

SUPERVISION OF AFTER SCHOOL EVENTS

To supervise the school facility, there will be a district employee or a person designated by the District available while students wait at the school building after a school activity.

It is the responsibility of the supervisor to ensure that the students and other individuals in the school building have valid and clear purpose for being in the facility at that time. If there is no valid and clear purpose for the student or other individual to be in the building, the supervisor will require them to leave the school building at once.

The superintendent will develop rules and regulations to implement and enforce this policy.
