

Program Goals

1. To provide an environment which is particularly suited to the needs of a gifted child, especially in the areas of creativity, reasoning, and communication skills.
1. To provide opportunities for the student to enhance, develop, and use his/her initiative, self-motivations, and originality.
1. To engender in the student a sense of responsibility for setting his or her own goals according to interest and ability and researching these interest and abilities.
1. To assist the student in the development of cognitive, affective, and valuing skills.
1. To provide the students with the understanding that a community exists and with activities that provide interaction with the community.
1. To provide the gifted students with educational experiences in the community that they would not encounter in the regular classroom.
