

SCHOOL LIBRARIES AND MEDIA CENTERS

The School Committee believes that libraries/media centers are a fundamental part of the educational process. The availability of many materials in a variety of formats presents to students and teachers the possibility of selecting the media best suited for individual need and mode of learning.

All schools of the district shall have access to libraries/media centers staffed by qualified personnel. Students and staff member may obtain a variety of books, periodicals, and references in printed as well as other materials.

Each school building administrator shall develop specific rules and regulations regarding students' use of libraries/media centers, including hours, loan periods, fees, and fines.

Adoption Date: March 1, 1993

Effective Date: March 1, 1993
