COLLEGE VISITS

Arrangements for college days must be made through the counselor’s office prior to a college visit. Seniors are allowed two full school days to visit college campuses and juniors are allowed two full days to visit college campuses. These days DO NOT ACCUMULATE from year to year, meaning that the maximum number of college days that you can take in one school year is two days. While students may arrange for a college visit through the counselor’s office, it is the student’s responsibility to contact the college to schedule a visit and complete the appropriate paperwork. Permission forms to take a college visit must be submitted to the office at least 2 school days prior to taking a college day. A verification letter from the college must be submitted to the high school attendance office within 2 days of the college visit. Failure to follow proper procedures could result in the college visit day counting as an absence. No college visits will be approved for the month of May.
