

OBJECTIVES OF BUILDINGS AND SITES

This series of the board policy manual sets forth the board objectives and goals for the school district's buildings and sites. It will be the goal of the board to provide sufficient school district buildings and sites for the education program. The board will strive to provide an environment, which will encourage and support learning.

In providing this environment the school district buildings and sites will accommodate the organizational and instructional patterns that support the education program. The board will have final authority to determine what is necessary to meet the needs of the education program.

It will be the responsibility of the superintendent to oversee the day-to-day operations of the school buildings and sites and to notify the board of areas in need of improvement.
