

## **Code No. 603.2 SUMMER INSTRUCTION**

Generally, only extended school year service and driver's education will be offered during the summer. However, the board, in its discretion, may offer the summer for one or more courses and student activities for students who need additional help and instruction or for enrichment in those areas. This decision is within the discretion of the board.

Upon receiving a request for the summer, the board will weigh the benefit to the students and the school district as well as the school district's budget and availability of licensed employees to conduct the summer.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.
