THE DISTRICT of Bernalillo Public Schools assembled an advisory council to create an action plan to guide our school, as THE DISTRICT and our partners ensure each and every student has an educational experience that prepares them to attain success in life and become contributors to our communities. This work is titled: Portrait of a Graduate.

The Portrait of a Graduate will serve as a “north star” for the district to be used:

- For the future direction of student learning
- To ensure that students are prepared for college, a career or military service
- To continually enhance the educational experience for students

Using the national best practices of other school systems that have been successful in this work, the Portrait of a Graduate council is seeking participation businesses, community leaders, community members, students and teachers. You can contribute your ideas or expertise through:

- Surveys
- Focus groups
- Various types of interviews
- Film screenings
- Discussion groups

Data gathered from these activities will assist in how THE DISTRICT can best articulate the aspirations of our communities. In our effort to prioritize challenging academic content that provides the skills for our student to succeed in a changing and complex world, it is critical that we develop a framework that leads us in this direction. Your participation in this effort will be greatly appreciated as we make this momentous advancements in improving the educational system of our communities.

Best,  
  
Matt
