INTERDISTRICT ATTENDANCE

The Governing Board recognizes that students who reside in one district may choose to attend school in another district and that such choices are made for a variety of reasons. The Board desires to communicate with parents/guardians and students regarding what educational programs and services are available and how district programs and services may be improved.

The Board recognizes that current district enrollment corresponds well with district facilities and resources and that the district is capable of serving additional students. Upon request by students’ parents/guardians, the Superintendent or designee may approve Interdistrict Attendance Permits with other districts on a case-by-case and space available basis.

The District shall not knowingly accept for enrollment students who are not residents of the District without an Interdistrict Attendance Permit, provided that such permits are not required for students enrolling in ROC or ROP. (Education Code section 52317).

The Board shall specify the terms and conditions under which interdistrict attendance shall be permitted or denied. The Board will establish standards application and/or revocation of the student's permit. (Education Code 46600)

Upon receiving a permit for transfer into the district that has been approved by the student's district of residence, or upon receiving a written request from the parent/guardian of a district student who wishes to enroll in another district, the Superintendent or designee shall review the request and may approve or deny the permit subject to the terms and conditions of the Interdistrict Attendance Permit.
The Superintendent or designee may limit the number of student transfers out of the district to a school district of choice based on the percentages of average daily attendance specified in Education Code 48307. In addition, transfers out of the district may be limited during a fiscal year when the County Superintendent of Schools has given the district a negative budget certification or when the County Superintendent has determined that the district will not meet the state's standards and criteria for fiscal stability in the subsequent fiscal year exclusively as a result of student transfers from this district to a school district of choice. (Education Code 48307)
