#Schenectady Rising

18 Total Campuses

95 Years is Average Building Age

9,139 Total Student Enrollment

This \$300 million capital project would bring renovations, upgrades and the revitalization of Schenectady schools over the next seven years with **no impact on taxes**.

The district has 18 campuses, with almost 2 million square feet, and an average building age of 95 years old with a lot of wear and tear. The Schenectady Revitalization Plan serves as an intentional step toward revitalizing these schools. "This isn't about fixing a window or updating the outside of an old building. This is about revitalizing instructional spaces for our kids," said Superintendent Soler.

The plan includes extensive work to eight school buildings as well as central kitchen upgrades. It also addresses needs and renovations across the district as identified as necessary in the Building Condition Survey (BCS).

SCHENECTADY REVITALIZATION PLAN 2030
