

ADMINISTRATIVE COMMITTEES

The School Board authorizes the Superintendent to establish such permanent or temporary committees as necessary for the administration of School Board policies and for the improvement of the total educational program.

All committees created by the Superintendent shall be for the purpose of obtaining the advice and counsel of administrative and supervisory personnel of the district and to aid in district communication. Functioning in an advisory capacity, such groups may make recommendations for submission to the School Board through the superintendent. However, such groups shall exercise no inherent authority. Authority for establishing policy remains with the School Board and authority for implementing policy with the Superintendent.

The membership, composition, and responsibilities of administrative committees shall be defined by the Superintendent and may be changed at his/her discretion.

Expenses incurred by such groups for consultative services, materials, and any investigative travel shall be paid from the general operating funds of the district, but only when they are within allotments and approved by the Superintendent in advance.
