

## STAFF PROTECTION

The school district will be vigorous in its protection of all employees from physical and/or psychological abuse.

Any employee who is threatened with harm is to notify his or her principal or supervisor immediately, and steps are to be taken at once to protect the employee's safety.

Public policy and the statutes provide that the School Committee will protect its employees against claims that may be entered against them as a result of carrying out their assigned responsibilities.

To protect its own financial resources as well, the School Committee will provide for sufficient liability coverage for personnel, workmen's compensation coverage, malpractice insurance as found needed, and unemployment compensation insurance.

Adoption date: February 1, 1993

Effective date: February 1, 1993
