2 **Handbooks**

3
4 The school district’s handbooks for students and staff are intended to convey
5 information and explain school regulations and procedures that are
6 necessary for the school to run smoothly and efficiently. Although the board
7 of education may take action to approve the handbooks annually, the
8 administration has the authority to change the contents of any handbook so
9 long as the changes are consistent with board policy.

10
11 None of the district’s handbooks creates a “contract” between the school
12 district, staff members, parents or students.

13
14 If any information contained in any handbook conflicts with board policy or
15 state statute, the policy or statute will govern.
