Permission For Media Coverage

Dear Parent or Guardian,

There may be times throughout the school year when media professionals working for local or national newspapers, television, magazine, or similar outlets may be present at Stratford Public School educational programs or events that take place during the school day and are not open to the general public.

In addition, school personnel may, at times, photograph students in an educational setting for inclusion in Stratford Public School-sponsored PowerPoint presentations, videos, or other school publications.

In either of these circumstances, your child may be photographed or interviewed to illustrate students' participation in our educational programs.

Please sign below if you **DO NOT** want any media coverage of your child as described above.

If this form is not returned to the building principal by September 20, 2021. it will be assumed that parental permission has been granted for media coverage of your child during the 2021-2022 school year.

NOTE: You may revoke permission in writing at any time.

Media Coverage Opt-Out

Please do not allow any media coverage of my child
