

North Haven Community School

VISION OF THE GRADUATE

ALL STUDENTS WILL EXEMPLIFY THE 5C'S AT NORTH HAVEN COMMUNITY SCHOOL

CHALLENGE

Flexible and adaptable thinkers step outside of their comfort zone, seek new opportunities, and take responsibility for their own learning. They are resilient, persevere. They take risks to build resilience through setbacks, overcome obstacles to improve outcomes, embrace difficulty and make mistakes. They can willingly engage in problem solving, inquiry, and designing solutions.

COMPETENCY

Someone who is life ready: is a well rounded, independent, self directed learner. They have the base foundational skills to achieve their goals and apply these skills to real life situations. They make healthy choices and are the architects of their own success. They evaluate and synthesize. They can apply a mastery of the fundamentals of disciplines and ability to multiple disciplines or challenges.

COMPASSION

“Good people” have empathy for others and the trust and sensitivity to share their knowledge and skills with others as well as the compassion for themselves to allow for their own happiness. They can give, receive, and process feedback academically, personally and socially.

COMMUNITY

An active participant in the NH community is engaged, helping to create a positive climate, attempting to collaborate, acting with tolerance, performing community service, and providing support. They can successfully collaborate with others in their school, local, and global communities.

CREATIVITY

Intellectually curious people explore opportunities and experiences and find their own independence and individuality. They find their own strengths and individual capacity inside different modalities; they embrace craftsmanship and alternative ways to represent and approach questions and tasks. They can express their own voice and identify unique ways to express their knowledge and demonstrate their capacities.
