RELATIONS WITH OTHER SCHOOLS AND SCHOOL DISTRICTS

MSD 1211

The Board will cooperate and may develop contracts with the state, its agencies and institutions, and any political subdivision for educational purposes and services. These contracts may be developed:

1. To share the services of employees with other school districts.
2. To provide for educational services with the Bureau of Indian Affairs, or any other federal department or agency.
3. To provide educational services for certain grade levels or courses within this district and another adjacent school district.

Tuition for students taught under contractual educational arrangements will be charged as provided by law or mutual agreement. As also provided by law when necessary, approval for entrance into these contractual arrangements will be received from the Secretary of Education.

LEGAL REFS.: SDCL 13-15-1 through 13-15-24

8/28/06 revision removed "And Cultural Affairs" from last sentence.

5/14/18 revision in item 3, add "or courses" between "levels" and "within", change "an" to "another", and delete "adjacent" (since we now do some course sharing with non-adjacent districts). In the last paragraph, in line 1, add "or mutual agreement" at the end of that line. In line 2, add "when necessary" between "law," and "approval".
