BOOSTER ORGANIZATIONS

The Board of Education recognizes that some of the strongest school support comes from parents or organizations having a strong interest in a specific student or school activity. Support from booster organizations should be encouraged wherever appropriate as a means of involving the public in the activities and goals of the School District. Administrators and teachers shall seek to strengthen and support booster organizations by cooperating in any way possible to provide assistance, materials, facilities or other aid to assist them in helping the schools. Such assistance may only be provided with the approval of the Superintendent.

Administrators will maintain close communication with booster organizations to ensure harmony with the policies and goals of the School District.

The Board recognizes booster clubs as organizations which have the purpose of assisting and supporting student activities. Membership in a booster club be based on an interest in a quality program and the willingness to donate labor or services, or to participate in fund-raising.

Booster clubs will keep accurate and complete records of each fund-raising activity in accordance with School District accounting procedures, record the net receipts of each activity, keep a current balance of all moneys, and submit an annual report to the Board on July 1. Booster clubs should also provide contact information to the business office prior to the beginning of each academic year, along with proof of their insurance, and a list of planned activities for the upcoming school year.

All projects involving the expenditure of money, matching funds or not, will be submitted to the appropriate administrator/director with a copy to the Superintendent. Upon recommendation of the Superintendent, Board approval will be necessary before any project is undertaken or any purchase order(s) is written.

Selection of participants, schedules and equipment is the decision of the District staff who are responsible. Individual or group interference will be considered highly improper by the Board. Schools and booster clubs are reminded that the Board has final authority over all phases of operation of the schools and money raised for the schools.

DISTRIBUTION OF INFORMATION THROUGH THE SCHOOLS

The Board of Education of the Rome City School District believes that the schools should avoid exploiting students, whether by advertising or otherwise promoting products or services, or securing participation in non-school related activities. The Board also recognizes that, pursuant to the New York State Constitution, it has no authority to permit the school premises to be used for commercial advertising. At the same time, the schools should inform and assist students to learn about programs, activities or information which may be of help or service to them.

Therefore, the Board of Education establishes this policy to govern the involvement of school facilities, staff and school children in the advertisement or promotion of any commercial, political or non-school agency, individual or organization in the schools which does not promote the educational or other best interests of students.

All requests by agencies, organizations, groups or individuals, including school organizations and employees, that the District post or otherwise disseminate curricular or non-curricular brochures, pamphlets, fliers or other documents shall be directed to the Superintendent at least two (2) weeks prior to the requested date of posting or circulation.

The Superintendent shall review such requests in accordance with the following:

1. Information will not be distributed on behalf of any individual, organization or group for private gain;
2. A worthy educational, civic or charitable purpose must be served, benefiting a substantial group in the community or promoting the educational or other best interests of students;
3. Distribution of the brochure, pamphlet, flier or other document must not unreasonably interfere with the District's educational programs or activities.

Exhibitions in the schools of any books, articles, apparatus, films or other educational materials shall be adjudged by the principles of this policy on the basis of their actual educational value(s).

Colleges, universities, armed service agencies, corporations, businesses and public service agencies shall be encouraged to bring career and occupational information to students. The Superintendent shall ensure that such activities are carefully monitored to restrict any commercial advertisement.

This policy shall not be construed as preventing a teacher from using instructional or informational materials, such as films, which bear only simple mention of the producing firm and which can be justified on the basis of their actual educational values.

RELATIONS WITH COMMUNITY ORGANIZATIONS

The Board of Education recognizes the potential benefits of community and business partnerships with school districts. The Board and district staff shall therefore cooperate with those organizations which may provide support in improving the educational, vocational, counseling, and/or extra-curricular opportunities in the district. Board members shall seek to maintain regular interaction with community and business leadership, both on a formal and informal basis.

Partnerships with these organizations may include mentor and/or apprenticeship programs, pilot projects, grants, off-campus counseling services, and volunteer services, in addition to or as part of the district curriculum.

The Board shall appoint a community-business liaison [or liaison committee] whose duties shall include the following:

1. to investigate all opportunities which may be available to the district through an association with such organizations;
2. to coordinate these organizations' efforts in order to serve the greatest number of district students;
3. to develop guidelines for the implementation of the school-community-business partnership, and suggest curricular and extra-curricular developments as a result of such partnership;
4. to attend appropriate meetings of such organizations to inform them about educational issues and needs of the schools, and to report back to the district about issues of concern to area business and the community; and
5. to seek grants and gifts to the schools which will help improve education in the district.

The liaison [committee] will report its findings to the Board on a semi-annual basis, and the Superintendent of Schools shall regularly inform the Board of the status of community-business programs in effect in district schools.

Authority and Responsibility of Superintendent of Schools

The Superintendent or his/her designee shall make recommendations to the Board regarding the budget, personnel, space, budget, and other resources that can be deployed to support the partnerships with community organizations while maintaining the District's educational programs in other school buildings.

The Superintendent may adopt administrative Regulations, procedures, or protocols to define staff roles and assure proper documentation of agreements and expenditures made to advance the partnerships with community organizations.

Compliance and Accountability

Personally identifiable information about students shall only be shared with other entities in compliance with the Family Educational Rights and Privacy Act (FERPA), Section 2-d of the New York State Education Law, and other applicable state or federal laws.

The expenditure of those portions of State-provided foundation aid that are allocated by law for support partnerships with community organizations shall be accounted for in accordance with the standards and directions provided by the State Education Department. The expenditure of any additional funds appropriated by the Board to support community partnerships shall be accounted for and reported in a manner that will assist the Board in evaluating the effectiveness of expenditures in meeting the goals of this Policy.

When a community-based service provider is school-located, there shall be an appropriate lease or memorandum of agreement delineating the respective responsibilities of the parties for expenses, maintenance and upkeep, casualty and liability insurance, and related matters.

Any employees, volunteers, or contractors of community-based service providers who work with students in District school buildings must be provided with a copy of the District's Code of Conduct and Acceptable Use Policy for use of the District's digital network, and provide a written acknowledgement of their responsibility to abide by those policies. Fingerprinting clearance procedures shall also apply where required by the Education Law.

Any collaboration, joint venture, common program, or public relations release shall properly preserve the District's intellectual property interests in the District's name, mark, logo, mascot, etc.

The co-location of community-based services in school buildings or on school grounds (including school buses) should be accomplished in a manner that does not create a broader public forum in that space than currently exists, unless the Board so agrees.
