at school-sponsored activities, on school buses, at school bus stops, and in-route from home to the bus stop and from the bus stop home shall not be tolerated.** Even if made in a joking manner, these statements or actions threatening other students, school personnel, or school property shall be unacceptable.

All students, teachers, and other school employees shall take responsible measures within the scope of their individual authority to prevent violations of this policy.

BULLYING, INTIMIDATION, HARASSMENT

Bullying, intimidation, and harassment, shall mean any intentional gesture, written, electronic, verbal or physical act that a reasonable person under the circumstances should know will have the effect of harming a student or damaging his/her property or placing a student in reasonable fear of harm to his/her life or person or damage to his/her property and is so severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for a student.

CYBER-BULLYING

Any form of harassment using electronic devices and/or communication, commonly known as cyber-bullying, by staff, students, parents, or other third parties is prohibited and will not be tolerated. Cyber-bullying is the use of information and communication technology such as email, cell phones, pagers, text messages, instant messages (IM), personal websites, weblogs, and other social networking websites, **whether on or off school campus**, to support deliberate, repeated, and hostile behavior by an individual or group that is intended to threaten or to harm others, or which causes emotional distress to an individual to substantially disrupt or interfere with the operation of a school or an individual student's ability to receive an education. Cyber-bullying includes, but is not limited to, the following:

- Posting slurs or rumors or other disparaging remarks about a student on a website or on a weblog;
- Sending email or other instant messages that are mean or threatening, or so numerous as to drive up the victim's cell phone bill;
- Using a camera phone to take and/or send embarrassing photographs of students; and
- Posting misleading and/or fake photographs of student on websites.

(REVISED 9/5/2014)

STUDENT INTERROGATION, SEARCH AND SEIZURES

The School Board fully recognizes the responsibility police have to protect all citizens by enforcing the laws of the community. The Board, in turn, has the responsibility to try to protect the students attending the schools of the parish. Therefore, police may visit the school in search of information or on another official police business. Any law enforcement official entering school premises, however, shall be required to report first to the office of the principal, state his/her purpose, and produce identification and warrants, if any.

A student in school shall not be interrogated by anyone in authority without the knowledge of a school administrator. Parents shall be notified, if possible, prior to any search, interrogation, or arrest of a student and such notification shall be documented. Police may search a student or his locker if they have a valid search warrant, or if there is probable cause to believe a student is secreting evidence of an illegal act. A student may only be questioned by police officers in private and shall be entitled to have an adult present during any such questioning.

STUDENT SEARCHES

The School Board is the exclusive owner of any public school building and any desk or locker utilized by any student contained therein or any other area that may be set aside for the personal use of the students. Any teacher, principal, administrator, or school security guard employed by the School Board, having a reasonable belief that any public school building, desk, locker, area or grounds of any public school contains any weapons, illegal drugs, alcoholic beverages, nitrate based inhalants, stolen goods, or other items the possession of which is prohibited by any law, School Board policy, or school rule, may search such building, desk, locker, area or grounds of said public school. The acceptance and use of locker facilities or the parking of privately owned vehicles on school campuses by students shall constitute consent by the student to the search of such locker facilities or vehicles by authorized school personnel.

Any teacher, principal, administrator, or school security guard employed by the School Board may search the person of a student or his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, School Board policy, or a school rule. Such a search shall be conducted in a manner that is reasonably related to the purpose of the search and the nature of the suspected offense. Such factors to be considered in determining the manner in which searches may be conducted are:

1. Age and sex of student
2. Behavior record of student
3. Need for search
4. Purpose of search
5. Type of search
6. Reliability of the information used to conduct search
7. The relative importance of making the search without delay
8. Nature and severity of problem in overall school environment

Random searches with a metal detector of a student or his personal effects may be conducted at any time, provided such searches are conducted without deliberate touching of the student.

RETURN OF PROPERTY

All property removed from an individual that is not prohibited by law or School Board policy and is appropriately possessed shall be returned to the individual.

SEARCH OF NON-STUDENTS ENTERING PUBLIC SCHOOL BUILDINGS OR GROUNDS

Any school principal, administrator or school security guard may search the person, handbag, briefcase, backpack, purse or other objects in possession of any person who is not a student enrolled at the school or a school employee while said person is in any school building or on the school grounds, either by conducting a random search with a metal detector or by a reasonable physical search of the person's clothing or other possessions, when there is a reasonable suspicion that such person has any weapons, illegal drugs, alcohol, stolen goods, or other materials or objects, the possession of which is a violation of the School Board's policy or state law. The search shall be conducted in a manner that is reasonably related to the purpose of the search and, if a search of the clothing or person of the party is conducted, it shall be conducted by a school employee or administrator of the same sex as the person to be searched. Except when circumstances make it

impracticable, the search of a non-student's person or clothing which is worn on the body should be conducted in a room or other private area and should be witnessed by an additional school employee of the same sex as the person to be searched. Any contraband or other illegal items, the possession of which violates state law or school board policy, which are found as a result of the search shall be impounded by the school board employee or administrator and the appropriate law enforcement agency notified.

RESPONSE TO INTERVENTION (RTI) IN LOUISIANA

Response to Intervention (RTI) is a general education process that provides students with high-quality research-based instruction and interventions that are matched to the student's specific needs. Data is used to drive decisions about student progress and to determine the appropriate instructional plan necessary for a student to achieve grade-level success. Daily instruction is delivered to maximize instruction and intervention benefits.

Universal screening to benchmark all students should occur three times a year—in the fall, winter, and spring. All students regardless of tier determination should receive powerful core curriculum instruction.

- **Tier I** is the level in which students are achieving Benchmark or above success.
- **Tier II** is implemented when students need **strategic** support to achieve Benchmark success.
- **Tier III** is the level at which students need **intensive** support to achieve Benchmark success.

STUDENT FEES, FINES AND CHARGES

The Natchitoches Parish School Board may impose certain student fees or charges to help offset special costs incurred in the operation of specific classrooms or subjects. Generally, students should not be denied or delayed admission nor denied access to any instructional activity due to failure or inability of their parent or guardian to pay a fee. Report cards and other academic records cannot be withheld for failure to pay a fee, pursuant to La. Rev. Stat. Ann. §17:112(C).

The School Board shall publish the Student Fees, Fines and Charges policy and procedures on its website. Each school shall publish the policy on its website and include it in the school's student handbook which shall be provided to each student and his/her parent or legal guardian at the beginning of each school year in the manner determined by the School Board.

The Student Fees, Fines and Charges policy shall be reviewed annually and revised as necessary.

DEFINITIONS

Fees shall mean any monetary payment or supplies required as a condition of a student being enrolled in school or participating in any curricular or co-curricular activity. Fees shall not include supplies or monetary payment for extracurricular activities. Fees shall not mean the cost of school meals.

Curricular and co-curricular activities are activities that are relevant, supportive, that are an integral part of the program of studies in which the student is enrolled, and that are under the supervision and/or coordination of the school instructional staff.

Extracurricular activities are those activities which are not directly related to the program of studies, which are under the supervision and/or coordination of the school instructional staff, and which are considered valuable for the overall development of the student.

REGULATIONS

1. A school shall not charge or access a fee unless the fee has been set and included in the School Board's approved Schedule of Fees.
2. Fees charged for the same item or service shall be consistent among all schools under the jurisdiction of the School Board.
3. Failure by a student, or parent on behalf of their child, to pay any required fee shall not result in the withholding of a student's educational record.

SCHEDULE OF FEES

A list of authorized fees, including their purpose, use, amount or authorized range, and how each fee is collected, shall be as listed on the Schedule of Fees (Appendix A) attached to this policy.

Economic Hardship Waivers

Should the initial request to the principal of the school for a waiver be denied, a written appeal may be made to the Superintendent or his/her designee, who shall respond to the appeal in writing within five (5) school days of the receipt of the appeal.

All requests for economic hardship waivers of student fees and any and all supporting documentation used in considering the validity of any request for a waiver shall be confidential.

All records associated with a fee waiver request due to economic hardship shall not constitute a public record, but may be audited to ensure compliance with the School Board's policy. A student's personally identifiable information associated with such a waiver request shall not be made public.

SCHOOL SUPPLIES

School supplies requested by classroom teachers of a student's parent or legal guardian shall not exceed a published amount per student per school year as determined by the School Board. Each school principal shall approve all school supplies requested by classroom teachers. Prior to assessing a fee for school supplies or developing a school supply list, consideration shall be given to the existing school supply inventory. A student shall not be denied the opportunity to participate in a classroom activity due to his or her inability to provide requested supplies.

DAMAGE TO TEXTBOOKS/INSTRUCTIONAL MATERIALS

The School Board may require parents and/or legal guardians to compensate the school district for lost, destroyed, or unnecessarily damaged books and materials, and for any books which are not returned to the proper schools at the end of each school year or upon withdrawal of their dependent child. Under no circumstances may a student of school age be held financially responsible for fees associated with textbook replacement.

Compensation by parents or guardians may be in the form of monetary fees or community/school service activities, as determined by the School Board. In the case of monetary fees, fines shall be limited to no more than the replacement cost of the textbook or material, but may, at the discretion of the School Board, be adjusted according to the physical condition

of the lost or destroyed textbook. A school system may waive or reduce the payment required if the student is from a family of low income and may provide for a method of payment other than lump-sum payment.

In lieu of monetary payments, both school systems and parents/guardians may elect to have students perform school/community service activities, provided that such are arranged so as not to conflict with school instructional time, are properly supervised by school staff, and are suitable to the age of the child. Under no circumstances may a school or school district refuse the parent/guardian the right to inspect relevant grades or records pertaining to the child nor may the school or school district refuse to promptly transfer the records of any child withdrawing or transferring from the school, per requirements of the Federal Family Educational Rights and Privacy Act.

Under no circumstances may a school or school district deny a student promotional opportunities, as a result of failure to compensate the school district for lost or damaged textbooks. Students shall not be denied continual enrollment each grading period nor re-entry in succeeding school years as a result of lost or damaged books.

Students shall not be denied the use of a textbook during school hours each day. The school system shall annually inform parents and/or legal guardians of the locally adopted procedures pursuant to state law and regulation, regarding reasonable and proper control of textbooks.

NATCHITOCHES PARISH SCHOOL BOARD P.A.C.E. (PARENT AND COMMUNITY ENGAGEMENT PLAN) 2023-2024

In support of strengthening student academic achievement, Natchitoches Parish School Board agreed on and distributed to parents of participating children a written parental involvement plan containing information required by section 1118(a)(2) of the Elementary and Secondary Education Act (ESEA) (district wide parental involvement policy). The plan establishes the Natchitoches Parish School Board expectations for parental involvement and describes how the district will implement a number of specific parental involvement activities, is incorporated into the Natchitoches Parish Schools consolidated plan submitted to the Louisiana Department of Education, and distributed to parents in the Natchitoches Parish School Board Student/Parent Handbook.

This plan applies to all families that have children in Natchitoches Parish Schools, community representatives, administrators, principals, teachers and other support personnel in the Natchitoches Parish Schools. (The term “families” includes individuals who are serving as legal guardians.)

Families have the primary responsibility for the education of their children. They provide the foundation for academic success. The Natchitoches Parish School Board respects the roles/responsibilities of families in assuring their children are adequately educated and is committed to developing a strong, ongoing partnership with families to create or strengthen stimulating home and school learning environments. Administrators, principals, teachers and support staff at each school must create a climate of respect for and cooperation with families that will be evident in all teacher and staff interactions. This climate of respect and cooperation at all schools will be based on the following national Parent and Community Engagement standards:

Standard 1: Welcome all families into the school community. Families are active participants in the life of the school, and feel welcomed, valued, and connected to each other, to the staff, and to what students are learning and doing in class and school. Barriers to greater family participation, such as language and socioeconomic barriers are reduced or eliminated.

Standard 2: Communicating effectively. Families and school staff engage in regular, two-way, meaningful communication about student learning.

Standard 3: Supporting student success. Families and school staff continuously work together to support students’ learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively.

Standard 4: Speaking up for every child. Families are informed and enabled to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success.

Standard 5: Sharing Power. Families and school staff are equal partners with equal representation in decisions that affect student and families and together inform, influence, and create policies, practices, and programs.

Standard 6: Collaborating with community. Families and school staff work together with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation.

Parent and Community Engagement (PACE) District Council: To promote parent involvement and active family engagement in the education process, the Natchitoches Parish School Board authorizes establishment of Parent and Community Engagement (P.A.C.E.) District Council in Natchitoches Parish. NPSB Textbook and Library Check Out Agreement for Parents and Students

Books issued to students are the property of *Natchitoches Parish School Board*. Students are allowed to use the books for the duration of the school year. Books must be returned in good condition for use the following year. In order for there to be sufficient books for all students, students must take responsibility for their textbooks.

Textbooks are checked out to students using a numbering system or barcode system. Students and their parents/guardians are responsible for keeping books in good condition throughout the year. If books are damaged, a fine will be assessed. There also may be a small label fee if the barcode label must be replaced due to damage. Books returned damaged will be charged full replacement cost.

Students should take good care of their school textbooks and library books. Students are to write their name in the space provided on the inside front cover of the textbook so their textbook can be easily identified.

Any damage to textbooks or library books will result in a “replacement fine.” Any water damage will result in the total replacement cost of the book. All library and textbook fines must be paid or cleared or no new textbooks for the next term or school year will be issued. Textbooks can cost upwards of \$80 to replace so it is very important that students take good care of all of their books.

Please be sure to sign on the Document Review Form (page 44) that you have read and agree to the NPSB Textbook and Library Check out Agreement for Parents and Students.

PARENTS' RIGHT TO KNOW

The 2001 reauthorization of the Elementary and Secondary Education Act makes it clearer than ever that parents are the key stakeholders in their children's education. The No Child Left Behind Act (NCLB) imposes numerous new mandates requiring states, districts and schools to answer to parents for a failure to improve schools. NCLB brought forth a whole new provision known as "Parents Right to Know". This provision requires Natchitoches Parish School Board to notify parents of all children in Title I schools that they have the right to request and receive timely information on the professional qualifications of their children's classroom teachers. It must be emphasized that this requirement applies to all children in the school - whether or not they receive identifiable Title I services – and it applies to all Title I schools.

- ❖ NCLB states that parents have the right to request information on professional qualifications of their children's classroom teachers and paraprofessionals. Parents have the right to request the following information:
 - Whether the teacher has met state qualifying and licensing criteria for the grade levels and subject areas in which the teacher is teaching;
 - Whether the teacher is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived;
 - The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, including the field of discipline of the certification or degree; and
 - Whether the child is provided services by paraprofessionals and, if so, their qualifications.

Parents must be notified that they have the right to request this information at the start of each school year. Note that this notification itself does not contain information on teacher qualifications; it is simply a description of the type of information parents may request, if they wish.

- ❖ Notification letters will be sent to parents of children assigned, or instructed by, teachers who are without certification (not highly qualified) in core subjects for four or more consecutive weeks (thirty days or more).

NOTIFICATION OF RIGHTS UNDER FERPA FOR ELEMENTARY AND SECONDARY SCHOOL

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible student") certain rights with respect to the student's education records. These rights are:

(1) The right to inspect and review the student's education records within 45 days of the day the school receives a request for access.

Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

(2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate.

Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the school principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff

member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA.

The District has elected not to disclose “directory information” to any individual/agency other than branches of the armed services.

NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA)

PPRA affords parents certain rights regarding our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

Consent before students are required to submit to a survey that concerns one or more of the following protected areas (“protected information survey”) if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED)--

1. Political affiliations or beliefs of the student or student’s parent;
2. Mental or psychological problems of the student or student’s family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

Receive notice and an opportunity to opt a student out of--

1. Any other protected information survey, regardless of funding;
2. Any non-emergency, invasion physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and
3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

Inspect, upon request and before administration or use--

1. Protected information surveys of students;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor under state law.

Parents who believe their rights have been violated may file a complaint with:
