Board of Trustees and Taxpayers of Laredo Independent School District 2400 San Bernardo Laredo, Texas 78040

December 13, 2022

Dear Board Members and Taxpayers:

We are pleased to submit to you the Annual Financial Report for the Laredo Independent School District (the "District") for the fiscal year ended June 30, 2022. The report was prepared by the District's Division of Finance, Business Services and Accountability. The independent accounting firm of Garza/Gonzalez & Associates, whose report is included herein, has audited the basic financial statements. The financial data appearing in this report has been prepared in accordance with generally accepted accounting principles and reporting standards as promulgated by the Governmental Accounting Standards Board ("GASB").

Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data, as presented, is accurate in all material respects and is presented in a manner which daily sets forth the financial position and results of operations of the District. Furthermore, we believe that all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities have been included.

United States generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Reporting Entity

The District is an independent school district, founded in 1882, governed by a seven-member Board of Trustees (the "Board"). The Board has governance responsibility over all activities related to public school education within the District. The District is not included in any other governmental reporting entity as defined by Governmental Accounting Standards Board Statement No. 14. As required by GAAP, the financial statements of the reporting entity include those of the District (the primary government) and its component unit, if any, in conformity with GASB Statement No. 14, The Financial Reporting Entity. The District is not reporting component units.

The Board is required to adopt an initial budget for the fiscal year no later than June 30th preceding the beginning of the fiscal year on July 1st. This annual budget serves as the foundation for the District's financial planning and control. The budget is prepared and approved at least at the fund and function levels to comply with the state's legal level of control mandates.

Services Provided

The District provides a safe learning environment that ensures a quality education. Beginning with the 20 elementary schools, four middle schools, and extending through the four high schools (including Early College High School), students study the essential elements of language arts, reading, science, mathematics, art, music, physical education and computer literacy. In addition, in the four middle schools a diversified group of elective subjects is added to the required studies, including, career studies, art, band, choir, orchestra, mariachi band and a foreign language. Similar individual educational needs continue at the four high schools.

Additionally, the District has a communication and fine arts magnet school that offers our students comprehensive courses of study in the areas of communication, dance, music, theatre arts, and visual arts with emphasis on creative development and artistic performance; a health and science early college school that offers our students a wide range of health and science courses to prepare them for related careers; a business, industry, and public service early college academy which offers a rigorous and demanding curriculum for

motivated students interested in law enforcement, cosmetology, barbering, education, business, and welding; and, a technology and engineering early college that offers our students courses of study towards industry certifications to prepare them for related careers.

The District also has an alternative education school and a non-traditional high school to serve the at-risk population.

Enrollment

Our enrollment for school year 2021-2022 was 19,757 students of which 6,020 students were enrolled at the high school level, 4,066 students were enrolled at the middle school level, and 9,671 students were enrolled at the elementary level.

Over 96.5% of our students were classified as economically disadvantaged, 55.1% as Emergent Bilingual, 9.9% as Special Education, and 14.5% participated in Gifted and Talented courses.

Mission Statement

The mission of the District is to ensure that all students achieve their potential and graduate as bilingual, bi-literate, and be responsible adults with the skills to succeed in higher education, the workforce, or the military.

District Goals

- **Goal I:** Laredo ISD establishes and pursues expectations of excellence and equity to achieve college, career, and military readiness.
- **Goal II:** Laredo ISD provides a safe, secure and healthy learning environment designed to nurture positive academic, social, and life skills development.
- **Goal III:** Laredo ISD develops and maintains meaningful student-centered relationships with parents, businesses, and community leaders in support of campus and district initiatives.
- **Goal IV:** Laredo ISD establishes and maintains efficient organizational support structures that promote positive performance outcomes and comply with financial accountability standards.

Achievements

The District received its twentieth Superior or "A" rating on the School FIRST (Financial Integrity Rating System of Texas) financial accountability system for the fiscal year ended June 30, 2022. The rating system was established during the 77th Legislative session. School districts received their first official rating by TEA in August 2003.

Economic Condition and Outlook

Laredo, Texas, best known for its geographic location as the number one port along the US and Mexico Border, with one international airport, one rail bridge and four vehicles bridges (two for commercial and three for private vehicles), continues to be in the center of a lively era. With the creation of the North American Free Trade Agreement, which has enhanced trade between the United States and Mexico, provides for a growing tax base and attracting new industries in the City. The Port of Laredo crosses over \$500 billion in imports and exports. With IH-35 bisecting the city, all the industrial parks and logistical centers are within five miles.

The City of Laredo created the Neighborhood Empowerment Zone Program to encourage private investment in housing, businesses, and services within the NEZ areas. The NEZ #1, #2 (some), #3 (most) are within the boundaries of Laredo ISD. The NEZ Program offers incentives like building permit fee waivers and municipal property tax abatements. The two types of tax abatement programs available are:

- A five year program based on eligibility criteria
- A ten year program based on eligibility criteria

In addition, the City of Laredo has three Tax Increment Reinvestment Zones (TIRZ) to attract new investment within those areas. These zones help finance costs of redevelopment and promote growth in those areas that would otherwise not attract development. One of the three zones is in the downtown area located in Laredo ISD.

Laredo Independent School District is located in the heart of the City of Laredo and encompasses approximately 13 square miles. Our District is an inner-city district which serves the community of Laredo and Webb County. The District serves a population slightly over 100,000 and a student enrollment of about 21,000. Average daily attendance (ADA) drives school

funding and it has decreased on an annual basis due to decreases in enrollment. The attendance rate decreased to 92.9% due to the pandemic.

The District's financial position has experienced surpluses over the past years and the District reserves most of the excess revenues for property acquisition, construction and other capital improvements. The total fund balance is still beyond our policy requirement and it is an indicator of sound financial management mainly attributed to the enforcement of efficiency measures reflected in the capital and instructional improvement plans, in the application of staffing formulas, and in the elimination of costs not aligned with academic achievement strategies and funding sources.

Financial Policies and Long-Term Financial Planning

The Superintendent's office and the executive staff oversee and coordinate all the elements involved in the strategic and financial planning process of the District. The planning process begins with demographic projections of student counts and the needs for classroom space. The District's student population experiences no annual growth as the District boundaries are locked. The classroom environment is determined by the Division of Curriculum and Instruction in their strategic planning for meeting the educational needs of our students and community. The educational planning process identifies the financial needs of the District and determines the proper allocation of District resources.

In July 2014, the District issued \$67,940,000 for new projects and in July 2018, the District issued \$102,000,000 approved by the voters during the May 2018 election. The estimated final completion date for these projects is August 2025. In July 2022, the district sold the remaining \$48,475,000 of authorized bonds.

In July 2014, the District established a funding plan for a new administration building. Fast forward to July 2022, administration staff occupied the newly constructed \$22 million facility funded with annual savings.

The Board approved policy establishing a capital improvement plan as a tool to assess long-term capital project requirements. This plan will assist the district in the prioritizing and financing of upcoming improvement projects. In addition, the capital improvement policy will prove beneficial during the assessment of the District's financial management by the credit agencies. The District plans to earmark annually \$1,000,000 for facility improvements and \$500,000 for equipment upgrades/replacements. However, due to the economic conditions due to the pandemic, this plan will be on hold; however, we will fund capital projects with sources that can be readily available to spend.

It is the responsibility of the Division of Finance, Business Services and Accountability to oversee all finance related issues, including the investment of construction funds and other funds for maximization of interest earnings, and to provide financial status reports to the Board with the purpose of assisting in the accountability and decision-making process.

Other Information

The Accounting System and Budgetary Control

The Division of Finance, Business Services and Accountability is responsible for providing all District financial services including financial accounting and reporting, payroll and accounts payable disbursement functions, cash and investment management, debt management budgeting, procurement, tax office collections, self-funded health plan management, federal programs administration, grant writing, student attendance, student discipline, and special financial and policy analyses to District management. The Assistant Superintendent of Finance, Business Services and Accountability, appointed by the Superintendent, has oversight responsibility for the division's operations.

On July 1, 2021, the District migrated to Frontline Education Solutions built for Texas K-12, which provides integration between Human Resources and the Finance system in one platform. We continue to work with the service provider to improve and facilitate a smooth implementation.

The District also operates a student accountability system supported by the District's Information Technology Department. This system services all campuses of the District. The applications being used are attendance, grades and report cards, student tracking, and all other information required by the State of Texas.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within this framework and are believed to adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Accounting records for governmental fund types are maintained on a modified accrual basis with revenues recorded when services or goods are received and the liabilities are incurred. Accounting records for trust funds are maintained on the accrual basis.

The annual operating budget or financial plan is proposed by the Superintendent and enacted by the Board after public discussion. The site-based decision making process, as mandated by the education code, is the cornerstone of all LISD budgetary decisions. Each campus must have a Site-Based Decision Making (SBDM) committee made up of the campus principal, teachers, parents, and administrators. Their role is to build consensus and support all efforts consistent with reaching the campus goals and objectives. SBDM committee members, department directors and administrators are involved in the budgetary cycle.

Subsequent budget amendments must be approved by the Board for the General Fund budget and Debt Service Fund budget. For Special Revenue Funds, budget amendments are subject to the approval by the granting agency. A summary of all amendments is presented to the Board on a monthly basis. All departments are required to operate within their budgetary constraints. The operating budgets are amended prior to expenditure, and the accounting system provides a strong budgetary control over expenditures.

Independent Audit

The Texas Education Agency requires that an annual audit of the books of account, financial records, and transactions of all administrative departments of the school district be performed by an independent certified public accountant(s). The firm of Garza/Gonzalez & Associates was selected by the District and approved by the Board. In addition to meeting the requirements set forth in the state and local policies, the audit was also designed to meet the requirements of the Title 2 U. S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The auditor's report on the basic financial statements and schedules are included in a separate report. The auditor's report related specifically to the single audit is included in the Single Audit section of the report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended August 31, 2021. This is the 24th consecutive year that the District has achieved this prestigious award. In order to be awarded this Certificate of Achievement, the government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff in the Division of Finance, Business Services and Accountability and the leadership of the Superintendent.

We would also like to acknowledge the thorough professional and timely manner in which the audit was conducted by our independent auditors, Garza/Gonzalez & Associates.

Furthermore, we would like to especially acknowledge the Board of Trustees who have consistently supported the school district's goals of excellence in all aspects of financial management.

Sincerely,

Flor Avala, CPA

Assistant Superintendent for Finance, Business Services and Accountability

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Laredo Independent School District Laredo Texas

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Laredo Independent School District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed on the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Other Statements, TEA Required Schedules and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Other Statements, TEA Required Schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

November 9, 2022

I my Songale

Management's Discussion and Analysis

As management of the Laredo Independent School District, we offer readers of the Laredo Independent School District's financial statements this narrative overview and analysis of the financial activities of the Laredo Independent School District for the fiscal year ended June 30, 2022. Please read it in conjunction with our transmittal letter on page v, the independent auditor's report on page 1, and the District's Basic Financial Statements which begin on page 22.

Financial Highlights

- The assets and deferred outflows of resources of the Laredo Independent School District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$137,105,053 (net position). The unrestricted net position, which represents the amounts available to meet the Laredo Independent School District's ongoing obligations to citizens and creditors, was a deficit of \$82,485,460. The Laredo Independent School District is committed to provide pension and postemployment benefits to its employees. As a result, the Laredo Independent School District has recognized substantial liabilities in the financial statements for these benefits. As of June 30, 2022, the Laredo Independent School District had liabilities of \$116,685,616 million for pension and postemployment benefits, which has caused the deficit balance in the unrestricted net position.
- The Laredo Independent School District's total net position increased \$20,456,425 primarily because of the Teacher Retirement System (TRS or System or Plan) financial performance. The Plan is a public employee retirement system (PERS) that is a multiple-employer, cost-sharing, defined benefit pension plan with a special funding situation. TRS provides retirement, disability, and death benefits.
- At the close of the current fiscal year, the Laredo Independent School District's governmental funds reported combined fund balances of \$228,368,470, a decrease of \$543,115 in comparison with the prior year. Of this amount, \$62,710,744, or 27%, is available for spending at the government's discretion.
- At the end of the current fiscal year, unrestricted fund balance (the total of the *committed*, *assigned*, and *unassigned* components of *fund balance*) for the general fund was \$75,940,158, or approximately 34% of total general fund expenditures.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the Laredo Independent School District's basic financial statements. The Laredo Independent School District's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Laredo Independent School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the Laredo Independent School District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Laredo Independent School District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in the District's tax base and student enrollment.

The *statement of activities* presents information showing how the Laredo Independent School District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements of the Laredo Independent School District are principally supported by state aid and local taxes. The governmental activities of the Laredo Independent School District include only itself (known as the primary government).

The government-wide financial statements can be found on pages 22-23 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Laredo Independent School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Laredo Independent School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By

doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Laredo Independent School District maintains thirty-seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, and two capital projects funds (Series 2018 and 2022). Data from the other thirty-three governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The Laredo Independent School District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 24-30 of this report.

Proprietary Funds. The Laredo Independent School District maintains one proprietary fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the Laredo Independent School District's various functions. The Laredo Independent School District uses internal service funds to account for the management of its health benefit plan. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 31-33 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reported in the government-wide financial statements because the resources of those funds *are* not available to support the Laredo Independent School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The Laredo Independent School District maintains four different types of fiduciary funds. The *Custodial funds* report resources that are held by the Laredo Independent School for the benefit of individuals and the school District while not having substantial administrative or financial involvement with raising the funds or control over the expenditure of those funds.

The fiduciary fund financial statements can be found on pages 34-35 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 36-76 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the Laredo Independent School District's progress in funding its obligations to provide pension and other postemployment benefits (OPEB) to its employees. Required supplementary information can be found immediately after the notes to the financial statements on pages 78-88.

The combining statements referred to earlier in connection with nonmajor governmental funds, and custodial funds are presented immediately following the required supplementary information on pensions and OPEB. Combining and individual fund statements and schedules can be found on pages 90-109 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the Laredo Independent School District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$137,105,053, at the close of the most recent fiscal year.

Laredo Independent School District's Net Position

| | Governmental Activities | | | |
|--------------------------------------|-------------------------|----------------|--|--|
| | 2022 | 2021 | | |
| Current assets and other assets | \$ 311,475,804 | \$ 286,225,337 | | |
| Capital assets, net | 419,303,756 | 391,619,635 | | |
| Total assets | 730,779,560 | 677,844,972 | | |
| Total deferred outflows of resources | 41,713,854 | 45,325,306 | | |
| Current liabilities | 84,476,972 | 60,072,294 | | |
| Non-Current liabilities | 446,284,030 | 470,831,214 | | |
| Total liabilities | 530,761,002 | 530,903,508 | | |
| Total deferred inflows of resources | 104,627,359 | 75,618,142 | | |
| Net position: | | | | |
| Net investment in capital assets | 183,299,958 | 182,367,898 | | |
| Restricted | 36,290,555 | 43,106,840 | | |
| Unrestricted | (82,485,460) | (108,826,110) | | |
| Total net position | \$ 137,105,053 | \$116,648,628 | | |

Current and other assets increased in governmental activities by \$52,934,588 from the prior year. The increase was primarily from the net effect of the bond proceeds in the amount of \$48,795,000 and increase in collections in the amount of \$2,218,198.

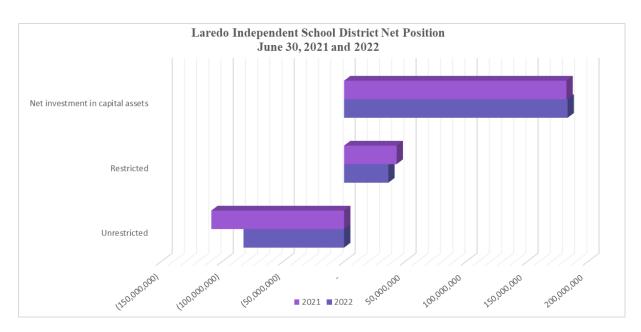

Current liabilities in governmental activities increased \$24.4 million from the previous year mainly due to the increase of overpayments from the Texas Education Agency. During the current year, the Laredo Independent School District received state aid payments based on the average daily attendance of 21,100. The actual average daily attendance was 18,018. Accounts payable increased due to outstanding payments related to construction projects.

The current ratio is a liquidity ratio that measures the District's ability to pay obligations due within a year. For every \$1 of current debt, the District had \$3 available to pay for debt. The net working capital available to meet the District's day to day operations was \$197,718,606.

Long-term liabilities, which consist of bonds, notes, leases, compensated absences and postemployment benefit obligations, decreased by \$24.5 million from the previous year for governmental activities. The Laredo Independent School District's net pension liability decreased \$42.7 million and the net OPEB liability decreased \$929,129 because of the increase in the financial position of the overall State's plan. The decrease in Pension and OPEB liability was offset by the increase of \$26.6 million from the net effect of the new bond issue and bond payments.

By far, the largest portion of the Laredo Independent School District's net position, \$183,299,958, reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), net of accumulated depreciation and less any related outstanding debt that was used to acquire those assets. The Laredo Independent School District uses these capital assets to provide educational services to its students. Accordingly, these assets are not available for future spending. Although the Laredo Independent School District's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Laredo Independent School District's net position, \$36,290,555 represents resources that are subject to external restrictions on how they may be used. As of the end of the current year, the Laredo Independent School District's the unrestricted net position was a deficit balance of \$82,485,460. The deficit is caused primarily by approximately \$116.6 million in pension and postemployment liabilities for the Laredo Independent School District's.

The Laredo Independent School District's overall net position increased \$20,456,425 from the prior fiscal year. The reasons for this overall decrease are discussed in the following section for governmental activities.

Laredo Independent School District's Changes in Net Position

| | Governmental Activities | | | tivities | |

| Net position at beginning of year | 116, | 648,628 | | 104,867,793 | |
| Net position at end of year | \$ 137, | 105,053 | \$ | 116,648,628 | |

Governmental Activities. During the current fiscal year, net position for governmental activities increased \$20,456,425 from the prior fiscal year for an ending balance of \$137,105,053. The main reason for the increase was the positive performance of the Texas Retirement System. While the current pandemic certainly had an impact on the Laredo Independent School District, management was able to take full advantage of the Elementary and Secondary School Emergency Relief (ESSER) Fund that neutralized its effect on governmental activities. In addition, the Texas Education Agency Commissioner of Education approved a reduction in the minimum number of

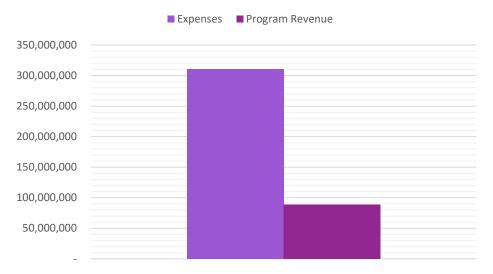

required operational minutes for all public schools during the first through fourth six-week attendance reporting periods of the 2021–2022 school year. This resulted in an adjustment to ensure stabilized percentage attendance rates were comparable to a more typical school year, rather than the low percentage attendance rates caused by the ongoing COVID-19 pandemic.

Revenues increased \$12.5 million from the prior year due to \$14,599,533 net increase in operating grants mainly from the federal government. The federal government provided money to school districts to address the areas most impacted by the disruption and closure of schools caused by COVID-19 and to assist school Districts to help safely reopen and sustain the safe operation of schools and address the impact of COVID-19. In addition, the TRS earned positive returns of 24.98 percent, compared to 7.24 percent in the prior year. Due to declining enrollment, State Aid decreased by \$28 million with an offset of \$8.8 million in disaster funding adopted by the Board of Trustees in response to Hurricane Henna. Property taxes remained stable while assessed property valuations continue to increase. Nonetheless, the rate charged to property owners decreased slightly from \$1.3929 in the previous year to \$1.3892 in the current year.

Expenses grew during the current year, increasing from \$306.5 million in the prior year to \$310.3 million in the current year. Differences between expected and actual actuarial experience and change in assumptions in the Pension Trust Fund created reductions overall. Even with those reductions, the increase by \$9.2 million in plant maintenance and operations was mainly due to the purchase of purifiers for classrooms, disinfecting equipment and supplies, HVAC supplies, and payroll costs for additional custodial staff. Also, the Food Service Program experienced an increase of \$3.6 million in food and non-food items such a meal trays, sporks, paper rolls, and fuel caused by inflation and supply chain shortages.

As shown in the chart below, revenues generated by the Laredo Independent School District's programs are not sufficient to cover the costs. The Laredo Independent School District relies on property taxes, sales taxes, investment income and other general revenues to cover the costs associated with the various programs.

Financial Analysis of Governmental Funds

As noted earlier, the Laredo Independent School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Laredo Independent School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Laredo Independent School District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the Laredo Independent School District itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Laredo Independent School District's Trustees.

At June 30, 2022, the Laredo Independent School District's governmental funds reported combined fund balances of \$228,368,470, a decrease of \$543,115 in comparison with the prior year. Of this amount, \$62,710,744, or 27%, constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable, restricted, committed, or assigned* to indicate that it is (1) not in spendable form, \$3,498,842; (2) restricted for particular purposes, \$136,755,311; (3) committed for particular purposes, \$23,195,360; or (4) assigned for particular purposes, \$2,208,213.

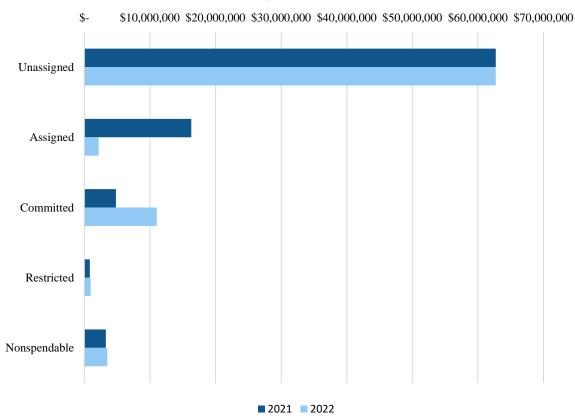

Analysis of Individual Funds

The general fund is the chief operating fund of the Laredo Independent School District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$62,710,744, while

total general fund balance decreased to \$80,397,502. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represented 28% of total general fund expenditures, while total fund balance represented 36% of that same amount.

The unassigned fund balance provided the District a balance that was equivalent to 102 days of operating expenditures. This fund balance continues to be adequate to minimize the likelihood of the District entering the short-term market to pay for current operating expenditures. This balance supports supplemental programs without interruption while the Districts waits for state and federal reimbursements.

Components of Fund Balance June 30, 2021 and 2022

The fund balance of the Laredo Independent School District's general fund decreased by \$7,537,015 during the current fiscal year. The decrease in the fund balance was the net effect of the appropriation and expenditure of projects approved in the Assigned Fund Balance in the amount of \$14,114,572 and the adoption of a tax rate in response to Hurricane Henna which generated \$8,894,991 and set-aside (*Committed*) for improvements to facilities.

The 2018 capital projects fund, a major fund, had \$31,091,736 decrease in fund balance was caused by the spending of resources in the current period which were obtained through the issuance of long-term debt for approved construction projects. That is, the fund balance that resulted from the previous long-term debt issuance was spent down during the current period as the related capital projects progressed.

The 2022 capital projects fund, a major fund, had no significant activity as new bonds were priced in May and the transaction closed during the last month of the fiscal year.

The debt service fund, the remaining major governmental fund, had a decrease in fund balance during the current year of \$4,303,690 to bring the year end fund balance to \$30,509,030. The decrease was due to the reduction in state aid as a result of lower student enrollment and increased bond payments.

Proprietary Funds. The District uses the Internal Service Fund to report activities related to the self-insured health plan. The unrestricted net position of the Health Plan at the end of the fiscal year was \$3,959,420. The total growth in net position was \$1,379,542, which includes \$750,000 for startup costs dedicated to the new employee health clinic.

General Fund Budgetary Highlights

Original budget compared to final budget. In general, the variances between the original and final budget are attributable to the timing and length of the budget preparation process. The original budget was prepared approximately nine months prior to the final budget approved in June 2021. The final budget reflects all budget revisions made throughout the fiscal year to adjust for known facts. Consequently, when the original budget is compared to the final budget, it would be expected that significant variances can occur.

The most significant fund for the District is the General Fund, funded primarily through state aid and property tax revenue. Over the course of the year, the District revised its budget several times and the original appropriations had a change of \$12,499,840, as of the final amended budget. The activities are described below.

State revenues appropriations had a net decrease of \$16,175,405 due to lower than expected student average daily attendance. This is the net effect of \$3,824,595 increase in TRS on Behalf Benefits for Medicare P art D and a \$20,000,000 decrease reclassified to ESSER II. ESSER II revenues are being account for in the Special Revenue Funds. Federal programs revenues increased by \$456,520 for the Supply Chain Assistance Grant that the Food Service Fund received. Revenue appropriations had a net decrease of \$15,718,885.

Expenditure appropriations had a net decrease of \$10,300,557. This is a result of a reduction in payroll appropriations for Instruction, Health Services, and Plant Maintenance and Operations in the amount of \$20,000,000 for a reclassification in funding to ESSER II. The District increased its expenditure appropriations to fund fiscal year 2021-2022 outstanding purchase orders in the amount of \$2,156,744. In addition, projects from committed fund balance were appropriated for the purchase secondary schools band instruments in the amount of \$950,000 and the purchase of secondary schools mariachi orchestra uniforms and supplies in the amount of \$500,000.

An increase in expenditure appropriations from assigned fund balance was used to fund vaccination incentives for secondary schools in the amount of \$120,000, five student activity vehicles in the amount of \$152,132, school logo wraps in the amount of \$80,000, COM funding for hotspots and filter service in the amount of \$301,900, cheerleaders floor mats for secondary schools in the amount of \$60,200, roof repairs and canopy at Martin High School in the amount of \$204,000, replacement chiller system at Nixon High School in the amount of \$170,000, wrought iron fence and replacement furniture at Christen Middle School in the amount of \$105,000, beautification of front yard at Christen Middle School in the amount of \$15,000, erosion preventing retaining wall and painting of facility at Memorial Middle School in the amount of \$100,000, hardware locksets at Lara Academy in the amount of \$20,000, canopy at Daiches Elementary in the amount of \$89,000, stage curtains and painting at Farias Elementary in the amount of \$35,000, furniture replacement at Ligarde Elementary in the amount of \$30,000, mobile mini trailer with concrete slab and canopies at Milton Elementary in the amount of \$209,000, construction of new sidewalk at Santo Nino Elementary in the amount of \$17,000, power washers District-wide in the amount of \$10,000, HVAC replacements District-wide in the amount of \$88,000, musical instruments District-wide in the amount of \$40,000, bleachers at Zachary Softball Field in the amount of \$91,000, roof replacement at Information Technology Department in the amount of \$27,000, Martin High School ROTC water fountain in the amount of \$5,000, Nixon High School floor upgrade in band hall in the amount of \$25,000, vehicle certifications for activity buses in the amount of \$7,912, attendance incentives in the amount of \$10,000, lifeguard certifications for ROTC instructors in the amount of \$240, for the surveys and replat services in the amount of \$62,200, and canopy repairs District wide in the amount of \$37,000.

Additionally, budget appropriations in the General Fund were decreased to reduce expenditures to fund a transfer out to construction projects fund in the amount of \$300,000. Budget appropriations in the General Fund were increased to appropriate expenditures for increased TRS on behalf Medicare Part D payments in the amount of \$3,824,595

Moreover, budget appropriations increased by 456,520 for the Supply Chain Assistance Grant that the Food Service Fund received.

Other Sources and Uses appropriations increased for the Debt Service Fund to meet debt service requirement in the amount of \$5,819,885; the Proprietary Fund for the Health Benefit Initiative

\$750,000; the Capital Projects Fund for the Heights Expansion \$2,400,000, the IT training center for \$300,000, the Memorial Middle School field improvements \$799,717, and for construction projects and acquisition of real property in the amount of \$3,450,000. Other Sources and Uses appropriations had a net increase of \$13,519,602.

Final budget compared to final results. The significant budgetary variances between the final amended budget and the actual results are listed below.

An unfavorable variance in revenue was primarily due to higher local property tax collections of \$752,881, lower interest income of \$27,243, higher miscellaneous income of \$598,007, lower foundation school program payments of \$2,215,234, higher state revenues from Texas House Bill 2 Article III Rider 75 for maintenance of state financial support for Part B of the Individuals with Disabilities Education Act (IDEA) of \$171,739, lower food service state match of \$65,111, higher state indirect cost of \$7,756, lower TRS on behalf payments of \$4,332,885, higher federal and grant indirect cost earnings of \$2,427,903, lower food service revenues for breakfast, lunch, USDA commodities, fresh fruits and vegetables of \$1,501,505, lower school health and related services payments of \$582,817, and higher Medicaid administrative claiming payments of \$47,219.

A favorable variance in expenditures was primarily due to having payroll, payroll taxes and benefits savings of \$8,041,778, spending \$1,591,684 less for the purchase of professional and contracted services than budgeted, spending \$3,128,429 less for supplies and materials than budgeted, spending \$801,666 less for miscellaneous operating expenditures than budgeted, spending \$2,145,670 less for capital outlay for building and equipment than budgeted.

Lower transfer in / out in other sources and uses was due to the district requiring \$334,725 less funds transferred to Dennis E. Nixon Performing Arts Center.

Capital Assets and Debt Administration

Capital assets. The Laredo Independent School District's investment in capital assets for its governmental activities as of June 30, 2022, amounts to \$419,303,756 (net of accumulated depreciation). This investment in capital assets includes land, building and improvements, furniture and equipment and construction in progress. The total increase in capital assets for the current fiscal year was 7.1%.

Laredo Independent School District's Capital Assets (net of depreciation)

| | Governmen | tal Activities |
|----------------------------|---------------|----------------|
| | 2022 | 2021 |
| Land | \$ 23,809,657 | \$ 22,871,938 |
| Buildings and improvements | 324,565,875 | 307,680,790 |
| Furniture and equipment | 10,819,627 | 10,887,393 |
| Construction in progress | 60,108,597 | 50,179,514 |
| Total | \$419,303,756 | \$ 391,619,635 |

Major capital asset events during the current fiscal year included the following:

- Completion of the Dennis E. Nixon Performing Arts Center at a cost of \$19,345,213.
- Completion of the Raymond & Tirza Martin High School Multipurpose Building at a cost of \$6,166,324 and the Joseph W. Nixon High School Vocational Building at a cost of \$8,469,745.
- Land was purchase for Ligarde Elementary School at a cost of \$236,000 and for the relocation of the District Tax Office and future Health Care Clinic for \$701,012.
- The purchase of furniture and equipment at a total cost of \$2,921,587.
- Construction in Progress includes costs for Anita T. Dovalina Elementary School, Dr. Joaquin G. Cigarroa Middle School Phase I, Dr. Leonides G. Cigarroa High School Phase I, Jesus A. Kawas Elementary School and the Administration Building.

Additional information on the Laredo Independent School District's capital assets can be found in Note G.

Long-term Debt. At the end of the current fiscal year, the Laredo Independent School District had total bonded debt outstanding of \$325,405,970. The bonds issued by the District are fully guaranteed by the Permanent School Fund (PSF) Bond Guarantee Program for the timely payment of the principal and interest in the event the school District is unable to meet debt service requirements. The District continues to maintain its credit ratings that helps to achieve lower interest costs. The Laredo Independent School District maintained "AA-" ratings from Standard & Poor's and Fitch Ratings and "A1" rating from Moody's Investors Service for general obligation debt. The remainder of the Laredo Independent School District's long-term obligations is comprised of liability for compensated absences.

Laredo Independent School District's Long-Term Debt

| | 2022 | 2021 | | |
| Loans payable | \$ - | \$ 8,000,000 | | |
| Bonds payable | 325,405,970 | 299,714,980 | | |
| Compensated absences | 4,192,444 | 2,781,140 | | |
| Total Long Term Debt Payable | \$ 329,598,414 | \$ 310,496,120 | | |

The Laredo Independent School District's total debt increased by \$19,102,294 (6.2%) during the current fiscal year. The following are the reasons for the overall increase.

During the current year, the Laredo Independent School District issued bonds. The Laredo Independent School District issued an Unlimited Tax School Building Bonds, Series 2022 for \$46,060,000 to finance school facility projects approved by the voters in 2018. The Laredo Independent School District also paid out its QZAB loan with principal amount for \$8,000,000. The new issuance was offset by the regularly scheduled principal payments on the existing outstanding debt.

In addition to the new debt issuances, the Laredo Independent School District had an increase of \$1,411,304 in compensated absences liability.

Additional information on the Laredo Independent School District's long-term debt can be found in Note K of this report.

Economic Factors and Next Year's Budgets and Rates

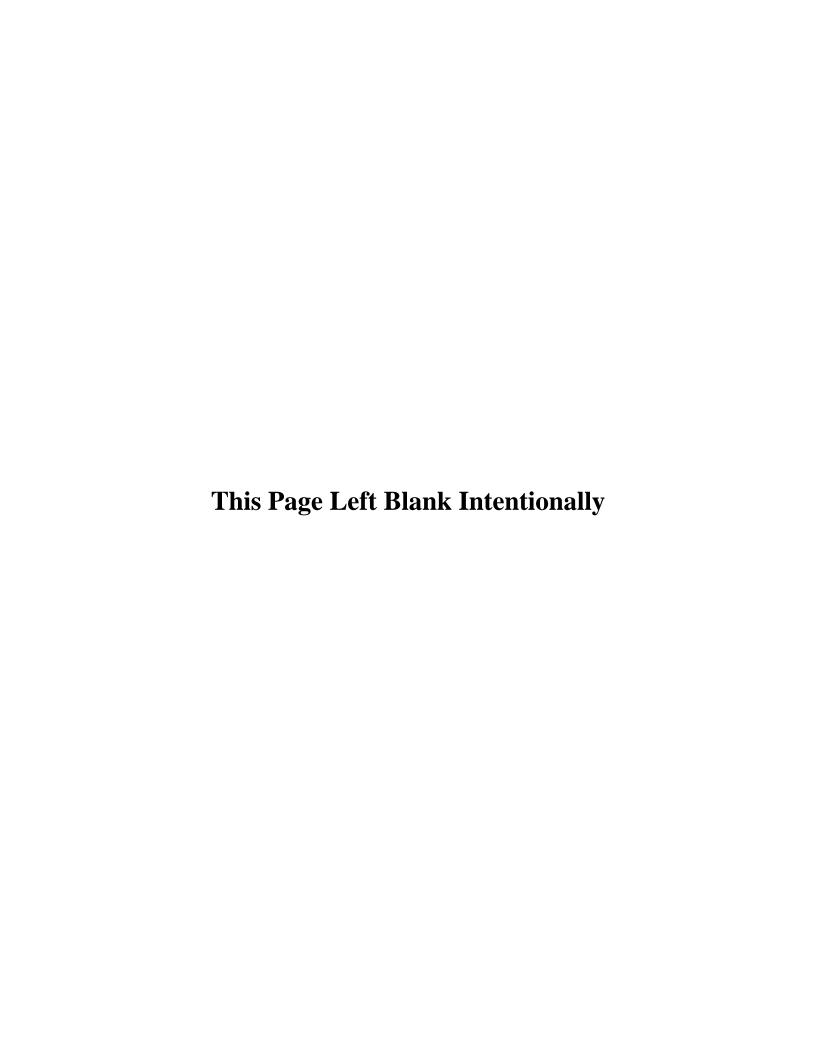

The District's board members considered many factors when setting the fiscal year 2022-2023 budget and tax rates. Some of these factors were the District needs, the campus needs, appraised values, declines to student enrollment counts due to the pandemic, and Laredo's economy. The following factors listed below are highlights of the budget.

- The District experienced property value growth by 11.17% from \$2,601,865,158 to \$2,892,595,488. The increase in valuation triggered local tax compression from .8537 to .8046.
- The interest and sinking tax rate increased from \$0.4465 to \$0.4999 per \$100 property value, while the total tax rate decreased from \$1.3892 to \$1.3845 per \$100 property value. Included in the total tax rate are three disaster pennies (one-time) in response to Winter Storm Uri.
- The District's refined average daily attendance (ADA) is estimated at 18,000, compared to last year's actual of 18,018 (adjusted). The District continues to experience declines in enrollment. The District will use the Elementary and Secondary School Emergency Relief (ESSER) Funds to relieve the fiscal burdens incurred by the District in preventing, preparing for, and responding to the coronavirus. The District has the discretion to supplant ESSER funds locally. About \$20 million in ESSER Funds were used to support continuing operations.
- The basic allotment, which is the amount every school District is guaranteed to receive in state and local funds for each student in ADA, remained the same at \$6,160.

The Board of Trustees approved a balanced budget for the fiscal year ending June 30, 2023. The health benefit plan coverage remained the same and the employer monthly contribution remained the same at \$525. In an effort to maintain stability in the District, the Board of Trustees approved \$1,100 increase to all employees in the teacher salary schedule. The Trustees also approved a 2% increase from the midpoint of the pay grade and days of the current play plan for all employees on the professional pay schedules and a 4% increase of the midpoint of the pay grade and days of the current pay plan for all employees on the para-professional pay schedules. In addition, the Trustee approved a \$1,000 one-time retention bonus for all full-time employees. The funding source for the retention bonus was the Elementary and Secondary School Emergency Relief Fund II (ESSER II) estimated at \$4.9 million.

Requests for Information

This financial report is designed to provide our taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability and transparency for the money it receives. If you have questions about this report or need additional financial information, please contact the District's Division of Finance, Business Services and Accountability at (956) 273-1043.

EXHIBIT C-2

LAREDO INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2022

| Total Fund Balances - Governmental Funds | \$ 228,368,470 |
|---|-------------------|
| 1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position. | 3,959,420 |
| 2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$652,160,022 and the accumulated depreciation was (\$260,540,387). In addition, long-term liabilities, including bonds payable was (\$310,496,120), are not due and payable in the current period, as well as the net deferred gain and loss on refunding of \$3,919,045 and the accrued interest payable of (\$6,344,419) and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position. | 78,698,141 |
| 3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2022 capital outlays in the amount of \$48,319,893 and debt issuance and principal payments in the amount of (\$19,123,374) and the net deferred charge and gain on refunding in the amount of (\$616,465) is to increase net position. | 28,580,054 |
| 4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount of \$22,863,458 deferred resource inflow in the amount of \$43,846,163, and a net pension liability in the amount of \$38,466,646. This resulted in a decrease in net position. | (59,449,351) |
| 5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$15,194,839, a deferred resource inflow in the amount of \$60,428,219, and a net OPEB liability in the amount of \$78,218,970. This resulted in a decrease in net position. | (123,452,350) |
| 6 The 2022 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position. | (20,635,772) |
| 7 Property taxes receivable, which will be collected subsequent to year-end, but are not available soon enough to pay expenditures and, therefore, are deferred in the funds. This resulted in an increase in net position. | 1,036,441 |
| 19 Net Position of Governmental Activities | \$ 137,105,053 |

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2022

| Total Net Change in Fund Balances - Governmental Funds | \$ (543,115) |
|---|-----------------|
| The District uses internal service funds to charge the costs of certain activities, such as self-insurance, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase net position. | 1,379,542 |
| Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2022 capital outlays in the amount of \$48,319,893 and debt issuance and principal payments in the amount of (\$19,123,374) and the net deferred charge and gain on refunding in the amount of (\$616,465) is to increase net position. | 28,580,054 |
| Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position. | (20,635,772) |
| Some property taxes will not be collected for several months after the District's fiscalyear ends, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased by this amount this year. | 30,442 |
| GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$8,588,847. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in the change in net position totaling \$5,399,494. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense increased the change in net position by (\$3,146,799). The net result is a increase in the change in net postion. | 6,336,152 |
| GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$1,851,228. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in the change in net position totaling \$1,320,899. Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense increased the change in net position by (\$4,778,793). The net result is an increase in the change in net position. | 5,309,122 |

The notes to the financial statements are an integral part of this statement.

A. Summary of Significant Accounting Policies

Laredo Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in GASB Statement No. 76, and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, elected by the public, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is appointed and has the exclusive power and duty to govern and oversee the management of the public schools of the District. It has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved to the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state, and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No.14, *The Financial Reporting Entity*, and GASB Statement No.61, *The Financial Reporting Entity: Omnibus*. There are no component units included within the reporting entity.

2. Basis of Presentation, Basis of Accounting

a. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Laredo Independent School District nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement

A. Summary of Significant Accounting Policies (Continued)

of Revenues, Expenditures and Changes in Fund Balance, and on the Proprietary Fund Statement of Revenues, Expense and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental funds and proprietary funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the productions of the goods and services, such as materials and labor and direct overhead. Other expenses are nonoperating.

b. Fund Accounting

The District reports the following major governmental funds:

- 1. The General Fund The general fund is the District's primary operating fund. This classification must be used to account for funds in which the local governing board designates. It accounts for all financial resources except those required to be accounted for in another fund.
- **2. Debt Service Fund** Governmental fund that must be used to account for general long-term debt principal and interest for debt issues and other long-term debts for which a tax has been dedicated.
- 3. EDA 2018 Bond Series Fund The District accounts for proceeds from long-term debt financing (including the sale of bonds) and revenues and expenditures related to authorized construction and other capital asset acquisitions in this fund. The Board approves project budgets, not annual appropriated budgets.
- **4. EDA 2022 Bond Series Fund** The District accounts for proceeds from long-term debt financing (including the sale of bonds) and revenues and expenditures related to authorized construction and other capital asset acquisitions in this fund. The Board approves project budgets, not annual appropriated budgets.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. Special Revenue Funds – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.

A. Summary of Significant Accounting Policies (Continued)

2. Capital Projects Funds – The proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Proprietary Funds:

3. Internal Service Funds – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The Internal Service Fund accounts for the operations of the self-funded health insurance program.

Fiduciary Funds:

4. Custodial Funds – The District accounts for resources held for others in a custodial capacity in custodial funds. These funds are used to account for assets held by the District as an agent for student and other organizations. These funds were previously reported in an agency fund. This change resulted in reporting the detail of additions to and deductions from custodial funds causing a change in the fund net position whereas these details were not reported for agency funds. This change is a result of the implementation of GASB 84. The District's custodial funds consist of District Student Activity Funds, Donations, and Scholarship Funds.

Fiduciary Fund Financial Statement are referenced as Exhibits E-1, E-2, H-9 and H-10.

1) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 30 days after year end.

A. Summary of Significant Accounting Policies (Continued)

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 30 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Unavailable revenue from property taxes arises only under modified accrual basis of accounting. The governmental funds report this unavailable revenue as a deferred inflow of resources, which is recognized as revenue in the period the amounts become available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources. Furthermore, committed fund balances are reduced first, followed by assigned amounts and then unassigned amounts where expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

2) Recently issued accounting standards

GASB Statement No. 87, Leases, was issued in June 2017. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This standard became effective for the District in fiscal year 2022.

A. Summary of Significant Accounting Policies (Continued)

The District implemented GASB 87 in fiscal year 2022. However, the District had no material lease transactions in the current year.

GASB Statement No. 91, Conduit Debt Obligations, was issued in May 2019. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements, was issued in May 2020. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset— an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended. This standard becomes effective for the District in fiscal year 2023. The District has not yet determined the impact of this statement.

3. Other Accounting Policies

a. Deposits

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

The funds of the District must be deposited and invested under the terms of a depository contract, contents of which are set out in the Depository Contract Law. The depository bank may either place approved pledged securities for safekeeping or trust with the District's agent bank or letters of credit from FHLB in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of the Federal Deposit Insurance Corporation coverage.

b. Inventories and Prepaid Items

Inventories of supplies on the balance sheet are carried at cost, which is determined principally by the average cost method, while investments of food commodities are recorded at market values supplied by the United States Department of Agriculture (USDA). Inventories are considered expenditures or expenses as they are consumed. Supplies are used for almost all functions of activity, while food commodities are used only in the food service program.

Although commodities are received at no cost, their fair market value is supplied by the USDA and recorded as inventory and unearned revenues when received. When requisitioned, inventory and

A. Summary of Significant Accounting Policies (Continued)

unearned revenues are relieved, expenditures are charged, and revenue is recognized for an equal amount.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide and proprietary fund financial statements. and reported as an expenditures/expenses when consumed rather than when purchased. In the governmental funds, prepaid expenditures are recorded as an expenditure using the consumption method.

c. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 30-day period after the close of the fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. Allowances for uncollectible tax receivables within the General Fund are \$1,596,725 and \$599,212 for the Debt Service Fund.

d. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at acquisition value at the date of donation.

Land and Construction in Progress are not depreciated.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives is not capitalized. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

| Asset Class | Estimated Useful Lives (Years) |
|-------------------------|--------------------------------|
| Buildings | 15 – 30 |
| Furniture and Equipment | 3 - 15 |
| Vehicles | 7 - 10 |

A. Summary of Significant Accounting Policies (Continued)

e. Receivable and Payable Balances

The District believes sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances. There are no significant receivables which are not scheduled for collection within one year of year-end.

f. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation.

Services provided, deemed to be at fair or near fair value rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement.

All other inter-fund transactions are treated as transfers. Transfers In and Transfers Out are presented gross on the governmental fund financial statements. The effect of interfund activity has been eliminated on the government-wide financial statements.

g. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the District's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates. Significant assumptions are required in the calculation of the revenue from the Foundation School Program. It is possible this estimate could be revised in the near term and that the revision could be material.

h. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide data base for policy development and funding plans.

i. Encumbrances

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30. However, encumbrances outstanding at year end, not otherwise restricted or committed, are reported as assignments of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

A. Summary of Significant Accounting Policies (Continued)

j. Arbitrage Payable

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury for investment income received at yields that exceed the issuer's tax exempt borrowing rates. The Treasury requires payment for each issue every five years. The estimated liability is updated annually for all tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. There is no District liability as of June 30, 2022.

k. Unearned Revenues

Unearned revenues arise principally from amounts received from the state that relate to the subsequent fiscal year.

1. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

m. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

n. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

A. Summary of Significant Accounting Policies (Continued)

o. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category.

The deferred charge on refunding reported in the government-wide statement of net position results from the difference in the reacquisition price over the carrying value of the refunded debt. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred outflows of resources for pension and OPEB are reported in the government-wide financial statement of net position. Deferred outflows result from pension plan contributions made after the measurement date of the net pension liability. Deferred outflows also include the District's proportionate share of the deferred outflows of resources of the TRS plan and TRS Care Plan. These deferred outflows include the differences between expected and actual economic experience and changes in actuarial assumptions. The deferred outflows of resources related to the District's contributions which are subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension and OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Accordingly, the District reports a deferred gain on refunding and deferred inflow related to TRS pension and TRS OPEB in the government-wide statement of net position, and unavailable revenue-property taxes in the governmental balance sheet.

A deferred gain on refunding results from the difference in the carrying value of refunded debt over its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred inflows of resources for pension and OPEB are reported in the government-wide financial statement of net position. These deferred inflows result primarily from differences between projected and actual earnings on pension plan investments and changes in actuarial assumptions. These amounts will be amortized over a closed five-year period.

Unavailable revenue-property taxes are deferred and recognized as an inflow of resources in the period that the amounts become available. These are reported as deferred inflows of resources at the fund level and are recognized as revenues at the government-wide level.

A. Summary of Significant Accounting Policies (Continued)

p. Investment Policy

The District's general policy is to report money market investments, short-term participating interest-earning investment contracts, and investments in certain qualifying external investment pools at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value.

The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase.

The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAAm or an equivalent rating by at least one nationally recognized rating service; and (3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares. As of June 30, 2022, the District invested part of its money with Texas DAILY and TexPool, which hold an AAAm rating from Standard and Poor's (S&P).

q. Fund Balance and Net Position

Governmental Fund Financial Statements

In accordance with GASB 54, the District classifies governmental fund balances as follows:

Nonspendable - includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories and prepaid items.

Restricted - includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to constitutional provisions or enabling legislation. This classification includes Federal, State and local grants, contractual obligations for personal property, bond proceeds, and retirement of long-term debt.

Committed - includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action of the highest level of decision-making authority. Committed fund balance is reported pursuant to resolution passed by the District's Board of Trustees. This classification includes construction projects not funded by bonded debt, retirements

A. Summary of Significant Accounting Policies (Continued)

of loans or notes committed by the Board, equipment not funded by bonded debt and local Special Revenue funds.

Assigned - includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. As per the District's policy, fund balance can only be assigned by the District Board of Trustees. This classification includes construction and encumbrances.

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes. In this category funds are available for appropriation at Board's discretion as per Fund Balance policy.

Government-Wide Financial Statements

Net position on the Statement of Net Position includes the following:

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt net of premiums and discounts, excluding unspent proceeds that are directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Federal and State Programs - the component of net position that reports the difference between assets and liabilities for all state and federal programs.

Restricted for Debt Service - the component of net position that reports the difference between assets and liabilities with constraints placed on their use by law.

Restricted for Capital Projects - the component of net position that accounts for the difference between assets and liabilities for all district construction projects.

Unrestricted - the difference between the assets and liabilities that is not reported in any of the classifications above.

B. Reconciliation of Government -Wide and Fund Financial

Explanation of certain differences between the governmental fund balance sheet and the Government-Wide Statement of Net Position:

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds.

B. Reconciliation of Government –Wide and Fund Financial (Continued)

The details of the \$28,580,054 difference is as follows:

| Assets: | | |
|--|--------------|------------------|
| Increase in Land \$ | 937,719 | |

C. Compliance and Accountability

1. Budgetary Data

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund (which is included in the General Fund). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 in RSI and the other two reports are in Exhibits J2 and J3.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

- 1) Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2) A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.

C. Compliance and Accountability (Continued)

- 3) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end. During the year, several amendments were necessary.
- 4) Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund, General Fund Food Service, and Debt Service Fund. The Food Service Fund is accounted in the general fund. A more detailed budget versus actual presentation for the Food Service Fund is reported as supplementary information to demonstrate legal compliance at the legal level of budgetary control.
- 5) Each annual budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America. The budget was properly amended throughout the year by the Board. Expenditures may not legally exceed budgeted appropriations at the function level.
- 6) Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year-end.
- 7) The Non-Major Special Revenue Funds, the EDA 2018 Series, the EDA 2022 Series, and the Non-Major Capital Projects Funds adopt project-length budgets, which do not correspond to the District's fiscal year. These funds are not legally required to adopt a budget, therefore budgetary comparison information is not presented.

Budget information is summarized next:

| | Original | | Increase / | Amended | |
|-----------------------------|-------------------|----|--------------|---------|-------------|
| | Budget | (| (Decrease) | | Budget |
| General Fund | \$ 229,629,713 | \$ | (10,757,077) | \$ | 218,872,636 |
| General Fund – Food Service | 20,581,849 | | 456,520 | | 21,038,369 |
| Total General Fund | \$ 250,211,562 | \$ | (10,300,557) | \$ | 239,911,005 |
| Debt Service Fund | \$ 40,962,528 | \$ | | \$ | 40,962,528 |

It is noted that during this fiscal year, the budget appropriations in General Fund were increased to appropriate expenditures from committed fund balance for the purchase secondary school's band instruments in the amount of \$950,000 and the purchase of secondary school's mariachi orchestra uniforms and supplies in the amount of \$500,000.

C. Compliance and Accountability (Continued)

Budget appropriations in the General Fund were also increased to appropriate expenditures from assigned and other assigned fund balance for district wide fiscal year 2021-2022 outstanding purchase orders in the amount of \$2,010,190, vaccination incentives for secondary schools in the amount of \$120,000, five student activity vehicles in the amount of \$152,132, school logo wraps in the amount of \$80,000, COM funding for hotspots and filter service in the amount of \$301,900, cheerleaders floor mats for secondary schools in the amount of \$60,200, roof repairs and canopy at Martin High School in the amount of \$204,000, replacement chiller system at Nixon High School in the amount of \$170,000, wrought iron fence and replacement furniture at Christen Middle School in the amount of \$105,000, beautification of front yard at Christen Middle School in the amount of \$15,000, erosion preventing retaining wall and painting of facility at Memorial Middle School in the amount of \$100,000, hardware locksets at Lara Academy in the amount of \$20,000, canopy at Daiches Elementary in the amount of \$89,000, stage curtains and painting at Farias Elementary in the amount of \$35,000, furniture replacement at Ligarde Elementary in the amount of \$30,000, mobile mini trailer with concretes lab and canopies at Milton Elementary in the amount of \$199,000, construction of new sidewalk at Santo Nino Elementary in the amount of \$17,000, power washers district-wide in the amount of \$10,000, HVAC replacements districtwide in the amount of \$88,000, musical instruments district-wide in the amount of \$40,000, bleachers at Zachary Softball Field in the amount of \$91,000, roof replacement at Information Technology Department in the amount of \$27,000, Martin High School ROTC water fountain in the amount of \$5,000, Nixon High School floor upgrade in band hall in the amount of \$25,000, vehicle certifications for activity buses in the amount of \$7,912, attendance incentives in the amount of \$10,000, lifeguard certifications for ROTC instructors in the amount of \$240, for the surveys and replat services in the amount of \$62,000, and canopy repairs district wide in the amount of \$37,000.

Additionally, budget appropriations in the General Fund were decreased to reduce expenditures to fund a transfer out to construction projects fund in the amount of \$300,000.

Moreover, budget appropriations in the General Fund were increased to appropriate expenditures for increased TRS on behalf payments in the amount of \$3,824,595

Furthermore, budget appropriations in the General Fund were decreased to reduce expenditures due to a reduction of payroll expenditures in the amount of \$20,000,000.

Lastly, budget appropriations in the General Fund (E-Rate) increased to appropriate expenditures from committed fund balance for district wide fiscal year 2021-2022 outstanding purchase orders in the amount of \$146,554.

Budget appropriations in Food Service were increased to appropriate revenues and expenditures for the Supply Chain Assistance (SCA) Funding in the amount of \$456,520.

2. Excess Actual Over Budget

For the year ended June 30, 2022, appropriations exceeded expenditures in all legally budgeted funds.

D. Cash, Cash Equivalent and Investments

Cash Deposits: The District's cash and cash equivalents are considered cash on hand and demand deposits. The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities and letters of credit, which comply with state requirements. These securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities and letters of credit are in compliance with the Texas Government Code, Chapter 2257 "Collateral for Public Funds", and are sufficient to meet the terms agreed to in the current depository contract as approved by TEA. The pledge of approved securities and letter of credits is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") coverage.

Investments: Investments, except for the investment pools, for the District are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost. The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws. The District further limits its investments to U.S. Agencies, certificates of deposit, money market accounts and investment pools.

The carrying amount of the District's deposits and investments are as follows:

| Cash in Bank or On Hand - Primary Government | \$ | 41,246,624 |
|--|----|-------------|
| Cash Equivalents | | |
| Investment Pools Accounts: | | |
| Texas DAILY 223,240,72 | 7 | |
| TexPool 9,253,766 | 3 | |
| Total Cash Equivalents | | 232,494,495 |
| | | |
| Total Deposits - Primary Government | \$ | 273,741,119 |

Deposits:

At June 30, 2022, the District's bank deposits (cash and interest bearing accounts) were \$276,986,456. The District's cash deposits at June 30, 2022 were entirely covered by FDIC coverage and by pledged collateral held by the District's agent bank in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: PNC Bank. The total collateral amount at the highest combined balance on deposits was \$135,000,000, which is the sum of two letters of credit.
- b. The highest combined balances of cash, savings, and time deposit accounts amounted to \$88,878,069 and occurred during the month of July 2021.
- c. Total amount of FDIC coverage at the time of the largest combined balance was \$500,000.

D. Cash, Cash Equivalent and Investments (Continued)

Investments:

Investments, except for the investment pools, for the District are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost. The District's investment policy is in accordance with the Public Funds Investment Act, the Public Funds Collateral Act, and federal and state laws.

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the general purpose financial statements disclosed that District's investment practices, quarterly investment reports and investment policies, adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments, which are allowable for the District. These include, with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, the state of Texas, (2) certificates of deposit and Share Certificates, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds.

External Investment Pool-Primary Government:

Texas DAILY is a portfolio established by Texas Term Advisory Board pursuant to the provisions of the Texas Term Common Investment Contract that established the Pool. Texas DAILY is a local government investment portfolio established to allow school districts and other governmental entities in Texas to pool their funds for investment under the provisions of the Inter local Cooperation Act, Chapter 791 of the Texas Government Code, the Public Funds Investment Act and other similar cooperative statutes and under the statutes governing investment of funds by those local governments.

TexPool is a local government investment pool created on behalf of Texas entities whose investment objectives are preservation and safety of principal, liquidity and yield consistent with the Public Funds Investment Act. Pursuant to subchapter G of chapter 404, the Comptroller of Public Accounts administers the Texas Local Government Investment Pools (the "TexPool Portfolios") as public funds investment pools through the Texas Treasury Safekeeping Trust Company (the "Trust Company").

The Trust Company is a special-purpose trust company authorized to receive, transfer, and disburse money and securities as provided by statute or belonging to the state, agencies, and local political subdivisions and other organizations created on behalf of the state or agency or political subdivision of the state.

The Comptroller and the Trust Company have contracted with Federated Investors, Inc. ("Federated"), as administrator and investment manager for the TexPool Portfolios.

D. Cash, Cash Equivalent and Investments (Continued)

As noted in the District's Significant Accounting Polices, the District reports its local government investment pools at amortized cost as permitted by GASB Statement No. 79 *Certain External Investment Pools and Pool Participants*.

Credit Risk. In accordance with state law and the District's investment policy, investments in investment pools must be rated at least AAA or have an equivalent rating, commercial paper must be rated at least A-1,P-1, or have an equivalent rating, and obligations of states, agencies, counties, and cities must be rated at least A or its equivalent. As of June 30, 2022, Texas Daily and Texpool were rated AAAm by Standard and Poor's (S&P). The District did not have any investments in commercial paper as of June 30, 2022.

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer, rather investments are governed by the objectives of preservation and safety of principal, liquidity, and yield. In addition, the investment portfolio is diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer. The District's deposits and investments are allocated as follows: Texas DAILY (81.55%), TexPool (3.38%), and PNC Bank (15.07%).

Interest Rate Risk. In accordance with state law and the District's investment policy, the District does not purchase any investments with maturities greater than two and a half (2.5) years for its Operating Funds.

The investment maturities in the following table reflect the maturity date of the investments in each category due 12 months from the balance sheet date. The District uses its investments in the investment pools, certificates of deposits and a discount note to further mitigate interest rate risk.

The District's investments at June 30, 2022 are shown below:

| Investment | Maturities | in | Years |
|------------|-------------------|----|-------|
| | | | |

| Investment | Book Value | | Les | ss than 1 Year | 1 to 2 Years | | |
|--------------------------------------|------------|--------------------------|-----|--------------------------|--------------|-------------|--|
| Investment Pools Texpool Texas DAILY | \$ | 9,253,768 223,240,727 | \$ | 9,253,768 223,240,727 | \$ | - - - | |
| Total Book Value | \$ | 232,494,495 | \$ | 232,494,495 | \$ | | |

TexPool and Texas DAILY are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. Texpool and Texas DAILY have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

D. Cash, Cash Equivalent and Investments (Continued)

Fair Value of Investments:

The District's investments, whether recorded at fair value, cost, or amortized cost, at June 30, 2022 are shown below:

| | | Cost or | | | | | | | |
|-------------------|----|---------------|---|----------|---------|--|---------|---|-------------------|
| Investment Type | Ar | nortized Cost | L | evel 1 | Level 2 | | Level 3 | | Total |
| | | | Quoted Prices in Active Markets for Identical Assets | | | Significant Other Significant Observable Inputs Unobservable Inputs | | | |
| Investment Pools | | | | | | | | | |
| Texpool | \$ | 9,253,768 | \$ | - | \$ | - | \$ | - | \$ 9,253,768 |
| Texas DAILY | | 223,240,727 | | | | - | | - | 223,240,727 |
| Total Investments | \$ | 232,494,495 | \$ | <u> </u> | \$ | | \$ | | \$ 232,494,495 |

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that government can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement. Local government investment pools are not required to be classified within the fair value hierarchy.

E. Due to and from Other Governments and Agencies

The district participates in a variety of federal, state, and local programs from which it receives grants to finance certain activities partially or fully. During fiscal year 2022, the district participated in the following programs that are in response to the COVID-19 pandemic by state and federal programs.

- CRRSA ESSER II
- ARP ESSER III
- ARP Homeless II
- ARP IDEA, Part B-Formula
- ARP IDEA, Part B-Preschool

E. Due to and from Other Governments and Agencies (Continued)

Amounts due to and from federal, state, and local governments as of June 30, 2022 are summarized below and are reported on the government-wide statement of net position.

| | G | Due to Other overnments | Due from Other Governments | | |
|---|----|-------------------------|----------------------------------|------------|--|
| Major Governmental Funds: | | | | | |
| General Fund | \$ | 25,735,072 | \$ | 17,893,267 | |

| AEP Foundation Grant | | - | | 435,654 | |
| Total Nonmajor Governmental Funds | | 3,609,448 | | 13,956,945 | |
| Total Governmental Funds | \$ | 30,615,016 | \$ | 31,991,442 | |

F. Interfund Balances and Activities

1. Interfund Receivables and Interfund Payables

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All amounts due are scheduled to be repaid within one year. Interfund balances between governmental funds and proprietary funds are eliminated in the statement of net position and reported as internal balances.

F. Interfund Balances and Activities (Continued)

The composition of interfund balances as of June 30, 2022 is as follows:

| | Interfu | nd Receivables | Inter | fund Payables |
|-----------------------------------|---------|----------------|-------|---------------|
| Governmental Funds: | | | | |
| General Fund | \$ | 12,864,758 | \$ | 15,395,884 |
| Debt Service Fund | | 133,783 | | 2,294 |
| EDA 2018 Series | | - | | 198,429 |
| Nonmajor Governmental Funds | | 6,109,077 | | 8,823,506 |
| Total Governmental Funds | | 19,107,618 | | 24,420,113 |
| Proprietary Fund: | | | | |
| Health Plan Internal Service Fund | | 5,313,483 | | 988 |
| Total – All Funds | \$ | 24,421,101 | \$ | 24,421,101 |

2. Transfers To/From Other Funds

Transfers between the Special Revenue Funds, Capital Projects Funds, and the General Fund are to account for the district's local share of grant funds. Transfers to the Debt Service Fund are related to amounts to cover interest and principal on debt.

Interfund transfers for the year ended June 30, 2022 were as follows:

| Transfers From | Transfers To | Amount | Purpose |
|----------------|-------------------------------------|------------------|---|
| General Fund | Capital Projects | \$ 6,949,717 | Transfer to cover for capital improvement projects. |
| General Fund | Debt Service Fund | 5,819,885 | Transfer to cover for principal payments and agent fees. |
| General Fund | Ahtletics Program | 1,480,327 | Transfer to cover athletic costs for the District. |
| General Fund | Health Plan Internal Service Fund | 750,000 | Transfer to cover Health Care Clinic. |
| General Fund | Dennis Nixon Performing Arts Center | 279,464 | Transfer to cover civic center costs for the District. |
| General Fund | E-Rate | 455,000 | Transfer to cover local 10% share of grant and items ineligible for E-Rate. |
| | | \$ 15,734,393 | |

G. Capital Assets

Capital asset activity for the year ended June 30, 2022 was as follows:

| | Beginning | | | Ending |
|---|----------------|---------------|--------------|----------------|
| | Balances | Additions | Dispositions | Balances |
| Governmental activities: | | | | |
| Capital assets not being depreciated: | | | | |
| Land | \$ 22,871,938 | \$ 937,719 | \$ - | \$ 23,809,657 |
| Construction in Progress | 50,179,514 | 44,466,520 | 34,537,437 | 60,108,597 |
| Total capital assets not being depreciated | 73,051,452 | 45,404,239 | 34,537,437 | 83,918,254 |

| Buildings and Improvements | 535,200,922 | 34,537,437 | - | 569,738,359 |
| Furniture and Equipment | 43,907,648 | 2,921,587 | 699,358 | 46,129,877 |
| Total capital assets being depreciated | 579,108,570 | 37,459,024 | 699,358 | 615,868,236 |
| Less accumulated depreciation: | | | | |
| Building and Improvements | 227,520,132 | 17,652,352 | - | 245,172,484 |
| Furniture and Equipment | 33,020,255 | 2,983,420 | 693,425 | 35,310,250 |
| Total accumulated depreciation | 260,540,387 | 20,635,772 | 693,425 | 280,482,734 |
| Total capital assets being depreciated, net | 318,568,183 | 16,823,252 | 5,933 | 335,385,502 |
| Governmental activities capital assets, net | \$ 391,619,635 | \$ 62,227,491 | \$34,543,370 | \$ 419,303,756 |

Depreciation was charged to the following functions as follows:

| Instruction | \$ | 10,352,491 | | |
|--|---------|------------|--|--|
| Instruction Resources and Media Services | | 129,764 | | |
| Instructional Leadership | | 60,665 | | |
| School Leadership | | 98,825 | | |
| Guidance, Counseling & Evaluation Services | | 14,712 | | |
| Food Services | | 353,086 | | |
| Extracurricular Activities | | 352,194 | | |
| General Administration | | 26,736 | | |
| Facilities Maintenance and Operations | | 6,942,806 | | |
| Security and Monitoring Services | | 1,777,147 | | |
| Data Processing Services | 527,346 | | | |
| Total Depreciation | \$ | 20,635,772 | | |

H. Unearned Revenues

Unearned revenues at June 30, 2022 consisted of the following:

| 1714 of Governmental Lands. | |
|---|-----------------|
| General Fund- Food Service | \$ 1,408,032 |
| General Fund- Headstart Program | 45,833 |
| General Fund- Escrow Taxes | 50,722 |
| Total Major Governmental Funds | 1,504,587 |
| Nonmajor Governmental Funds: | |
| ESEA, Title I, Part A – Improving Basic Programs | 92 |
| ESEA, Title III, Part A – English Lang. Acquisition | 22,529 |
| LEP Summer School | 111,159 |
| Instructional Materials Allotment | 37,707 |

| LEOSE | 8,863 |
|-------------------------------------|---------|
| Equitable Sharing Program | 189,840 |
| Dennis Nixon Performing Arts Center | 3.946 |

Strength Breakfast Grant

Total Nonmajor Governmental funds

3,9-40

87,817

461,953

Total Governmental Funds 1,966,540

Proprietary Fund:

Health Plan Internal Service Fund 2,099,459

Total - All Funds \$ 4,065,999

I. Loans Payable

The District may borrow money for the purpose of paying maintenance expenses and may evidence those loans with negotiable notes. The District pledged proceeds of its maintenance tax to secure maintenance tax notes for the purpose of financing the renovation and equipment of qualified zone academies, within the meaning of section 1397(d) of the Internal Revenue Code of 1986, located within the District in accordance with the provisions of Section 45.108, Texas Education Code, as amended.

A Qualified Zone Academy Limited Maintenance Tax Note of \$8,000,000 was entered into on October 3, 2005, for the purpose of financing the construction of academies for three middle schools and two high schools. The loan has an interest rate of 0% and an original term of sixteen years. The principal payment of \$8,000,000 matured on October 3, 2021. In connection with the Qualified Zone Academy Limited Maintenance Tax Note, within the Interest and Sinking Fund, there shall be established a "Cumulative Sinking Fund Deposit Account"; provided however that the Cumulative Sinking Fund Deposit Account shall at all times be maintained by the District with, and held by, the Registrar.

I. Loans Payable (Continued)

The following is a summary of loan transaction of the District for the year ending June 30, 2022.

| |] | Balance | | Issued | | Retired | Balance | | | Amounts |
|------------------------|----|------------|----|---------|----|-----------|---------|----------|----|------------|

| Note - October 3, 2005 | \$ | 8,000,000 | \$ | - | \$ | 8,000,000 | \$ | - | \$ | - |

J. Long-Term Obligations

The District issues general obligation bonds for the governmental activities to provide funds for the acquisition and construction of major capital facilities. The bonds are supported by a pledge of the District's full faith and credit and require a levy and collection of taxes without limitation as to rate or amount on all property subject to taxation by the District sufficient in amount to pay the principal and interest on such bonds as they become due. The indentures also require that a Debt Service Fund be created and administered by the District solely for paying principal and interest when due.

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

Bonded indebtedness of the District reflected in the General Long Term Debt and current requirements for principal and interest expenditures are accounted for in the Debt Service Fund. Total principal amount of Tax Bond indebtedness cannot exceed 10 percent of the taxable assessed valuation of property in the School District.

The District issued Unlimited Tax School Building Bonds, Series 2022 in the amount of \$46,060,000 with interest rates ranging from 4.0% to 5.0%. The proceeds will be used to construct school buildings. Project Fund Deposit was in the amount of \$48,795,000. The premium was in the amount of \$3,255,328. Cost of Issuance was in the amount of \$239,538 and \$280,039 in Underwriter's Discount.

J. Long-Term Obligations (Continued)

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended June 30, 2022 are as follows:

| Description | Rate Payable | Original Issue | Beginning Balance | Increases | Decreases | Ending Balance | Due Within One Year |
|---------------------------------------|-----------------------------|-------------------------------|----------------------|---------------|---------------|-------------------|------------------------|
| Unlimited Tax School | v | | | | 1.067.000 | | |

| | _ | | : | | | | |

Interest paid on bonded indebtedness during the current year was \$13,112,528.

J. Long-Term Obligations (Continued)

The following is a schedule of the required payments for these general obligation bonds:

| Year Ending | Capital Appreciation | | | | | | | |
|-------------|----------------------|-------------|----|-----------|----|-------------|----|-------------|
| June 30, | | Principal | | Bond | | Interest | | Total |
| 2023 | \$ | 20,485,000 | \$ | 1,743,250 | \$ | 13,747,949 | \$ | 35,976,199 |
| 2024 | | 21,275,000 | | 1,586,834 | | 13,795,825 | | 36,657,659 |
| 2025 | | 22,080,000 | | 1,446,720 | | 12,941,475 | | 36,468,195 |
| 2026 | | 18,750,000 | | 1,312,780 | | 12,119,800 | | 32,182,580 |
| 2027 | | 14,640,000 | | 1,195,634 | | 11,472,850 | | 27,308,484 |
| 2028-2032 | | 75,560,000 | | 1,087,013 | | 36,358,732 | | 113,005,745 |
| 2033-2037 | | 43,470,000 | | - | | 19,995,525 | | 63,465,525 |
| 2038-2042 | | 36,145,000 | | - | | 10,846,625 | | 46,991,625 |
| 2043-2047 | | 25,300,000 | | - | | 2,571,025 | | 27,871,025 |
| 2048 | | 2,975,000 | | - | | 59,500 | | 3,034,500 |
| | \$ | 280,680,000 | \$ | 8,372,231 | \$ | 133,909,306 | \$ | 422,961,537 |

Capital Appreciation Bonds

The total accretion of discount on capital appreciation bonds that is included in the June 30, 2022 ending balance of \$289,052,232 is \$8,372,231.

Defeased Bonds

In prior years, the District defeased certain general obligation bonds by placing the proceeds of the bonds in an irrevocable trust for all future debt service payments on the refunded bonds. Accordingly, liabilities for the defeased bonds are not included in the District's financial statements in the amount of \$148,907,452

K. Changes in Long-Term Liabilities

Long-term liability activity for the governmental activities as of June 30, 2022, was as follows:

| | Balance | Issued/Increase | Retired/Decrease | Balance | Amounts |
|----------------------------------|----------------|-----------------|------------------|----------------|---------------|
| | Outstanding | Current | Current | Outstanding | Due Within |
| Description | 7/1/2021 | Year | Year | 6/30/2022 | One Year |
| Loans | \$ 8,000,000 | \$ - | \$ 8,000,000 | \$ - | \$ - |
| Total Loans Payable | 8,000,000 | - | 8,000,000 | - | |
| General Obligation Bonds | 262,906,410 | 47,720,822 | 21,575,000 | 289,052,232 | 20,485,000 |
| Bonds Premium Amortization - Net | 36,808,570 | 3,255,328 | 3,710,160 | 36,353,738 | 3,588,156 |
| Total Bonds Payable | 299,714,980 | 50,976,150 | 25,285,160 | 325,405,970 | 24,073,156 |
| Other Liabilities | | | | | |
| Compensated Absences | 2,781,140 | 1,695,861 | 284,557 | 4,192,444 | 284,557 |
| Total Other Liabilities | 2,781,140 | 1,695,861 | 284,557 | 4,192,444 | 284,557 |
| Total Governmental Activities | | | | | |
| Long-term Liabilities | \$ 310,496,120 | \$ 52,672,011 | \$ 33,569,717 | \$ 329,598,414 | \$ 24,357,713 |

K. Changes in Long-Term Liabilities (Continued)

General Operating Fund is used to liquidate the liability for compensated absences. Mainly the General Operating Fund will liquidate the net pension liability and net OPEB liability in future years. Note O and Note T disclose details on these liabilities.

L. Accumulated State Personal and Sick Leave Benefits

Buy back of accrued sick leave at retirement – The District buys back accrued unused sick leave from employees when they retire from the District with full benefits under the Teacher Retirement System. Buy back of accrued leave is at the rates established in the District's Local Policy. This one-time-only benefit is available to employees who have served at least ten consecutive years in the District; however, the plan applies also to employees who die while employed in the District, regardless of the length of their employment, with payment made to the designated beneficiary.

Rate for professional employees – A professional employee who retires meeting the eligibility criteria specified above shall be paid for accumulated leave up to a maximum of 40 days of state/personal leave, of which 5 days are at 100% daily base rate, 10 days at 75% daily base rate, and 25 days at 50% of the daily base rate of pay; in addition, 40 days of local sick leave are at \$100 per day.

Rate for para-professional and auxiliary employees – A paraprofessional or auxiliary employee who retires meeting the eligibility criteria specified above shall be paid for accumulated leave up to a maximum of 80 days of leave combination of state/personal plus local leave, of which the first 10 days are at 100% daily base rate, the next 15 days are at 75% daily base rate, and the next 55 days are at 50% of the daily base rate of pay.

As of June 30, 2022, the balance for the State Personal and Sick Leave is \$4,192,444. The estimated amount due within a year is \$284,557. The General Fund and Special Revenue Funds, if allowed, are expected to pay for these.

M. Major Sources of Revenue from Local and Intermediate Sources

During the current year, revenues from local and intermediate sources consisted of the following:

| | General Fund | Debt Service Fund | EDA 2018 Series | EDA 2022 Series | Other Governmental Funds | Total |
|----------------------------------|-----------------|----------------------|--------------------|--------------------|--------------------------------|---------------|
| Property Taxes | \$ 23,615,395 | \$ 11,146,614 | - , | - | \$ - | \$ 34,762,009 |
| Penalties & Interest | 432,566 | 174,212 | - | - | - | 606,778 |
| Investment Income | 160,406 | 95,154 | 123,437 | 14,943 | 16,011 | 409,951 |
| Rental of Facilities & Insurance | 11,673 | - | - | - | 16,553 | 28,226 |
| Co-curricular | 187,119 | - | - | - | - | 187,119 |
| Webb County Permanent Fund | - | - | - | - | 1,171,778 | 1,171,778 |
| Miscellaneous | 2,506,204 | - | - | - | 1,329,605 | 3,835,809 |
| | \$ 26,913,363 | \$ 11,415,980 | \$ 123,437 | \$ 14,943 | \$ 2,533,947 | \$ 41,001,670 |

N. Risk Financing Activities

The District is exposed to various risks of loss related to torts, theft, damage, or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2022, the District purchased commercial insurance to cover these risks. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Workers' Compensation

The District was self-insured for workers' compensation claims in fiscal years 2002, 2003, and 2004. The following liabilities reported are based on the reserves that were earmarked through June 30, 2022. These reserves are estimates based on client's current medical condition and medical plan but may change as client's condition changes in either a positive or negative manner. Laredo ISD has partnered with Broadspire to manage the historical claims for clients. Broadspire will continue to perform the daily management of the client's medical treatment plan. Laredo ISD shall oversee the medical expenses periodically through client review on at least a quarterly basis to ensure efficient and effective expenditures. The medical expenditures of the client are based on client's current health but can change dependent on client's health. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. The District accounts for claim payments in the General Fund.

A summary of the workers' compensation claims aggregate for prior and current year is presented below:

| Year | Beginning of | Current Year | Claims | Balance at |
|-----------|--------------|--------------|----------|--------------|
| | Fiscal Year | Claims &/or | Payments | Fiscal Year- |
| | Liability | changes in | | End |
| | | Estimate | | |
| 2020-2021 | \$53,894 | - | \$2,510 | \$51,384 |
| 2021-2022 | \$51,384 | - | \$3,626 | \$47,758 |

Health Insurance

The claims for the health insurance liability of \$2,224,395 reported in the Health Plan Internal Service Fund at June 30, 2022 is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

N. Risk Financing Activities (Continued)

Changes in the Fund's claims liability amounts are as follows:

| | 2021 | 2022 |
|---------------------------------|--------------|--------------|
| Beginning of the year liability | \$ 1,139,856 | \$ 1,720,639 |
| | | |
| Current year claims | 21,222,379 | 21,386,121 |
| Changes in estimates | 580,783 | 943,592 |
| Claims payments | (21,222,379) | (21,825,957) |
| | | |
| End of year liability | \$ 1,720,639 | \$ 2,224,395 |

¹Claim liabilities are due within one year of the date of net position.

O. Defined Benefit Pension Plan

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS).

It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_publications.aspx, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

O. Defined Benefit Pension Plan (Continued)

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 through 2025. Contribution Rates can be found in the TRS 2021 ACFR, Note 11, on page 85.

| \sim | 4 •1 | 4 • | D 4 |
|----------------------|-------|-------|--------|
| ('An | trihi | ition | Rates |
| \sim \sim \sim | | ишчи | IXALUS |

| | <u>2021</u> | 2022 |
|--|-------------|--------------|
| Member | 7.70% | 8.00% |
| Non-Employer Contributing Entity (State) | 7.50% | 7.75% |
| Employers | 7.50% | 7.75% |
| Current Fiscal Year Employer Contributions | | \$9,649,931 |
| Current Fiscal Year Member Contributions | | \$15,613,160 |
| 2020 NECE On-Behalf Contributions | | \$8,547,841 |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

O. Defined Benefit Pension Plan (Continued)

• When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- The District shall contribute 1.5% of the member's salary beginning in fiscal year 2020, gradually increasing to 2% in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2019 actuarial valuation was determined using the following actuarial assumptions: Actuarial Assumptions can be found in the 2021 TRS ACFR, Note 11 page 87.

| Valuation Date | August 31, 2020 rolled forward |
|--|--------------------------------|
| | to August 31, 2021 |
| Actuarial Cost Method | Individual Entry Age Normal |
| Asset Valuation Method | Fair Value |
| Single Discount Rate | 7.25% |
| Long-term expected Investment Rate of Return | 7.25% |
| Inflation | 2.30% |
| Municipal Bond Rate as of August 2020 ¹ | 1.95% |
| Salary Increases Including Inflation | 3.05 to 9.05% |
| Last yr. ending Aug 31 in Projection Period (100 yrs.) | 2120 |
| Ad hoc Post Employment Benefit Changes | None |

¹Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions are used in determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. For a full description of these assumptions please see the actuarial valuation report dated November 9, 2020.

The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2018.

Discount Rate. A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020

O. Defined Benefit Pension Plan (Continued)

gradually increasing to 9.55% of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2021 (see page 53 of the TRS ACFR) are summarized below:

| | | Long-Term | |
|------------------------------|-------------------------|---------------------|-------------------|
| | | Expected | Expected |
| | FY 2021 | Arithmetic | Contribution to |
| Asset Class | Target | Real Rate of | Long-Term |
| Asset Class | Allocation ¹ | Return ² | Portfolio Returns |
| Global Equity | | | |
| U.S. | 18.0% | 3.60% | 0.94% |
| Non-U.S. Developed | 13.0% | 4.40% | 0.83% |
| Emerging Markets | 9.0% | 4.60% | 0.74% |
| Private Equity | 14.0% | 6.30% | 1.36% |
| Stable Value | | | |
| Government Bonds | 16.0% | -0.20% | 0.01% |
| Absolute Returns | 0.0% | 1.10% | 0.00% |
| Stable Value Hedge Funds | 5.0% | 2.20% | 0.12% |
| Real | | | |
| Return | | | |
| Real Estate | 15.0% | 4.50% | 1.00% |
| Energy, Natural Resources | 6.0% | 4.70% | 0.35% |

| Risk Parity | 8.0% | 2.80% | 0.28% |
| Leverage | | | |
| Cash | 2.0% | -0.70% | -0.01% |
| Asset Allocation Leverage | -6.0% | -0.50% | 0.03% |
| Inflation Expectation | | | 2.20% |
| Volatility Drag ³ | | | -0.95% |
| Total | 100% | | 6.90% |

¹Target allocations are based on the FY2021 policy model.

²Capital Market Assumptions come from Aon Hewitt (as of 08/31/2021)

³The volatility drag results from the conversion between arithmetic and geometric mean returns.

O. Defined Benefit Pension Plan (Continued)

Discount Rate Sensitivity Analysis. The following table presents the Net Pension Liability of the plan using the discount rate of 7.25%, and what the net pension liability would be if it were calculated using a discount rate that is 1% point lower (6.25%) or one percentage point higher (8.25%) than the current rate. The discount rate can be found in the 2021 TRS ACFR, Note 11, page 84.

| | 1% Decrease in Discount Rate (6.25%) | Discount Rate (7.25%) | 1% Increase in Discount Rate (8.25%) |
|--|--------------------------------------|-----------------------|--------------------------------------|
| District's proportionate share of the Net Pension Liability: | \$84,055,728 | \$38,466,646 | \$ 1,480,063 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a liability of \$38,466,646 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the collective net pension liability | \$ 38,466,646 |
|--|---------------|
| State's proportionate share that is associated with District | 51,009,846 |
| Total | \$ 89,476,492 |

The District utilizes funds based on employee assignments to liquidate the Pension liability through employer contributions in the payroll process. The majority of the liability is paid from General Fund and the remaining is from various federal/state grants.

The net pension liability was measured as of August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021 the employer's proportion of the collective net pension liability was 0.1510482597% which was a decrease of -0.0005389093% from its proportion measured as of August 31, 2020.

Changes since the Prior Actuarial Valuation. There were no changes in assumptions since the prior measurement date.

For the year ended June 30, 2022, the District recognized pension expense of \$2,456,626 and revenue of \$203,931 for support provided by the State.

O. Defined Benefit Pension Plan (Continued)

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------|-------------------------------|
| Differences between expected and actual economic experience | \$ 64,373 | \$ 2,708,082 |
| Changes in actuarial assumptions | 13,597,208 | 5,927,217 |
| Difference between projected and actual investment earnings | - | 32,253,784 |
| Changes in proportion and difference between the employer's contributions and the proportionate share of contributions | 613,030 | 2,957,080 |
| Total as of August 31, 2021 measurement date | 14,274,611 | 43,846,163 |
| Contributions paid to TRS subsequent to the measurement date | 8,588,847 | - |
| Total | \$ 22,863,458 | \$ 43,846,163 |

The net amounts of the employer's other balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30: | Pension Expense Amount |
|---------------------|------------------------|
| 2023 | \$ (5,192,029) |
| 2024 | (5,453,010) |
| 2025 | (8,150,726) |
| 2026 | (10,253,206) |
| 2027 | (436,358) |
| Thereafter | (86,223) |

P. Health Care Coverage

The District is self-funded with Blue Cross Blue Shield of Texas (BCBSTX) acting as the health plan administrator. BCBSTX as well as the local servicing agency, Laurel Insurance Agency, services the group health program. The District maintains both aggregate and individual stop-loss coverage for catastrophic losses. The stop loss contracts renew on a calendar year basis. From 1/1/22 through 12/31/22 the individual stop loss deductible was \$250,000 per individual.

The District contributed \$575.00 for all Teacher Retirement System (TRS) qualified employees towards the cost of participation in the Preferred Provider Organization (PPO) medical plan program from 1/1/2022 through 12/31/2022.

The District offered three (3) benefit plan options: Silver, Gold PPO, Gold HMO, (1/1/2022-12/31/2022) as well as four (4) tier coverage levels (Employee Only, Employee & Spouse, Employee & Children, Employee & Family) within each option. The District complies with all federal law and state laws, mandates or requirements in the administration and offering of its health plan.

P. Health Care Coverage (Continued)

The District's self-funded approach to financing its health plan has been very efficient and successful in that the District has been able to provide employees different choices of plans and levels of benefits, which comply with the TRS Comparability Program. Employee participation in the District's medical plan is at 2,766 employees as of June 30, 2022. Upon review by TRS, via the mandatory comparability reporting requirements, it was determined that the District satisfied all of the reporting requirements of the Education code for the ongoing required comparability study. It was determined that our District makes available to all employees group health coverage that is comparable to the basic health coverage provided to state employees under the Texas Employees Uniform Group Insurance Benefits Act. The Health Plan Internal Service Fund reports a liability of \$2,224,395 as of June 30, 2022 (See Note N).

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. In accordance with GASB Statement No. 24, the District has recognized as revenues and expenditures, contributions made by the State to TRS on-behalf of the district's employees. For the year ended June 30, 2022, the state made contributions of \$748,627 related to on-behalf Medicare Part D payments. These revenues equal expenditures and are reflected in the fund financial statements for the General Fund.

Q. Construction Commitments

As of June 30, 2022, the District was obligated under the terms of various agreements for the construction of the following projects:

| | | | C | ommitment | Retainage |
|------------------|---------------------------------------|---|---|---|---|
| Contract | | Paid to | | Balance | Payable |
| Amount | | Date | 1 | Remaining | Amount |
| \$ 95,369,161 | \$ | 41,400,247 | \$ | 53,968,914 | \$ 3,704,821 |
| 345,723 | | 200,635 | | 145,088 | - |
| 3,831,289 | | 2,290,064 | | 1,541,225 | |
| \$ 99,546,173 | \$ | 43,890,946 | \$ | 55,655,227 | \$ 3,704,821 |
| \$ | \$ 95,369,161 345,723 3,831,289 | Amount \$ 95,369,161 \$ 345,723 3,831,289 | Amount Date \$ 95,369,161 \$ 41,400,247 345,723 200,635 3,831,289 2,290,064 | Contract Paid to Amount Date I \$ 95,369,161 \$ 41,400,247 \$ 345,723 200,635 2,290,064 | Amount Date Remaining \$ 95,369,161 \$ 41,400,247 \$ 53,968,914 345,723 200,635 145,088 3,831,289 2,290,064 1,541,225 |

R. Commitments and Contingencies

1. Contingencies

The District participates in grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collection of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

R. Commitments and Contingencies (Continued)

2. Litigation

The District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any present legal proceedings will not have any material adverse effect on the financial condition of the district. Accordingly, no provision for losses has been recorded in the accompanying financial statements for such contingencies.

S. Fund Balance

Minimum fund balance policy. The Board of Trustees has adopted a financial policy to maintain a minimum level of unassigned fund balance in the general fund. The target level is set at two months of general fund operations costs. This amount is intended to provide fiscal stability when economic downturns and other unexpected events occur. To achieve or maintain this goal, the Superintendent and Assistant Superintendent for Finance and Business Services are instructed to follow a financial plan. The policy provides for actions to implement this financial plan.

As of June 30, 2022, the District has classified its Committed and Assigned Fund Balances as follows:

| Committed Fund Balance | General Funds | Nonmajor Funds | Total Governmental Funds |
|---|------------------|-------------------|--------------------------------|
| Other Committed Fund Balance | | | |
| E-Rate projects | \$ 1,329,203 | \$ - | \$ 1,329,203 |
| Secondary band instruments | 7,713 | - | 7,713 |
| Secondary Marachi / Orchestra supplies | 21,183 | - | 21,183 |
| Stabilization arrangement ¹ | 1,155 | - | 1,155 |
| Capital Improvement Plan | 790,500 | - | 790,500 |
| Disaster Pennies projects | 8,894,991 | - | 8,894,991 |
| Campus activity funds | | 360,141 | 360,141 |
| Total Other Committed Fund Balance | \$11,044,745 | \$ 360,141 | \$ 11,404,886 |
| Assigned Fund Balance | | | |
| Other Assigned Fund Balance | | | |
| Incentive hoodies | \$ 73,982 | \$ - | \$ 73,982 |
| School logo wraps | 80,000 | - | 80,000 |
| Cheerleader floor mats for Secondary schools | 17,200 | - | 17,200 |
| High School vehicle certifications | 5,208 | - | 5,208 |
| Districtwide attendance incentives | 10,000 | - | 10,000 |
| Lifeguard certifications for ROTC instructors | 240 | - | 240 |
| Construction proj. & acquisition of real property | 567,345 | - | 567,345 |
| Surveys and replat services | 62,220 | - | 62,220 |
| Canopy repairs | 9,807 | - | 9,807 |
| District-Wide Projects | 1,358,667 | 23,544 | 1,382,211 |
| Total Other Assigned Fund Balance | \$ 2,184,669 | \$ 23,544 | \$ 2,208,213 |

S. Fund Balance (Continued)

Stabilization arrangement. On September 17, 2019, the Board of Trustees approved the establishment of the stabilization arrangement in the general fund. The principal resource for this stabilization arrangement was derived from the excess revenue due to short year revenue funds for the fiscal year ended June 30, 2019. Stabilization amounts are reported in the general fund as other committed fund balance.

The criteria for the use of the stabilization arrangement was established for the following purposes:

For Major Emergent Operating Issues - the District is exposed to major non-reoccurring costs related to various emergency events or situations as a result of catastrophic events. These emergent situations cannot be anticipated and budgeted for and it is not feasible to absorb the cost of such events in other budget areas in any given year. These emergent situations should fit the definition of a catastrophe as defined below:

- Fire, flood, earthquake, hurricane, tornado, or wind, rain, or snow storm;
- Power failure, transportation failure, or interruption of communication facilities;
- Epidemic; or
- Riot, civil disturbance, enemy attack, or other actual or threatened act of lawlessness or violence.

For One-Time and Intermittent Projects - the District undertakes certain one-time and/or intermittent projects that are larger in terms of costs. If these projects were funded from state aid and tax collections, annual spikes and subsequent declines may result; therefore, it is not prudent to fund these projects from current funding sources. These funds will be used to cover the underfunded costs of projects when such costs are 5% or more of the total project cost.

T. Defined Other Post-Employment Benefit Plans

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

T. Defined Other Post-Employment Benefit Plans (Continued)

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

| TRS-Care Monthly Premium Rates | | | | |
|--------------------------------|----------|-------|--------------|-----|
| | Medicare | | Non-Medicare | |
| Retiree or Surviving Spouse | \$ | 135 | \$ | 200 |
| Retiree and Spouse | | 529 | | 689 |
| Retiree or Surviving Spouse | | | | |
| and Children | | 468 | | 408 |
| Retiree and Family | | 1,020 | | 999 |

Contribution. Rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the district. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

2022

| (| <u>Contri</u> | bu | tıon | Kai | <u>tes</u> |
|---|---------------|----|------|-----|------------|
| | | | | | |

| | <u> 2022</u> |
|---|--------------|
| Active Employee | 0.65% |
| Non-Employer Contributing Entity (State) | 1.25% |
| Employers | 0.75% |
| Federal/private Funding remitted by Employers | 1.25% |
| | |
| Current Fiscal Year Employer Contributions | \$ 2,118,430 |
| Current Fiscal Year Member Contributions | \$ 1,275,808 |
| 2021 NECE On-behalf Contributions | \$ 2,122,374 |
| | |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

T. Defined Other Post-Employment Benefit Plans (Continued)

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$5,520,343 in fiscal year 2021 for consumer protections against medical and health care billing by certain out-of-network providers.

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2021. The actuarial valuation was determined using the following actuarial assumptions: Actuarial Assumptions can be found in the 2021 TRS ACFR, Note 9, page 76.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in experience study performed for TRS for the period ending August 31, 2017. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2020, TRS pension actuarial valuation that was rolled forward to August 31, 2021:

- Rates of Mortality
- Rates of Retirement
- Rates of Termination
- Rates of Disability
- General Inflation
- Wage Inflation

Additional Actuarial Methods and Assumptions:

Valuation Date August 31, 2020, rolled forward to

August 31, 2021

Actuarial Cost Method Individual Early Age Normal

Inflation 2.30%

Single Discount Rate¹
Aging Factors

1.95% as of August 31, 2021
Based on plan specific experience

Expenses Third-party administrative expenses related to

the delivery of health care benefits are included

in the age-adjusted claims costs.

Projected Salary Increases² 3.05% to 9.05% Healthcare Trend Rates³ 7.10% to 8.50%

Election Rates Normal Retirement: 65% participation prior to

age 65 and 40% participation after age 65.

Ad hoc post-employment benefit changes None

¹There was a decrease of .38% from the previous year. Because the plan is pay-as-you-go plan, the single discount rate is equal to the prevailing municipal bond rate.

²Includes Inflation increases

³Initial trend rates were 8.50% for Medicare retirees and 7.10% for non-Medicare retirees. Initial prescription drug trend rate of 8.5% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.

T. Defined Other Post-Employment Benefit Plans (Continued)

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from the most recently published scale MP-2018.

Discount Rate. A single discount rate of 1.95% was used to measure the total OPEB liability. There was a decrease of .38% in the discount rate since the previous year. *The Discount Rate can be found in the 2021 TRS ACFR on page 77*. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity "20 year Municipal GO AA Index" as of August 31, 2021 using the Fixed-Income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that included only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (1.95%) in measuring the Net OPEB Liability.

| | 1% Decrease in Discount Rate (.95%) | Current Single Discount Rate (1.95%) | 1% Increase in Discount Rate (2.95%) |
|---|-------------------------------------|---|--------------------------------------|
| District's proportionate share of the Net OPEB Liability: | \$94,350,101 | \$78,218,970 | \$65,523,245 |

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2022, the District reported a liability of \$78,218,970 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the collective net OPEB liability | \$78,218,970 |
|---|---------------|
| State's proportionate share that is associated with District | 104,795,988 |
| Total | \$183,014,958 |

T. Defined Other Post-Employment Benefit Plans (Continued)

Healthcare Cost Trend Rates Sensitivity Analysis. The net OPEB liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the Total OPEB Liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021, the employer's proportion of the collective net OPEB liability was 0.2027739401%, which was a decrease of -0.0054309977% from its proportion measured as of August 31, 2020.

The following presents the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed 8.5% rate used.

| | 1% Decrease in | Current Single | 1% Increase in |
|---|-----------------------|-----------------------|-----------------------|
| | Healthcare Trend Rate | Healthcare Trend Rate | Healthcare Trend Rate |
| District's proportionate share of the Net OPEB Liability: | \$63,354,774 | \$78,218,970 | \$98,163,029 |

Changes since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period: *These can be found in the 2021 TRS ACFR on page 77.*

• The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021. This change increased the TOL.

Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement period.

For the year ended June 30, 2022, the District recognized OPEB expense of -\$7,325,666 and revenue of -\$3,867,772 for support provided by the State.

At June 30, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

| | Deferred Outflows | Deferred Inflows |
|--|-------------------|------------------|
| | of Resources | of Resources |
| Differences between expected and actual economic experience | \$ 3,367,697 | \$ 37,863,453 |
| Changes in actuarial assumptions | 8,663,669 | 16,541,864 |
| Difference between projected and actual investment earnings | 84,920 | - |
| Changes in proportion and difference between the employer's contributions and the proportionate share of contributions | 1,227,325 | 6,022,902 |
| Contributions paid to TRS subsequent to the measurement date | | |
| | 1,851,882 | |
| Total | \$ 15,194,839 | \$ 60,428,219 |

T. Defined Other Post-Employment Benefit Plans (Continued)

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year ended June 30: | OPEB Expense Amount |
|---------------------|----------------------------|
| 2023 | (\$8,824,269) |
| 2024 | (\$8,826,184) |
| 2025 | (\$8,825,660) |
| 2026 | (\$6,766,728) |
| 2027 | (\$3,979,299) |
| Thereafter | (\$9,862,468) |

U. Shared Service Arrangements

The Laredo Independent School District (LISD) participates in the Regional Day School Program for the Deaf (RDSPD), a shared service arrangement with school districts: United Independent School District (UISD), Jim Hogg County Independent School District (JHCISD), and Webb Consolidated Independent School District (WCISD). The District is acting as the fiscal agent for the parties involved. The purpose of the Laredo Independent School District RDSPD is to serve students who are auditory impaired and between the ages of 0 and 21. Funding for the LISD RDSPD is provided by TEA and by the member Districts. Revenue from the respective member Districts is presented below:

| LISD | \$ 208,971 |
|--------|---------------|
| UISD | 567,428 |
| JHCISD | 24,000 |
| WCISD | 16,000 |
| | \$ 816,399 |

As a fiscal agent, LISD RDSPD is responsible for reporting all financial activities of the shared service arrangement. The District accounts for the activity in Special Revenue Fund 435.

LAREDO INDEPENDENT SCHOOL DISTRICT NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2022

A. Budgetary Information

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund (which is included in the General Fund). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 in RSI and the other two reports are in Exhibit J2 and J3.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

- 1) Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2) A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
- 3) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end. During the year, several amendments were necessary.
- 4) Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund, General Fund Food Service, and Debt Service Fund. The Food Service Fund is accounted in the general fund. A more detailed budget versus actual presentation for the Food Service Fund is reported as supplementary information to demonstrate legal compliance at the legal level of budgetary control.
- 5) Each annual budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America. The budget was properly amended throughout the year by the Board. Expenditures may not legally exceed budgeted appropriations at the function level.
- 6) Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year-end.
- 7) The Non-Major Special Revenue Funds, the EDA 2018 Series, the EDA 2022 Series, and the Non-Major Capital Projects Funds adopt project-length budgets which do not correspond to the District's fiscal year. These funds are not legally required to adopt a budget, therefore budgetary comparison information is not presented.

LAREDO INDEPENDENT SCHOOL DISTRICT SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TEACHER RETIREMENT SYSTEM OF TEXAS FOR THE YEAR ENDED JUNE 30, 2022

LAREDO INDEPENDENT SCHOOL DISTRICT NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2022

A. TRS Pension

1. Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the Total Pension Liability during the measurement period.

2. Changes in Assumptions

There were no changes in assumptions since the prior measurement date.

B. TRS OPEB Plan

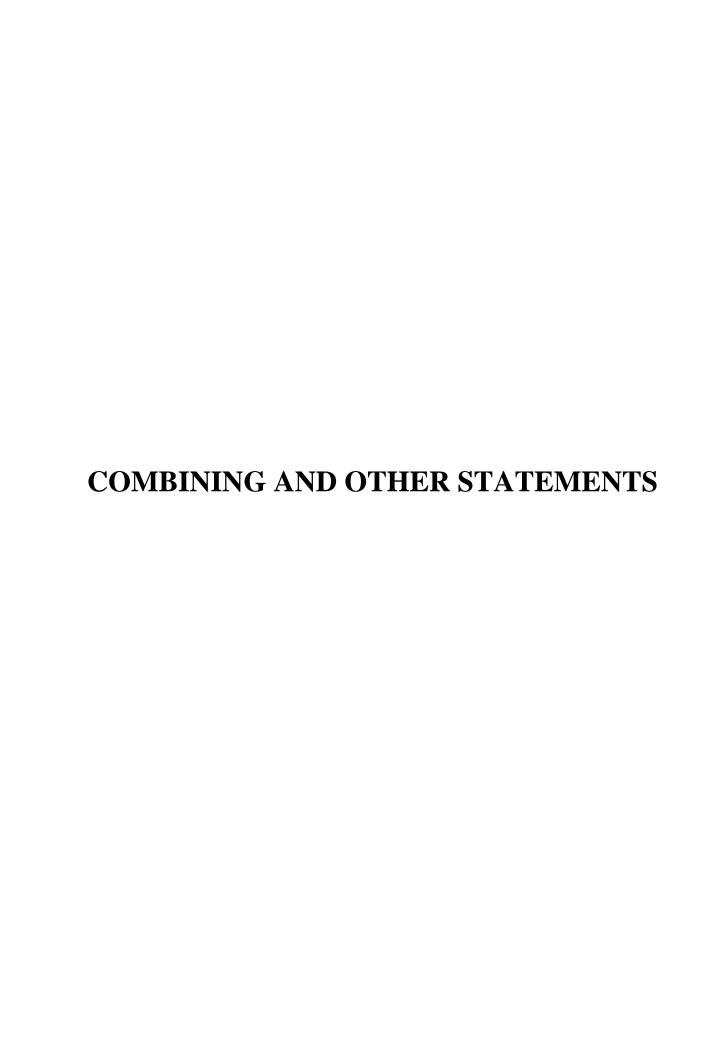

1. Changes of Benefit Terms

Change of Benefit Terms Since the Prior Measurement Date – There were no changes of benefit terms since the prior measurement period.

2. Changes in Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of Total OPEB Liability (TOL) since the prior measurement period:

1. The discount rate changed from 2.33 percent as of August 31, 2020, to 1.95 percent as of August 31, 2021. This change increased the Total OPEB Liability.

Special Revenue Funds are used to account for resources restricted to specific purposes by a grantor or for purposes committed by the Board of Trustees. Federal financial assistance often is accounted for in a Special Revenue Fund. In most Special Revenue funds, unused balances are recorded as unearned revenue and carried forward to the succeeding fiscal year, provided the amount carried forward is within the limits established by the grantor. The District budgets for Special Revenue Funds as grants are awarded by the various grantors. The District uses project accounting for them in order to maintain integrity for the various sources of funds. These funds utilize the modified accrual basis of accounting and budgeting. Included in the District's Special Revenue Funds are:

206 ESEA, Title X, Part C - Homeless Education

Texas Education for Homeless Children and Youth (TEHCY), as reauthorized by Title IX, Part A, of the Every Student Succeeds Act (ESEA) facilitates the identification, enrollment, attendance and academic success of homeless children and youth by removing barriers and promote school stability for students experiencing homelessness.

211 ESEA, Title I, Part A – Improving Basic Programs

This fund classification is to provide supplemental resources to LEAs beyond local and state funds. The funds, based on specific formulas, flow at each level from the United States Department of Education (USDE) to each state education agency, (The Texas Education Agency (TEA) in Texas). The intent and purpose of Title I, Part A, is to provide-supplemental resources to LEA's to help schools with high concentrations of students from low-income families to provide high-quality education that will enable all children to meet the state student performance standards.

212 ESEA, Title I, Part C - Education of Migratory Children

This fund classification supports high quality education programs for migratory children and help ensure that migratory children who move among the states are not penalized in any manner by disparities among states in curriculum, graduation requirements, or state academic content and student academic achievement standards. The funds ensure that migratory children receive full and appropriate opportunities to meet the same challenging state academic achievement and support programs that help migrant students overcome the challenges of mobility, cultural and language barriers, social isolation, and other difficulties associated with a migratory lifestyle.

224 IDEA, Part B – Formula

This fund classification is to be used to account, on a project basis, for funds granted to operate educational programs for children with disabilities.

225 IDEA, Part B - Preschool

This fund classification is to be used to account, on a project basis, for funds granted for preschool children with disabilities.

226 IDEA, Part B - Discretionary (Deaf)

This fund classification is to be used to account for funds granted to provide special education and related services to children with disabilities ages 3-21 in a Regional Day School Program for the Deaf.

242 Summer Feeding Program, Texas Department of Agriculture (TDA)

This fund classification is to be used to account, on a project basis, for funds received from the Department of Human Services that are awarded for meals provided to the community based on the average number of daily participants. This fund should be used regardless of whether a school district's National School Breakfast and Lunch Program is accounted for in the General Fund (101), a Special Revenue Fund (240) or an Enterprise Fund (701).

244 Perkins V: Strengthening CTE for 21st Century

This fund classification is to develop the academic, career, and technical skills of secondary students who enroll in CTE programs by assisting CTE students in meeting challenging academic and technical standards. Fund supports the preparation for high skill, high wage, or high demand occupations by promoting the integration of academic, career, and technical instruction that links secondary and postsecondary education for CTE students. Fund increases flexibility in providing services and activities designed to develop, implement, and improve CTE programs.

255 ESEA, Title II, Part A – Supporting Effective Instruction

This fund classification is to increase student achievement consistent with the challenging State academic standards and improve the quality and effectiveness of teachers, principals, and other school leaders. The funds increase the number of effective teachers, principals, and other school leaders who are effective in improving student academic achievement in schools and provide low-income and minority students' greater access to effective teachers, principals, and other school leaders. The intent of the funding is to support educators in their work to improve the overall quality of instruction and ensure equity of educational opportunity for all students.

263 ESEA, Title III, Part A – English Language Acquisition

This fund classification is to be used to account, on a project basis, for funds granted to improve the education of limited English proficient children, by assisting the children to learn English and meet challenging State academic content and student academic achievement standards.

274 College Now – Career Connected!

This fund classification is to be used to account for funds granted to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. An entire cohort of students are served beginning no later than the seventh grade and followed through high school.

280 ARP Homeless II

This fund classification is to increase the school district capacity to identify, enroll, and provide wraparound services to address the unique needs of homeless children and youth due to the impact of COVID-19 pandemic.

281 ESSER II CRRSA

The intent and purpose of the CRRSA Act of 2021, ESSER II funding is to prevent, prepare for, or respond to the COVID-19 pandemic, including its impact on the social, emotional, mental health, and academic needs of students.

282 ESSER III ARP Act

This fund classification is to be used to account for funds granted to safely reopen schools, sustain safe school operations, and address student's academic needs, social, emotional, and mental health resulting from the COVID-19 pandemic.

284 IDEA, Part B – Formula-ARP

This fund classification is to be used to account, on a project basis, for funds granted to operate educational programs for children with disabilities under the American Rescue Plan Act of 2021, to provide critical and unprecedented support to children, families and community in response to the COVID-19 pandemic.

285 IDEA, Part B - Preschool-ARP

This fund classification is to be used to account, on a project basis, for funds granted for preschool children with disabilities under the American Rescue Plan Act of 2021, to provide critical and unprecedented support to children, families and community in response to the COVID-19 pandemic.

288 HHS Cares Act Provider Relief Grant

This fund classification is to be used to account, on a project basis, for funds granted to provide financial support to providers who experienced lost revenues and increased expenses during the pandemic attributable to coronavirus.

289 Other Federal Special Revenue Funds

These funds are to be used to account, on a project basis, for federally funded special revenue funds that have not been previously mentioned.

| • | 289-000 | ESSA, Title IV, Part A – Student Support and Academic Enrichment |
|---|---------|--|
|---|---------|--|

- 289-SSV Stop School Violence Mental Health Cycle Grant
- 289-LSS 2020-2021 Lone Star Stem Cycle 3 Year 1 Grant
- 289-HSG COVID-19 School Health Support Grant

397 Advanced Placement Incentives

This fund classification is to be used to recognize and reward those students, teachers, and schools that successfully achieve the educational goals of the state. The subsidies and awards granted are for the purpose of promoting academic enhancement.

410 Instructional Materials Allotment

This fund classification is to be used to account, on a project basis, for funds awarded to school districts to purchase technological software, equipment, or textbooks that contribute to student learning, or to pay for training for educational personnel involved in the use of these materials.

429 Other State Special Revenue Funds

State funded special revenue funds not listed above are to be accounted for in this fund.

| • | 429-SEG | Summer | Career | Technical | Education | Grant |
|---|---------|--------|--------|-----------|-----------|-------|
|---|---------|--------|--------|-----------|-----------|-------|

• 429-JET Jobs and Education for Texans Grant

• 429-RTR Read to Succeed Grant

• 429-SSS School Safety Grant

• 429-3ES 3 E-S Grant

435 Regional Day School for the Deaf

This fund classification is to be used by the fiscal agent of a shared services arrangement to account, on a project basis for funds allocated for staff and activities of the Regional Day School Program for the Deaf (RDSPD). These funds are not to be used to pay salaries of teachers with a teaching assignment other than deaf students in the RDSPD. State Deaf funds should not be used to pay the salary of teachers of American Sign Language as a foreign language at the junior high or high school level, as this is a course for regular education credit.

461 Campus Activity

This fund classification is to be used to account for transactions related to a principal's activity fund if the monies generated are not subject to recall by the school district's board of trustees into the General Fund.

482 Dr. Hochman Classroom Grant

This fund classification is to be used to account for awards granted to teachers on a need basis allowing purchases for educational materials and supplies.

483 Equitable Sharing Program

This fund classification is to be used to account, on a project basis, for funds awarded to the Laredo ISD Police Department for law enforcement investigations, training, equipment, travel, awareness, gang education and awareness programs.

484 OCDETF (Organized Crime Drug Enforcement Task Force) Grant

This fund classification is used to account, on a project basis, for funds granted to the Laredo ISD Police Department for overtime and/or other costs associated with law enforcement.

488 Advertising

This fund classification is to be used, on a project basis, to account for proceeds from advertising activities and to earmark the proceeds. Promote school projects and educational programs that directly benefit students.

490 Dennis Nixon Performing Arts Center

This fund classification is to be used to account for admission fees from the Aquatic Center and the disbursements for its operation and maintenance.

492 Patrick Leahy Bulletproof Vest Partnership Grant

This fund classification is to be used to account for the BVP program from the Office of Justice Programs to reimburse up to 50% of the cost of body armor vests purchased for law enforcement officers.

497 AEP Foundation Grant

This fund classification is to be used to account for funds awarded to Laredo ISD from the AEP Foundation Credits Count Grant. The AEP Foundation funds will support STEM exploration for students at three middle schools; readiness assessments for 9th and 10th graders; summer bridge program at Laredo College; dual credit college courses for 9th and 10th grade students; scholarships and books and professional development opportunities for faculty.

499 Locally Funded Special Revenue Funds

Locally funded special revenue funds not listed above are to be accounted in this fund.

• 499 Strength Breakfast Grant

616 Capital Projects Fund

This fund classification accounts for local revenues and expenditures related to construction and other capital asset acquisitions.

694 EDA Series 2014 Fund

This fund classification accounts for proceeds from sales of bonds and related interest earnings and expenditures related to construction, renovation, acquisition, and equipping facilities.

1000 TOTALS

Column 10 + Column 20 - Column 31 - Column 32 + Column 40 = Column 50

Column 3 - Assessed /Appraised Value for School Tax Purposes: This is the net appraised value, after deductions of all exemptions, and tax freeze amounts and reductions provided by law and those granted by the district, based on Maintenance Requirements.

Column 20 - Current Year's Tax Levy: This amount is calculated by multiplying tax rate(s) times the applicable Assessed/Appraised Value(s) in column 3.

Column 31 & 32 - Total Collections: These are total collections net of adjustments described in column 40, according to each year of tax levy, which do NOT include penalty and interest.

Column 40 - Entire Year's Adjustments: Total adjustments include corrections for errors in taxes assessed, taxes lost due to tax freeze, and discounts allowed for early payment of taxes.

Column 50 - Ending Balances 6/30/22: This total agrees with Exhibit A-1, Balance Sheet, memorandum totals for current year, for Asset Code 1220 - Property Taxes Delinquent.

² House Bill 98 enacted by the 76th Legislature of the state of Texas allowed school districts to change their fiscal year-end from August 31 to June 30 beginning with the 2001-2002 fiscal year. The District elected to take advantage of this opportunity and chose to change its fiscal year beginning with the 2018-2019 reporting period. Fiscal years 2018 and prior ended on August 31; however, for 2019, the fiscal period consisted of the ten-month period of September 1, 2018 through June 30, 2019.

| noncapital expenditures ¹ | 13.71% | 7.31% | 10.14% | 9.84% | 10.48% | 10.19% | | 3.08% | 10.35% | 10.89% | 11.87% |

¹ Percentage was calculated as follows: (Debt Service Principal + Interest Payments) / (Total Expenditures - Capital) (27,830,000 + 13,112,528) / (393,384,575 - 48,319,893) Capital Assets increased by \$48,319,893. See Note B and Note G to the Basic Financial Statements.

² House Bill 98 enacted by the 76th Legislature of the state of Texas allowed school districts to change their fiscal year-end from August 31 to June 30 beginning with the 2001-2002 fiscal year. The District elected to take advantage of this opportunity and chose to change its fiscal year beginning with the 2018-2019 reporting period. Fiscal years 2018 and prior ended on August 31; however, for 2019, the fiscal period consisted of the ten-month period of September 1, 2018 through June 30, 2019.

| Total Direct and Overlapping Debt | | | \$ | 553,819,841 |

Sources: Taxable value data used to estimate applicable percentages provided by the Webb County Property Appraiser. Debt outstanding data provided by each governmental unit.

Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

¹ The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the District's boundaries and dividing it by the overlapping taxing authority's total taxable assessed value.

Notes:

Currently, outstanding tax supported debt is supported with funds received by either the Existing Debt Allotment Program or the Instructional Facilities Allotment Program from the Texas Education Agency. Both the Existing Debt Allotment Program and the Instructional Facilities Allotment Program are subject to biennial appropriation by the Texas Legislature. The District's Bond Series 2013, 2014, 2018 as well the 2014, 2015, 2020 and 2021 Refunding Bonds are secured by the Permanent School Fund Guarantee.

¹ The taxable value shown here will not match the values reported by the Comptroller of Public Accounts.

² Enrollment is as of the October reporting date to TEA through the Public Education Information System(PEIMS).

³ House Bill 98 enacted by the 76th Legislature of the state of Texas allowed school districts to change their fiscal year-end from August 31 to June 30 beginning with the 2001-2002 fiscal year. The District elected to take advantage of this opportunity and chose to change its fiscal year beginning with the 2018-2019 reporting period. Fiscal years 2018 and prior ended on August 31; however, for 2019, the fiscal period consisted of the ten-month period of September 1, 2018 through June 30, 2019.

⁴ Texas County Profile

⁵ Open Data Network

⁶ FRED Economic Data | St. Louis Fed

As per the Texas Demographic Center, following the release of the 2018 population projections, they observed anomalies in the projections of the **non-Hispanic Asian** and **non-Hispanic Other** populations in a few countries. They have revised their projections to address this issue. The new updates **do not affect** the non-Hispanic **White**, non-Hispanic **Black**, or the **Hispanic** populations and have a **minimal impact** on the **state total population**.

Total Square Footage (2): Total Minimum Capacity (3): Total Enrollment (4): Total Capacity Utilization (5): 3,688,603 30,880 19,751 64%

⁽¹⁾ Source: District records (latest new replacements, additions and modifications)
(2) Square Footage comprises the total enclosed space of each campus based on construction plans
(3) Maximum Capacity is a calculation based on Texas Administrator Code requirements
Note: Room size requirements are based on rooms that will house 22 students at the elementary level and 25 students at the middle or high school level (19 TAC Chapter 61, Subchapter CC)
(Lara Academy = 15/1)
(4) Enrollment is the ending enrollment as of the end of the school year 2021-2022 (based on Finance Department report (PEIMS DATA))
(5) Capacity Utilization is a calculation diving Total Enrollment by Total Capacity, less enrollment at Special Campuses
(6) Enrollment included with home campus
(7) Statistical schedule provided from the Laredo Independent School District Construction Department.

- (1) Source: District records (latest new replacements, additions and modifications)
- (2) Square Footage comprises the total enclosed space of each campus based on construction plans
 (3) Maximum Capacity is a calculation based on Texas Administrator Code requirements

Note: Room size requirements are based on rooms that will house 22 students at the elementary level and 25 students at the middle or high school level (19 TAC Chapter 61, Subchapter CC) (Lara Academy = 15/1)
(4) Enrollment is the ending enrollment as of the end of the school year 2018-2019 (based on Finance Department report (PEIMS DATA))

- (5) Capacity Utilization is a calculation diving Total Enrollment by Total Capacity, less enrollment at Special Campuses
- (6) Enrollment included with home campus
 (7) Statistical schedule provided from the Laredo Independent School District Construction Department.

(B)House Bill 98 enacted by the 76th Legislature of the state of Texas allowed school districts to change their fiscal year-end from August 31 to June 30 beginning with the 2001-2002 fiscal year. The District elected to take advantage of this opportunity and chose to change its fiscal year beginning with the 2018-2019 reporting period. Fiscal years 2018 and prior ended on August 31; however, for 2019, the fiscal period consisted of the ten-month eriod of September 1, 2018 through June 30, 2019.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Laredo Independent School District Laredo, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 9, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Laredo Independent School District Laredo Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

LAREDO INDEPENDENT SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2022

A. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Laredo Independent School District under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

The District utilizes the fund types specified in the Texas Education Agency's Financial Accountability System Resource Guide (FASRG).

- **General Fund** is accounted for, among other things, resources related to the United States Department of Defense ROTC program.
- Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.

B. Summary of Significant Accounting Policies

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All federal grant funds were accounted for in a Special Revenue Fund, or in some instances, in the General Fund which are Governmental Fund type funds.

With this measurement focus, only current assets and current liabilities and the fund balance are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual (i.e., both measurable and available), and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable, available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant and, accordingly, when such funds are received in advance of the expenditures, they are recorded as deferred revenues until earned.

LAREDO INDEPENDENT SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2022

B. Summary of Significant Accounting Policies (Continued)

The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, 3 CFR Section 200.343(b).

C. Indirect Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Indirect cost reimbursement for federal program for this fiscal year was received in the amount of \$3,408,169.

D. Reconciliation from the Schedule of Expenditures of Federal Awards to the Exhibit C-3

Federal revenues in the General Fund consist of amounts attributed to the National School Lunch Program, the ROTC Program, and the Medicaid Administrative Program. Expenditures are not specifically attributable to these revenue sources and are shown as amounts equal to federal revenues. The revenue for indirect costs is recognized in the General Fund. Additionally, the SHARS Program is accounted for in the General Fund. SHARS revenue is not considered federal financial assistance, and is therefore, not included in the schedule.

| Amount reported on the Schedule of Expenditures of Federal Awards, Exhibit K-1 | \$101,399,800 |
|--|---------------|
| School Health and Related Services (SHARS) Revenue reported in General Fund | 2,428,060 |
| Federal Program Revenue Reported on Exhibit C-3 | \$103,827,860 |
