

Principals Honored in Celebration of Principals Month

October 2016

October 10, 2016

Governor Abbott has designated October as Principals Month in the state of Texas. We join Governor Abbott in honoring all principals and assistant principals in the state, but more importantly, our own.

Our principals and assistant principals play a vital role in our school district. They are the educational leaders of their respective campus and are responsible for staff and student success. They often have to wear many hats when they are called upon to serve as mediators, counselors, nurses, custodians, coaches, motivators, and the list can go on and on. We are blessed to have Mr. Morren , Mr. Munoz, Mrs. Ware, and Mrs. Nixon. They are truly passionate educators who care about their students and staff. They devote countless hours to make their campus and FISD the best they can possibly be. Thank you for all that you do.
