3 **Resolution of Conflicts Between Parents Over School Issues**
4

5 It is in students' best educational interests to have parents work
6 cooperatively with each other and with school personnel regarding their
7 children's education. In certain circumstances, parents disagree with each
8 other regarding their children's education or other issues involved with the
9 school district. Though such disagreements typically occur with separated or
10 divorced parents, this regulation is not limited to those circumstances.

11
12 1) Obtaining Records and Conferring with Teachers.
13

14 All parents can obtain their children's records and meet with their children's
15 teachers regardless of custody or visitation rights unless a court enters an
16 order otherwise or their parental rights have been terminated. The district
17 will not schedule separate parent-teacher conferences absent extraordinary
18 circumstances.
19

20 2) Accessing a Child at School/Picking Up a Child.
21

22 School personnel will neither interpret nor enforce court orders governing
23 the relations between separated or divorced parents unless the court order
24 terminates the parental rights of a parent, limits a parent to supervised
25 visitation with minor children or otherwise specifically limits the parent's
26 access to the child at school. In all other circumstances, parents may
27 contact their child while at school or pick a child up from school at any time.
28 School staff are not responsible for enforcing visitation schedules contained
29 in any court order to which the school district is not a party.
