

Harrisburg School District	NEPN Code: DEC
Policy Manual	

METHODOLOGY FOR DISTRIBUTION OF FUNDS

The Harrisburg School District will make every effort possible to equitably distribute state and local dollars amongst school buildings and grade bands based on staffing and supply needs. Budgetary guidelines include, but are not limited to number of students, teachers, classified staff, and administrators, specialized programs such as special education, gifted and talented, and English Learners, and building size. Federal funding, such as Title I-IV, Perkins, and IDEA, will be considered supplemental to basic operational and educational needs and will be distributed according to Federal Guidelines. All Federal expenditures will be reviewed and approved by the Business Manager and Federal Programs Director at the local level prior to approval by the state and federal Department of Education.
